Another "Rushing Melody."

Caleb Cushing, Attorney General under Pres. Pierce, recently wrote to his Democratic friends in Massachusetts, not to have any kind of connection with the Free Soilers. Whereupon a writer in the Philad. Daily Register-who sounds quite like a Whig Poet near Lewisburg-perpetrates the following:

The Terrible Manifesto of the Great Ku-Shing.

(Ku-Shing is the Caime, of or Cashing.)

Cushing once visited the "Brother of the Sun and Moon." Howbert, he caught somewhat of the Celestial inflation, and high self-appreciation.

· RECOMMENDATIONS.

PHIADA, Aug. 13, 1847.

I have this day carefully inspected a conductor or Lightning Rod, with vane and index, erected by Mr. Thomas Armitage, on Believan Hone, Glouceter, and have no hesitation in saying that it is not only the best have ever seen, but that it is the only one I have yet examined that is constructed on strictly scientific principles. It is with much pleasure that I recommend his conductor to the attention of owners of buildings.

II. McMUKTRIE.

If am well satisfied that the Marnetic Lichtnine Rod.

I am well satisfied that the Magnetic Lightning Red, manufactured by Mr. Thomas Armitage, of l'hiladelphia, is the best that has ever been made. I have spent several years in the study of the laws of electricity and magnetism, and have no hesitation in saying that these Rods are constructed upon the only principle of safety. The electric shock is received and dispersed by the magnet at the top of the rod, and it would be impossible, according to the laws of attraction and repulsion, for a building to be injured by a stroke of lightning when protected by one of these rods. I have been acquainted with Mr. Armitage for several years, and before he commenced the manufacture of these rods I examined the principle on which they are constructed, and felt convinced that their adoption would be attended with complete success. The increasing demand for these rods, and the extensive-sales in all parts of the country, is ample commencation of their utility and of the country, is ample commendation of their utility an superiority. The acknowledged and extraordinary curative powers of these wonderful inventions is now so generally known and their sales and reputation through out the whole country so extensive, that it would seem unnecessary to urgo thou morits further. But some late circumstances has encourted which render it a matter of duty to the public not to be altogether silent, for while the ephemeral nestrons of the day are trumpeted by columns through the Freas and swallowed by quarts and gallons by the affaited, and are found just good for nothing.

Christie's Galvanic and Magnetic Curatives, have been quietly working their way among the most intelligent and respectable classes, and are constantly achieving cures in an alarming train of discuses, which have for ages baffled all the aid of needleine and all the resources of Science. These discuses are called

- NERVOUS COMPLAINTS,

ADERVOUS COMPLAINTS, and in these diseases medicine is of no avail what ever. It never does good and it often does have syrups, Extracts, Balms, Balsams, Elixirs, Bittera, Fills, Powders and Potions of every kind are alike worthless, for they weaken the vital energies of the already prostrated system, while under the strengthening, life-giving, vitalizing influence of Gaivaniam, as applied by this beautiful discovery, the exhausted patient and weakened sufferer is restored to former health, strength, clasticity and vigor.

These remarks relate to such diseases as NEURALGIA, TIC DOLOREUX, BRONCHITIS, PALPITATION of the HEART, WEAKNESS and all FEMALE DISORDERS, such as NERVOUS HEAD ACHE, LASSITUDE and DESPONDENCY, which are only other names for Nervous Derangement, EPILEPTIC FITS and CONVULSIONS, which are now known to result from a non-equilibrium of Electric influence, NERVOUS TREMORS, DEAS. NESS, which is nearly always caused by torpolity of the Auditory Nerves, and can siways be perfetly cured by Galvaniam, when the organ is not destroyed. of the Auditory Nerves, and can always be perfectly cored by Galvanism, when the organ is not destroyed, DYSPEPSIA in its worst forms; PALST and PARALYSIS, uniformly caused by a deficiency of Nerveus influence; CHRONIC RHEUMATISM, TORPIDITY of the LIVER, PAIN in the SIDE, SLUGGISH CIRCULATION, SPINAL and HIP COMPLAINTS, DEFICIENCY of NERVOUS and PHYSICAL EXERGY, and all those distressing complaints resulting from a DERANGEMENT of the NERVOUS SYSTEM.

