THE GLOBE : for the People.

It will be seen by the annexed extract from a letter of General Washington to David Stewart, dated New York, 17th March, 1790, that the idea of such a paper as I propose to make the Globe originated in the mind of the father of his Country. He said:

The Old Negro's Logic.

A clergyman asked an old servant his reasons for believing in the existence of a God :

"Sir," says he, "I see one man get sick. The doctor comes to him, gives him medicine ; the next day he is better ; he gives him another dose, it does him good : he keeps on till he gets about his business. Another man gets sick like the first one : the doctor comes to see him ; he gives him the same sort of medicine ; it does him no good, he gets worse ; gives him more, but he gets worse all the time till he dies. Now that man's time had come to die, and all the doctors in the world can't cure him. "Oue year I work in the corn field. plow deep, dig up grass, and make nothing but nubbins.
