Home Value of the Press.

The editor of a village paper out west, STRUCK for his dues once on a time, and stopped his paper. His subscribers were mostly in arrears, and he resolved, in the most positive manner, that he would give the people no more of the product of his hands, pocket, and brain, until he should receive some of the products of their farms, or, if that was not convenient, the cash instead. He happened to own a patch of ground, and he very quietly took up the shovel and the hoe, and with his devil went to work raising his grub, while waiting the decision of the town's people.

Great was the excitement in the village when the paper was stopped. The maids and matrons didn't know who was married and who died in the neighboring towns; the farmers got no news respecting the crops in other sections of the country and sold off their produce at much lower prices than they might have commanded; the manners and morals of the people deteriorated; the children grew up much less intelligent than formerly; and the people got completely in the fog on all the prominent questions of the day.

When any of the inhabitants went off trading or visiting or to Court, they almost always came back with some ridiculous story told them by some mischievous people who knew that their local paper was lifeless for want of aliment, and that few had subscribed for city papers whose terms were invariably cash in advance.

One of the first men in the place once threw them all into commotion by spreading the rumor of a war impending between the United States and England. Reports of this nature would flourish until some new arrival would disabuse the good people and not unfrequently laugh at them for their credulity. Their only excuse was that their paper had stopped—an excuse the letter portion were ashamed to give.

Frequently, when some of the men of the neighborhood passed by the printer, and saw him laughing to see his own corn and potatoes grow, they would ask, in tones almost indignant, when he intended to start the paper again? His reply was, WHEN will the old subscribers pay up?

The old subscribers were rather *stuffy* about the matter, as a venerable dame expressed it, and thought they could stand it as long as the poor printer. They tho't it hard to be obliged to pay for a paper which they had only subscribed to at first to give the enterprise a start—only to encourage the thing; and so they resolved to endure the suspension firmly.

Matters were however brought to a crisis by the following circumstance. A deacon in the church came home from a neighboring town one day, and announced that on Thursday of the next week, Thanksgiving would be observed. The farmers killed all their fat poultry on the first of the next week and started off to market, while their good wives rolled up their sleeves and went to work at making mince pies. The young men bought dancing pumps and engaged a fiddler, and the girls sat up nights to make dresses for the thanksgiving ball.

Great was the surprise and chagrin of all the inhabitants of the village to learn, on the return of the farmers from market, that their deacon had been grossly humbugged, and that the Thanksgiving festival would not come off for another week. They had been obliged to sell their poultry at a sacrifice, and would be compelled to wear their old Sunday coats another year in consequence.

The mothers and daughters, hereupon, set up a great clamor, and at length the heads of the families, ashamed of their conduct, called a public meeting and voted to invite the printer to lay down the shovel and the hoe and resume the publication of his paper. They paid up arrearages and for the next year in advance, and many who had depended on their neighbors for their reading, subscribed for copies for themselves, so the list of subscribers was increased, and all became in reality PATRONS of his sheet. The people of the place are happy once more, and each thanksgiving festival reminds them to pay their advance subscriptions for their local paper.—*Boston Herald.*

DOYLESTOWN, Dec. 19.—We have just passed through a session of two weeks of our Court. The leading case on the civil list was an action of nuisance, brought by the Rev. J. A. Strasberger vs. the Rev. S. Weinberger. Both parties were owners of adjoining mill properties, and the defendant, who was the lower owner, by raising his dam, backed the water into the tail-race and upon the wheel of the plaintiff. The plaintiff had no objection to defendant's "damming" his own congregation, for that was in the line of his duty, but he had no idea of submitting to such an infliction from his Reverend brother. Verdict for plaintiff.

SHOCKING PUN.—When is coffee a just cause for a divorce between husband and wife? ANSWER: When it has *sufficient grounds.*—[It is no more than proper for us to add, (which we do on the authority of JEEMS) that the Hon Mr. Leatherhead has introduced into Congress a bill to bar the author of this shocking pun from all the glories of the Kompromise!]

There is no telling what a day will bring forth, as Mr. Day said, when Mrs. D—— had twins.

