DRESERVING and Pickling JARS just reed and for sale at the Mammoth Drug Store. ng 10 Da. THORNTON & CO. Aug 10

I N the present arrangement of this highly approved and valuable MILL, the labor is divided by arranging a cutting Cylinder to break the apples, and then deliver them to the lower cylinder to be reduced to pomace. By this arrangement the work is performed faster and with much less Inbor.

The Press is arranged with a much larger screw than formerly, and by a very ingenious device the use of the bag is di-pen ed with and the Tub made to open at will to deliver the pomace, while at the same time the Cider is left clear, and the work can be done with much less labor than by the old method.

The Cylinders are covered with heavy sheet Zinc, both on their peripheries and ends; the wood in them is arranged so as not to swell, and the whole work on the Mill and Press made in the very best manner, and arranged with especial view to their durability and service. NO FARMER, who uses the Mill carefully and according to directions, WILL BE DISAP-

POINTED; but, on the other hand, he will find this one of the most valuable and efficient machines on his farm.

The Machine is made to run by horse, steam, or hand power, and when the apples are ground

a boy of 14 years of age can prove the pomnee with all ease. (7) This Mill is war unted superior to any other Portable Mill in existence ; and the Proprietor is ready at any time (on fair notice being given) to test it with any Portable mill that is not an infringement on it.

Farmers! examine this NEWLY IMPROVED MILL, before you buy any other. One great advantage of this Machine over all others is, that IT WILL NOT CHOKE UP. and hard or soft apples can be ground, and yet the Cylinders will always remain clear and in

grinding order. The price of the Mill and Press is \$10. W. O. HICKOK, Harrisburg. OPersons in Union County, and the upper part of Northumberland, can obtain these Mills
