#### The New York Sub-Treasury now contains \$10,000,000 in gold, and a few handreds in silver coin. The safe containing the coin is kept in the Custom House, and is composed of double sheet iron, strengthened by cross bar of lattice work of cast steel rods, between which no instrument can cut or fire. The safe is fifteen feet chine of the kind ever offered to the public. long, eight wide, and about as many feet. The following certificate(one of a large number can cut or fire. The safe is fifteen feet high. It is divided into two apartments, in the inner one of which the money is deposited, and as it has three thick iron doors, each having two locks, the keys to which ha are distributed at night among the different clerks-the Assistant Treasurer keeping himself the register of the principal key, so that the safe cannot be unlocked unless all are present. On the sides of the safe are tiers of boxes, capable of holding in all nine millions six hundred thousand dollars. They are now filled with coin, which is put up in bags of five thousaud dollars each, except a few containing small amounts for convenience in making payments. The weight of the ten millions of gold now in custody is eighteen and three quarter tons.

WHAT THE MUSQUITO SAID TO THE SLEEPY GENTLEMAN .- Hum-m !-- hum, shut your eyes, sir; the noise you hear, 's nought but flies, sir ; whim-m -w-h-i-m ! don't be scared, sir; go to sleep, your sheets are aired, sir. Hum-a h-y-m-n it 's I'm singing, it's music in your ears is ringing; I wont sting you, sting you, s-t-i-n-g! I'd scorn to do so mean a thing. A h-u-m-bug it is, not me that bites. Take care ! I never fights. Slap ! Whang ! take care; you nearly hit me. 'Twas me my friend, that bit ye. There ! ag in ! it comes to blows ; you fool I didn't touch your nose. What in the world's the use of slapping-your own face, when you

'ould be napping ? A-h e-m ! m-m. it be alarmed, you really ought to be quite charmed. H-u-m, hum ! don't play the boy, I merely sung your lullaby. A whang, again. There, there you go. N use! you can't hit me you know. Now go to sleep. Aha! you're going. Now for a feast, old chap ; I go in. All right! he's gone, I'll have my fill. Say o'd sleepy here's my BILL.

I have this day carefully inspected a conductor or Lightning Rod, with vane and index, erected by Mr. Thomas Armitage, on Helievue House, Gloucester, and have no hesitation in saying that it is not only the best I have ever seen, but that it is the only one I have yet examined that is constructed on strictly scientific princi-ples. coulderby to the attention of owners of buildings. B. McMURTRIE. I am well satisfied that the Magnetic Lightning Rod, manufactured by Mr. Thomas Armitage, of Philadelphia, is the lose that has ever her made. Thave spent several years in the study of the laws of electricity and magnet-tism and have no herization in saying that these Rods are constructed upon the only principle of safety. The electric shock is received and dispersed by the magnet at the top of the rod, and it would be impossible, according to the laws of attraction and repulsion, for a building to be injured by a stroke of lightning when protected by one of these rods. I have been acquainted with Mr. Armitage for several years, and before he commenced the manufac-ture of these rods I examined the principle on which they are constructed, and the two mines that their soloption would be attended with complete success. The increasing demand for these rods, and the extensive ales in all parts of the country, is ample commendation of their utility and superiority. TRACY E. WALLER, M. D. Rieing Sun, Philat Co., April 10, 1852. FOR INFLUENZA AND WHOOPING COUGH. Naturality, Tenn., June 26, 1852. Sin.--I have repeatedly used your Chankur Paronal. for Whooping Cough and Influenza, and have no hesitation in pronouncing it a semplete remedy. Four of my child dren have been afflicted with these diseases, and the free use of the Paronal has always afforded almost instant roll.c. JAMES GLOVER. We attest the truth of the above statement: M.