Reading's Patent Corn Sheller,

Capable of shelling 1000 Bushels of Corn per day. For sale by

DAVID LANDRETH,

AT HIS NEW AGRICULTURAL WARE-HOUSE,
No 23 SOUTH SIXTH STREET,
Sole Agent for Philadelphia.

This Sheller, patented in July, 1852, has met with a success unparalleled by any Machine of the kind ever offered to the public. The following certificate (one of a large number received) will give some idea of what people think of it who have used it:

"*Summit P. Office*, Del. Jan 26, 1853.

This is to certify, that I have had Reading's new Corn Sheller, patented in July last in operation on my farm for part of a day, during which time it shelled rising seven Hundred Bushels of Corn; and from what I have seen of its performance I am satisfied its capacity is fully *One Hundred and fifty Bushels per hour.* It does not break the Corn, nor are the cobs at all injured for fuel. I greatly prefer it to my other Sheller now in use, and think it will supersede all others now made.

Very Respectfully Yours, JOS. S. WARREN."

Here is your Remedy!

HOLLOWAY'S OINTMENT

A MOST MIRACULOUS CURE OF BAD LEGS, AFTER 35 YEARS' SUFFERING.

Extract of a Letter from Mr. William Colgan, of 70, Saint Mary's Street, Weymouth, dated May 10th, 1851.

To Professor HOLLOWAY.

SIR—At the age of 18 my wife (who is now 61) caught a violent cold, which settled in her legs, and ever since that time they have been more or less sore, and greatly inflamed. Her agonies were distracting, and for months together she was deprived entirely of rest and sleep. Every remedy that medical men advised was tried, without effect; her health suffered severely, and the state of her legs was terrible. I had often read your Advertisements, and advised her to try your Pills and Ointment, and as a last resource after every other remedy had proved useless she consented to do so. She commenced six weeks ago, and, strange to relate, is now in good health. Her legs are painless, without scam or scar, and her sleep sound and undisturbed. Could you have seen the suffering as I saw it my wife during the last 35 years, and contrast them with her present enjoyment of health, you would indeed feel delighted in having been the means of so greatly alleviating the sufferings of a fellow creature. (signed) WILLIAM COLGAN.

A PERSON 70 YEARS OF AGE CURED OF A BAD LEG OF 30 YEARS STANDING.

Copy of a Letter from Mr. Wm. Abbs, Butcher of Gas Orent, of Rushcroft, near Huddersfield, dated May 31st, 1851.

To Professor HOLLOWAY.

SIR—I suffered for a period of 30 years from a bad leg, a result of two or three different accidents at the Works, secure my called by scorbutic symptoms. I had recourse to a variety of medical advice, without deriving any benefit, and was even told that the leg must be amputated—yet, in opposition to that opinion, your Pills and Ointment have effected a complete cure in so short a time that few who had not witnessed it would credit the fact.

(signed) WM. ABBS.

The truth of this statement can be verified by Mr. W. P. Sherland, Chemist, 19, Market street, Huddersfield.

A DREADFUL BAD BREAST CURED IN ONE MONTH.

Extract of a Letter from Mr. Frederick Turner, of Tenterden, Kent, dated December 14th, 1850.

To Professor HOLLOWAY.

DEAR SIR—My wife had suffered from Bad Breasts more than six months, and during the whole period had the best medical attendance, but all to no use, and having before healed an awful wound in my own leg by your unrivalled medicine, I determined I will now use your Pills and Ointment, and therefore gave them a trial in her case, and fortunate it was that I did so, for in a month's time she was perfected; and the benefit that various other branches of my family have received from their use is really astonishing. I now strongly recommend them to all my friends.

(signed) FREDERICK TURNER.

AN INFLAMMATION IN THE SIDE PERFECTLY CURED.

Copy of a Letter from Mr. Frances Arnot, of Broadwood, Lydford, Devonshire, dated April 29th, 1851.

To Professor HOLLOWAY.

SIR—For more than 20 years my wife has been subject, from time to time, to attacks of inflammation in the side, for which she was bled and blistered to a great extent; still the pain could not be removed. About four years ago she came to me (she was then in bed) and I carried by your Pills and Ointment, and thought she would give them a trial. To her great astonishment and delight, she got immediate relief from their use, and after persevering for three weeks the pain in her side was perfectly cured, and she has enjoyed the best of health for the last four years.

