-They dispatch business in the criminal courts here, in pretty much the same style, and with as little ceremony, as a smart salesman in the country, measures off calico, or weighs out groceries. In many instances prisoners are arraigned, witnesses examined and verdicts rendered in almost as little time as it takes to pen this sentence ; and it must be a remarkable case that invokes long speeches, or a written charge from the Court. Almost any day, between ten and three o'clock-which are the Court hours-rowdies enough would be tried and sentenced to fill our county jail. Many of them, with an ingenuity and perseverance quite professional. Of course, as many varieties Mississippi in a June flood.

of human nature can be found here, as anywhere else, and the study is deeply interesting. Many laughable scenes occur, but the surface that makes the heart ache, and stance, the other day a married couple, with | in the coal region. a bright, promising son, of six years-were arraigned for treating him with demoniac oruelty, beating, starving and freezing him, diate murder; and it was proved that his mother was in the babit of dragging him around by the bair, and burning his fiesh with a hot iron ! The child was transferred by the Court to better hands, and the parental monsters held to answer for their revolting crima. The name of the couple is Hammer .---- The Court house here is a fair match for the rickety old concern at New Berlin, but the great diversity of opinion as to the best site for a new one, has hitherto prevented all remedy for evils which every body deplores. I gained admittance several times as a limb of the law, when the door keeper had rejected me as a witness on account of the jam inside. From two to eight courts are sitting some sen months in the aggregate, and the number of lawyers is about 700. From these these two facts you can cypher out the aunual amount of litigation.

There is great excitement, on the temperance question. A fiery and explosive every doubt from the minds of those who indiguation meeting came off this week to denounce the alleged treachery of Senator Eli K. Price, on the Maine Law question. Agrecable to previous notice given, the citizeus of Centre county favorable to the construction of the Lewisburg, Centre & Spruce Creek Railroad, met at Millheim, Centre county, Pa on the 21st Feb. The meeting was largely attended, and the Railroad spirit seemed to be aroused in every locality in Penns and Brush Vallies. Some of the most energetic and throughjoing commissioners of this important project, have, by their renewed efforts created in excitement, which, if it produces an ffect at all meetings that will henceforth be called, similar to that at Millheim, on the 21st, the reality of this great improvement, speeding its course through our mountains and vallies, will at once dispel

The following named gentlemen were then called upon to address the meeting : David Duncan, Esq., spoke upwards of an hour in his usual eloquent style; Gen. George Buchanan's remarks were highly interesting and to the point ; Maj. John Neff spoke in the German language in a manner that made the building ring with applause.

Towards evening it held up, and at the appointed hour I went, with our neighbor W. F., to Concert Hall, to hear Rev. The papers speak of his address as lacking in the graces of oratory and clocution, but absorbingly interesting in its matter, and the deep feeling, warm, heart-felt and impressable, which characterized its delivery.