In the above prevalent and terrible class of dis cases—Nervous Complaints are much more numer ous than is generally imagined— CHRISTIE'S GALVANIC CURATIVES,

Are an Absolute and Positive Specific The BELLT is used when the body or system generally is affected; the NECKLAUE for complaints of the Throat, as Asthma and Bronchitis, and of the Head; and the BRACELETS for all disorders of the arms or limbs, as Rheumatism, Palsy, Tremors and Spasmodic affections. These articles are aimply applied as directed with the MAGNETIC FLUID which are commons them, and when faithfully used they accompanies them, and when faithfully used they NEVER FAIL!

NEVER FAIL!

The great peculiarity and excellence of the GALVANE CURATIVES consists in the fact that they arrest and cure disease by entwerd application, in place of the mand method of Drugging and Physicking the patient till exhausted mattre sinks hopelossly under the infliction. They strengton the whole system, combine the critical of the Blood, penalty in the control of the servicions, turing outer the entire energies, and can arrest do the slightest harm under any civronstences. Since their introduction in the United States, only three years since, more than

75,000 PERSONS including all ages, classes and conditions, among whom were a large number of Ladies, who are peculiarly subject to Nervous Complaints, have been

Entirely and Permanently Cured, when all hope of relief had been given up, and every thing else been tried in vain! The beneficial results which have uniformly attended their us is conf-dently stated to be without a parallel in the smale dently stated to be without a parallel in the annal-of Medical Science. I lengthout lawyers and even physicians, holies of the highest standing disti-guished persons holding elevated official stations, merchants, manufacturers, and mechanics, the jow-and the rich alike: eften whole families, among all classes, ganks and conditions, have equally been re-cipients, and have equally acknowledged the wan-drous and often unexpected benefits which they have thus received.

thus received.

### Let it be known and remembered that the only
Natural Restorative for the Nerves is Galvanus,
and that in all Nervous Diseases we should "Throw Physic to the Dogs."

To illustrate the use of the GALVANIC BELT, suppose the case of a person affected with that base of civilization, DVSTEERSIA or may other thronic or Nervous Disorder. In ordinary cases, atimulants are taken, which, by their action on the nervous minuscles of the stomach, afford temposary relief, but which leave the patient in a lower state, and with injuried faculties, after the action thus excited has maded. Now compare this with the effect resulting from the application of the GALVANIC BELT. Take a Dyspectic sufferer, even in the worst supposes of a stuck, and simply tie the Belt round the Body, using the Magnetic Fluid as directed. In a their period the insensible perspiration will act as their period the insensible perspiration will act as the positive element of the Belt, thereby causing a Galvanic circulation which will pass on to the negative, and thence back again to the positive element of the Belt, thereby causing throughout the system. Thus the most recte case of DVSPEPSIA are PERMANENTLY CURED. A FEW DAYS IS AMPLY SUPPICIENT TO ERADICATE THE DISEASE OF YEARS.

MANY THOUSAND "Throw Physic to the Dogs."

MANY THOUSAND CERTIFICATES AND TESTIMONIALS from the most intelligent and respectable persent residing in every portion of the United States, could be presented. These are now unnecessary, but a numerous selection embracing many statements of the most extraordinary character, subclient to CONVINCE THE MOST SCEPTICAL may be had of the authorised Agent. The interested are particularly invited to call.

. WHAT THINK YOU OF THIS!

From one of the most distinguised Physicians in the City of New York. class in the Chy of New York.

"I have been using Christie's Galvanic articles is a quiet way among my patients for about two yeas past, and I confess I am astonished at their success. If I am surre a disease is Nerrous, I know just whit they will do. In Epileptic Fits, particularly a children; Deafness and Affections of the Head, a adults; Faralysis and Falsy, in all ages, and indesseveral other diseases of like nature which have leag purried the profession, I have found the Galvans articles of surprising benefit. Although I detest the shameless quackery of advertisements and newpapers, I must express my confidence and belief in the wonderful virtues of CHRISTIES CURITIVES. My name is, of course, confidential, but shall never hesitate to recommend your articles of all proper occasions."

Dear Sir.—Boing a physician in the vicinity of one of your Agents, I have been much gratified in the examination of your Gelvanic Curatives and highly pleased with their practical results. I have observed that they are constructed on the true scientific principle for the gentle, agte, phasmi and continued development of the Galvanic Current, thereby filling a disideratum, long sought for, but herefolm unknown. I cheerfully recommend them to the alleviation and cure of those distressing aliesas called Nearous Companys, for which they are happily and ingeniously designed.

Very truly yours. DAVID RICE, M. D.