(signed) FRANCIS ARNOT.

The Pills should be used conjointly with the Ointment in most of the following cases:

Bad Legs	Chilblains	Fistulas	Sore Throats
Bad Breasts	Chapped Hands	Gout	Skin Diseases
Burns	Elephantiasis	Glandular Swellings	Scurvy
Bunions	Corns (soft)	Lumbago	Sore Heads

Lightning Rods.

AFTER many years' close investigation and numerous experiments, the Patentee takes pleasure in informing the public that he has arrived at the true principle of protecting families, dwellings and property from the destructive influence of **LIGHTNING.** The calamities that every City, Town, Village and Country falls victim to annually, thro' the gross negligence of its inhabitants, is beyond calculation, especially when the remedy is so easy to obtain—this is found in

ARMITAGE'S

Patent Magnetic Lightning Rods,

and to this alone. This Rod has been examined by the most scientific gentlemen in the world—Professors M'Murtrie, Johnson, Wallor and many others that have examined them, recommend and speak of them in the highest terms of approbation, and have pronounced them the only safe rods in use in this or any other country for the protection of Lives and Property. One advantage is to divide and throw back a part of the electric fluid harmless to the clouds; in time of a stroke this enables the rod to conduct that portion of fluid that belongs to the earth without the slightest danger of leaving the conductor. This rod has many other advantages over the old one. The only place of manufacturing is in

Vine St. 3 doors above 12th, Philadelphia,

where all persons are respectfully invited to call and examine for themselves. For sale Wholesale or Retail by THO'S ARMITAGE.

Orders promptly attended to. Terms cash.

RECOMMENDATIONS.

PHILADA., Aug. 13, 1847.

I have this day carefully inspected a conductor or Lightning Rod, with vane and index, erected by Mr. Thomas Armitage, on Bellevue House, Gloucester, and have no hesitation in saying that it is not only the best I have ever seen, but that it is the only one I have yet examined that is constructed on strictly scientific principles. It is with much pleasure that I recommend his conductor to the attention of owners of buildings.

H. M'MURTRIE.

I am well satisfied that the Magnetic Lightning Rod, manufactured by Mr. Thomas Armitage, of Philadelphia, is the best that has ever been made. I have spent several years in the study of the laws of electricity and magnetism, and have no hesitation in saying that these Rods are constructed upon the only principle of safety. The electric shock is received and dispersed by the magnet at the top of the rod, and it would be impossible, according to the laws of attraction and repulsion, for a building to be injured by a stroke of lightning when protected by one of these rods. I have been acquainted with Mr. Armitage for several years, and before he commenced the manufacture of these rods I examined the principle on which they are constructed, and felt convinced that their adoption would be attended with complete success. The increasing demand for these rods, and the extensive sales in all parts of the country, is ample commendation of their utility and superiority. TRACY P. WALLER, M. D.

CHERRY PECTORAL

For the Cure of

COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

"And by the river, upon the bank, thereof shall grow all trees for meat, whose leaf shall not fade, and the fruit thereof shall be for meat and the leaf thereof for medicine."

Here was hope for the sick recorded long ago, and every year adds new proof to the assurances that these promises shall not fail.

As medical science discovers and designates the remedies nature has given, one by one the diseases that afflict our race yield to the control of art. Of all the maladies we suffer from, none has carried more victims to an untimely grave than Consumption of the Lungs. Subjoined we give some evidence that this too may be cured, and that Pulmonary Complaints, in all their forms, may be removed by CHERRY PECTORAL.

FOR INFLUENZA AND WHOOPING COUGH.

NASHVILLE, Tenn., June 26, 1852.

SIR—I have repeatedly used your CHERRY PECTORAL for Whooping Cough and Influenza, and have no hesitation in pronouncing it a complete remedy. Four of my children have been afflicted with it, and by the prompt and the free use of the PECTORAL has always afforded almost instant relief. JAMES GLOVER.

$500 CHALLENGE.

