LEWISBURG CHRONICLE

DECEMBER 9, 1853.

To Business Men.—The Lewisburg Chronicle has considerably the largest circulation of any Republican newspaper in Union county.

Acknowledgment.

NEW YORK, Nov. 30, 1853.

Dear Sir—My heart is cheered by such kind remembrances [$10 collected in the Lewisburg Baptist Church, 24th Nov., for the Five Points Mission] as that received through your letter. Though it be not large, it has the power of feeding many hungry, of clothing many naked, and making many hearts rise with grateful thanksgiving to the Father of our mercies.

Thanksgiving, with us, was a joyous season. Six hundred hungry ones, sat down to a table well filled by a generous public with abundance of luxuries, and went away satisfied. Father Gavazzi and others addressed us, and altogether it was one of the pleasantest occasions I have ever known. Yours truly,

Geo. W. Anderson. L. M. PEASE.

33d Congress—1st Session.

WASHINGTON, Mon., Dec. 5, '53.

In Senate, 47 of the 62 Senators took their seats, and the new Members present were sworn in.

In the House, 217 of the 239 Members and Delegates answered to their names—when Lynn Boyd, of Ky., was re-elected Speaker, he having 143 votes to 74 for all others. John W. Forney of Pa. had 121 votes for Clerk (79 for all others) and was re-elected; and the remaining Officers of the last House (all Democrats) were then re-elected by resolution.

TUESDAY, Dec. 6.—The President's Message was transmitted to both Houses.

Synopsis of President Pierce's Message.

Our diplomatic relations with foreign powers have undergone no essential change.

The Fishery question is under negotiation, with a fair prospect of a favorable result.

Great Britain has proposed to settle our embarrassing questions in regard to Central America, by amicable arrangement, and Mr. Buchanan is instructed to negotiate.

The boundaries between the United States and the Northwest possessions of Great Britain need settlement, and the attention of Congress is called to the subject.

With France our relations continue most friendly, and some progress has been made in negotiating a treaty which will release both countries, to mutual advantage, from unnecessary restrictions.

All unauthorized expeditions against Cuba and Porto Rico will be vigorously repressed.

A proposition has been made for a direct appeal to the Captain General of Cuba by our Consul, on behalf of our citizens who suffer vexation and annoyance, owing to the suspicious vigilance with which foreign intercourse is there guarded. Without some such arrangement our good understanding must be exposed to occasional interruption.

The Armistad claim of Spain is again urged for prompt adjustment, as good faith requires.

Martin Koza, at the time of his seizure by Austria at Smyrna, was clothed with American nationality; Capt. Ingraham's course is fully approved, and the demand of Austria for Koszta's surrender, a disavowal of Capt. U's acts, and satisfaction for the alleged outrage, have been declined.

The Commissioner to China is instructed to avail himself of all occasions to open and extend our commercial relations with that and contiguous Asiatic nations.

It is not yet ascertained how far the Emperor of Japan is disposed to abandon his restrictive policy, and open his country to our commerce.

Disputes have arisen with Mexico as to the re-survey of the boundary between New Mexico and Chihuahua, and other questions of magnitude are pending between the two Republics. Our minister is amply instructed to adjust them, and it is reasonably expected that they may be satisfactorily concluded.

Treaties have been made with Paraguay and the Argentine Confederation, for the freer navigation of their rivers, and our Minister to Brazil is instructed to obtain a relaxation of the restrictive policy in regard to the free navigation of the Amazon.

Measures have been taken to remove the difficulties experienced in obtaining supplies of guano from Peru, and there is reason to believe that country is disposed to offer adequate indemnity to our citizens, aggrieved by the collision with its authorities at the Chincha Islands.

Our domestic relations are exempt from cause of serious disquiet.

The principles of public policy, affirmed by our fathers in 1798, are alone capable of maintaining and perpetuating this Republic.

There is no change to suggest in our financial policy, and there is a general acquiescence in the wisdom of the present system as to the sources of keeping and managing the public treasure.

The public revenue increases beyond the interests of the prospective wants of the Government; the surplus makes the path of duty obvious and clear to the administration, first to discharge the public debt, and second, to gradually reduce the revenue to the standard of the public exigencies. Since March 1853, $12,703,329 of the public debt have been cancelled, leaving unpaid $56,486,708.

A reduction of the Tariff is suggested, by reducing the duties on certain articles, and adding to the free list many articles that are now taxed, especially those which enter into manufactures.

The Navy is not in a condition of strength and efficiency commensurate with the magnitude of our commercial interests, and the Army requires augmentation to adapt it to our extended frontier.

The Post Office has failed to meet its current expenses by $2,042,632.

The defects of the Pension Laws, giving impunity to frauds, are desirable of early attention.

