Melancholy Church Dedication

On Wednesday last., Nov. 9th, the New Presbyterian Church Edifice, at Washingtonville, in Montour county, was dedicated to the worship of Almighty God, attended by a train of circumstances such as perhaps never occured before, on a similiar occasion. It was a very wet day and at 11 o'clock, A. M., the Rev. Jours H. RITTENHOUSE, the Paster of the Congregetion, drove up, got out of hts conveyance, tied his horse, raised his umbrella, and as he approached the Church, and was within a short distance of the door, was seen to fall. He was immediately taken up, by persons present, and carried into the Church, where Dr's Hull and Caldwell made efforts to restore him, but he never spoke or moved, after he fell-he was dead! His remains were soon removed to his late residence, three-fourths of a mile from the new Church, where his wife, and three children, one of them but a few weeks old had separated with him but a very short time previously, forever- in this life. The Congregation, or those present, accompanied the remains to the house, and then returned to the Church, when the Dedication Sermon, prepared by the decoased, was read by the Rev. D. Waller The deceased was aged about 33 years, had taken a deep interest in the erection of this new House of Worship, and he was just about to enter it, to aid in the Dedication. God called him from the field of labor, for some wise purpose, beyond the comprehension of those who are thus forcibly admonished to be ready for the end of time, and the realities of eternity .- Danville Intelligencer.

The collission occured before the engineer had time to whistle down breaks, let off steam, reverse the motion, or even jump for his own life. He was pitched out head foremost into the ditch among the limbs. The fireman followed suit, and the baggage masters piled after them, all of whom received severe flesh bruises, but strange to say, escaped instant death, and managed to crawl from under the ruins of broken cars and fragments of smashed baggage. But, more miraculous still, none of the passengers were killed, or even had broken bones. Many received slight injuries, and all were more or less shocked and seared.

The train made three or four rebounds and advances, after striking the tree, before it came to a halt, each of which added "confusion worse confounded" to the gengers.

An armistice between the opposing powers has been concluded, although rumors were current of the Turks having crossed the Danube and commenced hostilities. The number stated as having crossed is 30,000. The Austrian papers contradict the report of an engagement on the Danube as brought by the steamer America, and tel-graphed from Halifax.

Previous to the receipt of intelligence that the Turks had crossed the Danube, it was stated that the Porte, at the uggent request of the four powers, had issued orders postponing hostilities to the first of November, provided that they had not already ommenced, in which case the order was void.