WHATEVER concerns the health and happiness of a people, is at all times of the most valuable importance. I take it for granted that every person will do all in their power to save the lives of their children, and that every person will endeavor to promote their own health at all sacrifices. I feel it to be my duty to solemnly assure you that WORMS, according to the opinion of the most celebrated Physicians, are the primary causes of a large majority of diseases to which children and adults are liable. If you have an appetite continually changeable from one kind of food to another, Bad Breath, Pain in the Stomach, Picking at the Nose, Heedlessness and Fullness of the Belly, Dry Cough, Slow Fever, Pulse Irregular—remember that all these denote WORMS, and you should at once apply the remedy—

HORENSACK'S WORM SYRUP,

An article founded upon scientific principles, compounded with purely vegetable substances, being perfectly safe when taken, and can be given to the most tender infant with decided beneficial effect. Where Bowel Complaint and Diarrhœa have made them weak and debilitated, the tonic properties of my Worm Syrup are such, that it stands without an equal in the catalogue of medicines in giving tone and strength to the stomach, which makes it an infallible remedy for those afflicted with *Dyspepsia.* The astonishing cures performed by this Syrup after Physicians have failed, is the best evidence of its superior efficacy over all others.

THE TAPE WORM!

This is the most difficult Worm to destroy of all that infest the human system. It grows to an almost indefinite length, becoming so coiled and fastened in the intestines and stomach, effecting the health so sadly as to cause St. Vitus Dance, Fits, &c., that those afflicted seldom if ever suspect that it is *Tape Worm* hastening them to an early grave. In order to destroy this worm, a very energetic treatment must be pursued; it would therefore be proper to take 6 to 8 of my Liver Pills, so as to remove all obstructions, that the Worm Syrup may act direct upon the worm, which must be taken in doses of two tablespoonfuls three times a day; these directions followed have never been known to fail in curing the most obstinate case of *Tape Worm.*

HORENSACK'S LIVER PILLS.

No part of the system is more liable to disease than the Liver, it serving as a filtery to purify the blood, or giving the proper secretion to the bile, so that any wrong action of the Liver affects the other important parts of the system, and results variously, in Liver Complaint, Jaundice, Dyspepsia, &c. We should, therefore, watch every symptom that might indicate a wrong action of the Liver. These Pills being composed of *Roots and Plants* furnished by nature to heal the sick, namely, 1st, An *Expectorant* which promotes the secretion from the pulmonary mucous membrane or promotes the discharge of secreted matter. 2nd. An *Alterative,* which changes in some inexplicable and insensible manner the certain morbid action of the system. 3d. A *Tonic* which gives tone and strength to the nervous system, reducing health and vigor to all parts of the body. 4th. A *Cathartic* which acts in perfect harmony with the other ingredients, and operating on the bowels, and expelling the whole mass of corrupt and vitiated matter, and purifying the blood, which destroys disease and restores health.

TO FEMALES.

You will find these Pills an invaluable medicine in many complaints to which you are subject. In obstructions either total or partial, they have been found of inestimable benefit, restoring their functions to a regular arrangements to a healthy action, purifying the blood and other fluids effectually to expel or fight all complaints which may arise from female irregularities, as headache, giddiness, dimness of sight, pain in the side, back, &c.

Grain Drills.

THE undersigned wish to inform the farming community generally, that they are now manufacturing

J. P. ROSS' Newly Improved GRAIN DRILLS, or SOWING MACHINE.

Without stopping to discuss the comparative merits of numerous Drills now offered for sale, they merely wish to invite Farmers to call and see the above named article before purchasing elsewhere, feeling confident that they can furnish an article that will give entire satisfaction.

ROSS, GEDDES & MARSH.

Lewisburg Foundry, Aug. 13, 1850.

IT IS A FACT,

ONE self-evident, and worthy of every consideration, that no Miller can make good clean flour without he has good clean wheat. I suppose you wish to know the remedy. I tell you—it is to get one of *Bergstresser's Wheat Scourers,* or Smut Machines. He being an old, practical and experienced Millwright has invented, got up and put in successful operation the best Wheat Scourer now in use. Any person ordering a machine and afterwards finding that it does not prove to operate as represented, there shall be no sale, as these machines are to be warranted good. Further recommendations are thought unnecessary. He is now having a supply made at Lewisburg, by Messrs. Geddes & Marsh. Orders for machines, or letters of inquiry, will be promptly attended to. Machines will be sent and put to all orders. Address