During the fiscal year 9,819,411 acres public land have been surveyed, and 10,-393,891 brought into market; the sales amounted to 1,830,492 acres; bounty land warrants 6,143,360 acres; ceded to the States as swamp land 16,684,255 acres; selected for railroad and other objects 1,-457,457 acres. Total acres disposed of 25,346,992. The whole amount of land warrants issued prior to September 30, last, was 266,042, and then outstanding 66,947, to satisfy which 4,787,120 acres are required. Under the act of February 11, 1847, warrants for 12,879,280 acres have been issued, and under the acts of September 28, 1850, and March 22, 1852, to the amount of 12,502,560 acres. The present system works well. The nett profits of sales of public lands to June 30, 1853, was $63,289,465. The extension of the system over New Mexico and Utah is recommended, and no essential change is recommended, except by modifications in favor of the actual settler, and an extension of the pre-emption principle in certain cases.

The construction of roads within the territories, under authority of Congress, has been so long exercised as to be considered the settled construction of the government.

Applications for grants of land to construct railroads must be prudently considered, to avoid reckless and indiscriminate extension of the principle.

Patentees are recommended to the favorable consideration of Congress.

The judicial system has so entirely satisfied public confidence that it needs modification only, to meet the increased extent of population and legal business of the country. Florida, Wisconsin, Iowa, Texas, and California, should be placed on the same footing as the rest of the Union. A plan is prepared to meet these requirements if Congress should call for it.

The policy of internal improvements should be definitely settled against appropriations by the general Government for local purposes, so that localities requiring expenditures, could by legitimate means raise the necessary funds.

Having always in view the importance of a railroad to the Pacific, weighed against the obligations of strict adherence to the Constitution, and to the extent of the interest of the government involved, it would seem both expedient and proper, if an economical and practicable route can be found to aid its construction by all constitutional means.

In regard to the Slavery question, the President repeats the Union and Compromise doctrines contained in the Inaugural, and expresses his conviction that the matter has been finally settled, and the rights of all parties preserved.

The President looks upon the further augmentation of territory as a natural consequence of the growth of prosperity and population, and the extension of our influence, which will lead other nations on this continent to range themselves under our banner, and seek admission into our confederacy. He thinks heretofore our government has worked only on a miniature scale, "in comparison with a future, so near at hand, as scarcely to be beyond the present of the existing generation."

The Message urges a strict adherence to the provisions of the Constitution, without any enlargement of its letter—deference to the sovereign rights and dignity of every State—and strict economy and the highest public morality in the legislation and administration of the Government.

The oath of the Vice President was administered to him, in compliance with the act of Congress, on the island of Cuba, 24 March last, "but his strength gradually declined, and was hardly sufficient to enable him to return to his home in Alabama, where, on the 18th day of April, in the most calm and peaceful way, his long and eminently useful career was terminated."

The President closes with an assurance of his earnest desire to co-operate in all measures calculated to advance the interests of our common country.

Notices of motions and the presentation of petitions occupied the remainder of the day.

Bishop Turion, of Buffalo, has addressed a letter to the Roman Catholic Church of St. Louis, in that city, commanding the trustees to surrender their Church property into his hands, in accordance with the recent decision of the Pope's Nuncio, and threatening them with excommunication if they refuse to comply. In answer to this demand and threat the congregation unanimously resolved to let the Bishop take such course as he thought wise and proper, and to take no notice of his letter.

The Turkish War.

Arrival of the Europa—The Turks still Victorious—Movements in France.

The Europa reached New York on the 6th Dec., with advices from Liverpool to the 19th Nov.

We have considerable confusion in the detail of war news, but the following are undoubted results:

That 100,000 Turks are north of the river Danube—that fighting, which had resulted unfavorably to the Russians, had taken place at several points—that Turkish troops in Asia had been victorious in several issues—that the Russians were in expectation of strong reinforcements, then near the Pruth—and the Moslem commander was determined to push on, until he had fulfilled his promise to drive the invaders from the Turkish soil.

Probably no action of magnitude has been fought since the repulse of Gortschakoff from Oltenitza, as published in the news by the Atlantic. Skirmishes are almost daily, but they have no weight on the general issue. The enthusiasm of the Turks, since it was known that the Sultan will himself command the army, exceeds all bounds.

At Giurgovo, shots were continually exchanged, with some effect. A transport of 60 wounded Russians from Giurvego came into Bucharest on the 8th, which was the first the Russians knew of the collisions. A physician in the Russian service writes from Bucharest, "We have wounded here from the affairs of Oltenitza, Kalareshe, Giurgovo, Kalafat, and before Krejova." This may be taken as an authentic list of the battles fought.

FRANCE.—A French writer says that the Emperor is amassing troops between Strasburg and Marseilles, to be able, if necessary, to send off an army of 100,000 men, in less than five days, for ornign service.

France has formally announced to Austria, that if she gives refuge to armed Russians retreating from the Turks, France will regard it as equivalent to a declaration of war.

ENGLAND.—The Cabinet meets almost daily, but whatever the result of their deliberations, the public are not informed on the subject. It is rumored however that France is urging Great Britain to take a more decided, united stand against Russia.

Liverpool Cotton market remained stationary. Flour had advanced sixpence.

