The electric shock is received and dispersed by the magnet at the top of the rod, and it would be impossible, according to the laws of attraction and repuision, for a building to be injured by a atroke of tightning when protected by one of these rods. I have been acquainted with Mr. Armitage for several years, and before he commenced the manufacture of these rods I examined the principle on which they are constructed, and felt convinced that their adopting would be attended with complete success. MAGNUTUS PURULD The acknowledged and extraordinary curative powers of these wonderful inventions is now so generally linears and their sales and reputation through out the whole country so extensive, that it would seem state circumstances have concurred which reader it a matter of duty to the public not to be altogether silent, for while the epimental nontrunes that concerns the convention of the duty to the public not to be altogether silent, for while the epimental nontrune of the due are trumpeted by columns through the Frees and avalenced by quarts and gallons by the affaired, and are found just good for nothing.

Christie's Galvanic and Magnetic Curatices have been quietly working their way emong the most intelligent and respectable classes, and gr-constantly achieving cures in an slarming train of discuss, which have for ages baffled all the aid of seclicities and all the resources of Science. These discusses are called

"NERVOUS COMPLAINTS.

**NERVOUS COMPLAINTS, and in these diseases medicine is of no avail what ever. It never does good and it often does haven. Syrupe, Extracts, Balmas, Balasans, Ellistra, Billies, Follasans, Ellistra, Billies, Follasans, Ellistra, Billies, Follasans, Ellistra, Billies, Follasans, Francis Billies, Follasans, for they weaken the vital emergies of the already prostrated system, while under the strengts, enting file-giving, vitalizing influence of Galvanian, as applied by this beautiful discovery, the exhausted patient and weakened sufferer is restored to former health, strength, elasticity and vigor.

There remarks relate to such diseases as NEU-RALGIA, TIC DOLOREUX, BRONCHITIS, PAL-PITATION of the HEART, WEARNESS, and all FEMALE DISORIBEDS, such as NERVOUS HEAD ACHE, LASSITUDE and DESPONDENCY, which are only ofter mines for Nervous Berangement, EPILEFTE, FTPS and CONVULSIONS, which are new known to result from a non-equilibrium of Electric influence, NERVOUS TREMORS, DEAF-NESS, which is nearly always caused by torpidity of the Authory Nerves, and can always be perfectly cored by Galvaniam, when the organ is not destroyed, DASP-JSA in its worst forms; PALS' and PARA-LYSIS, uniformly caused by a deficiency of Nervous influence, CHRONG, BHBLUMATISM, TORPIDITY of the LIVER, FAIN in the SIDE, SLUGGISH CIR. CILLATION, SIPNAL, and HIP COMPLAINTS, DEFICIENCY of NETVOUS and PHYSICAL ENERGY, and all those distressing complaints resulting from a DERANGEMENT of the NERVOUS FROM and all those distressing complaints resulting from a DERANGEMENT of the NERVOUS SISTEM.

In the above prevalent and terrible class of discuss. Nervous Complaints are much more numer out than is generally imagined.

CHRISTIE'S GALVANIC CURATIVES, Are an Absolute and Positive Specific. Are in Absolute and Postaye special and Postaye and the Phost, as Authors and Bronchists, and of the Read, and the BRAC FLETS for all disorders of the arms or limbs, as Elecumentum, Palsy, Tremore and Spannelle affections. These articles are simply applied as directed with the MAGNETIC FLETO which accompanies them, and when faithfully used they NEVER FAIL!

Secondaries them, and were larger to the NeVER FAIL!

For The great poculiarity and excellence of the GALVANIA CUPATIVES consists in the fact that they arrest and care disease by autoord application, in place of the usual method of Drugging and Espackaging the patient till exhauster instar sinks happlessly under the unfaction. They accorded to what the confidence of the Road, pounded the acceptance in the characteristic for the Road, pounded the acceptance for characteristic for the entire coverging, and can sever do the displace have under one circumstances. Since their introduction in the United States, only three years since, more than

75,000 PERSONS

meluding all ages, classes and conditions, among whom were a large number of Ladies, who are pecu-liarly subject to Nervous Complaints, have been Entirely and Permanently Cured, when all love of relief had been given up, and every thing else been tried in wan! The beneficial results which have undermity attended their use is conf-dently chiral to be writtened a praefiel in the annual

denity stabul to be without a parallel in the annay of Medical Science. Chergy mea, lawyers and ever physicians: holies of the highest standing; distinguished persons holding elevated official stations merchants, manufactures and mechanics; the pear and the treit stake; often whole families, among at choose, racks and contribute have equally been requests, and have equally been requests, and have expelly acknowledged, the wondreas and offen unexpected baseds which they have find received.

Let be it be known and remembered that the only Natural Rectorative for the Nerves is Galvanian, and that in all Nervous Dreesses we should "Throw Physic to the Dogs."

To illustrate the use of the GALVANIE BELT, suppose the case of a person affected with that bane of exidination, 19 \$12.881.4 or any other Chasene or Nersons Disorder. In ordinary cases, simulants are taken, which, by their action on the nerves and muscles of the stomach, afford responsy relief, but which leave the potient in a lower state, and with injerted faculties, after the action thus excited has besed. Now compare this with the effect resulting from the application of the GALVANIC BELT. Take a Dayseptite sufferer, even in the worst symptom of an attack, and simply the the Belt round the Ecdy, using the Mingnetic Fluid as directed. In Mart period the insensible perspiration will act on 2c positive element of the fleit, thereby causion a felivanic circulation which will pass on to the negative, and thence back again to the positive, thus keeping up a continuous Galvanic circulation diroughout the system. Thus the most severe case of DYSPENIA are FERMANENTLY CUPED. A FEW DAYS IS AMELY SUFFICIENT TO ERADICATE THE DISEASE OF YEARS.

MANY THOUSAND "Throw Physic to the Dogs."

MANY THOUSAND from the most intelligent and respectable persons reading in every portion of the United States, could be presented. These are now immercessary, but a numerous selection embracing many statements of the most extraordinary character, as heisent to CONVINCE THE MOST SCEPTICAL may be held of the authorised Agent. The interested are particularly invited to call.

WHAT THINK YOU OF THIS! From one of the most distinguised Physicians in the City of New York.

claus in the City of New York.

"I have been using Christie's Galvanic articles in a quiet way among my patients for about two years past, and I confess I am astumbhed at their success. If I am aure a disease is Now, as I know just what they will do. In Epileptic "its particularly in children: Deafness and Afections of the Head, in adults; Faralysis and Palsy, in all ages, and indeed several other diseases of like "high the have long purzied the profession, I is the take Galvanic articles of surprising benefit dameless quackery of an access and helief in the wonderful virtues of CHRISTIEN CURATIVES. My name is, of course, confidential, but I shall never besitate to recomm and your articles on all propor occasions."