The Washington correspondent of the N. Y. Evening Post states, that official advices received in that city, render it very certain that England will shortly declare war against Russia.

Triple Murder!

A most horrid and exciting occurrence is noted in Hyde county, North Carolina, on the 30th ult. Geo. W. Carawan was convicted of the murder of C. H. Lassiter, a schoolmaster, in Nov. of last year. Upon the verdict being rendered, Carawan drew two single-barrel self-cocking pistols, one of which he discharged at Mr. Warren, the counsel for prosecution, who was slightly wounded near the heart, where the ball glanced; with the other, Carawan shot a hole through his own head, and fell dead in the prisoner's box! The wretched man was 56 years old, of uncommonly good appearance, large intellect, with enormous animal passions, whose ungoverned sway have destroyed him. He had been a preacher, in the Baptist church, of more than ordinary ability. Lassiter had been employed in the neighborhood, and awakened the jealousy of the murderer that he sought to corrupt his wife. The victim had left the place, and was found buried, his body perforated with balls, in a wood not far from Carawan's residence. There was little if any doubt of C.'s guilt.

CHILD KILLED BY A BEAR.—The Huntingdon *Banner* says that on the 2d ult., a large bear belonging to John Jamison, of Shade Gap, in that county, which had been all along kept securely chained, broke loose. He proceeded to the house of Mr. Michael Trexler, a neighbor of Mr. Jamison's, and so severely wounded a child of Mr. Trexler's that it died in a few hours. It carried the child into a shed adjoining the house, and it was here killed by the neighbors.

A wise horticulturist will diligently collect, from week to week, the leaves that fall under each tree, and by digging them under the soil about the roots, where they will decay and enrich that soil, provide, in the cheapest manner, the best possible food for that tree.

The Paid Fire department at Cincinnati has thus far been entirely successful. A late paper enumerates among its results—"peace and good order in the streets, silence and quiet in the engine-houses, and harmony and friendship among the members."

BOSTON, Dec. 5.—The brig Cracus, at Cardenas, from Boston, picked up six of the crew of the barque Hyperion, from New York, lost after having been three days out. The remainder of the crew perished.

WASHINGTON, Dec. 5.—Gen'l Twiggs has returned to New Orleans from a visit to the Cherokee Nation, and reports all quiet there.

DR. JOHN LOCKE, Surgeon Dentist, has returned to Lewisburg, where he will attend to his professional business until further notice. Oct. 28, '53.

The Road to Health!

HOLLOWAY'S PILLS.

CURE OF A DISORDERED LIVER AND BAD DIGESTION

Copy of a Letter from Mr. B. W. Kirkus, Cornhill, 7, Prescot Street, Liverpool, dated 8th June, 1851.

To Professor Holloway.—Sir—Your Pills and Ointment have stood the highest on our sale list of Proprietary Medicines for some years. A customer, to whom I can refer for any enquiries, came to me to let you know the particulars of her case. She had been troubled for years with a disordered liver, and bad digestion. On the first occasion however, of her taking a few doses of the above, she was charming and the inflammation was subdued, so that she was able to attend to her own business, which I am pleased to say she continued to do for more than a month. Fortunately she was induced to try your Pills, and she informs me that after the first, and each succeeding dose, she felt great relief. She continued to take them, and whilst she used only three boxes of your Ointment, she was in the enjoyment of perfect health. I could name several persons nearly in the same situation, but the above from its severity, and the speedy cure, speaks much. I think in favor of your extraordinary Pills. (signed) B. W. KIRKUS.

AN EXTRAORDINARY CURE OF RHEUMATIC FEVER, IN THE SHOULDER JOINT.

Copy of a Letter received in the Hobart Town Courier of the 1st March, 1851, by Major J. Welch.

Margaret M'Cormick, a little girl in her 12th year of age, residing at New Town, had been suffering from a violent rheumatic fever, for many months, in the shoulder joint, and had entirely deprived her of the use of her limbs; during the period she was under the care of the most eminent medical men in Hobart Town, and by them her case was considered hopeless. A friend prevailed upon her to try Holloway's celebrated Pills, which she continued to use, and in less than a short space of time they effected a perfect cure. CURE OF A PAIN AND LIGHTNESS IN THE CHEST AND STOMACH OF A LADY OF 74 YEARS OF AGE.

From Thomas Thorp, Esq., Proprietor of the Boston Advertiser, &c.

To Professor Holloway. August 24, 1851.

Sir—I consider it but a matter of justice to you, and others of Holloway's Pills, to state that I have for a long time been subject to a pain and lightness in the stomach, which was also accompanied by a distressing cough that prevented me from walking about. I applied to a physician, who prescribed for me, but I found no relief. I then tried several other remedies, but they also failed to give me relief. I was induced to try Holloway's Pills, and I am happy to say that after taking them for a short time I found myself entirely relieved from the pain and lightness in the stomach, which was also accompanied by a distressing cough that prevented me from walking about.
