CHRONICLE.

Beamed on the maiden's face : And while I pondered in my mind

How such a thing could be, The whole assembly joined to sing Some time-worn melody.

To please the critic's car; But childhood joined its ringing tones With those of faltering age.

And here no "fashionable" airs,

The tedium to beguile, Are set to solemn hymns of praise,

In reverential prayer ;

And all in spirit seemed to join, Nor could I weil forbear, For Christ, and not the minister, Was most apparent there. Its words of charity and love

Did the whole world embrace, Unbounded by the love of sect, That Anti-Christian grace.

And little did I care to know If "old" the school, or "new," From whence the soul of such a man Its rich instruction drew. His teacher none could well mistake;

Lessons of wisdom that can guide A sinful human heart.

The congregation passed, Slowly, as one might turn his back

Unto his soul was given

One heart, one wind, one earnest will, Seemed to inspire the whole, As friend to friend with freedom told

Strange though it seems, no single word

VOLUME X --- NO. 49. WHOLE NUMBER, 517. Commercial Crisis in San Francisco.

We have been favored by Messrs. Howard & Co's. Express, with copies of San Francisco papers to the first of February uit, all of which agree that in consequence of the great excess of importations to that City, a great revulsion has occurred, causing some very heavy failures among their business men. The San Francisco Prices Current, says that a total cessation of shipments for the next three months is needed to overcome the downward tendency of prices. Staple articles have been offered freely in the market, at prices which would enable shipmasters to realize a handsome profit by taking them back to New York. or other parts from which they originally

came, and even at those rates no purchasers can be found. This single fact should convince shippers that this is no market to send goods to at present. PROCEEDINGS IN COUNCIL.-At a meet-

ing of the Town Council of Sunbury, on Friday night of last week, 600 feet of the river bank, extending from 90 feet of the Market street landing, southward, were let to the Philadelphia & Sunbury Railroad Company, whereon to erect wharves. One hundred and fifty feet adjoining, including the main track of the railroad, were let to Reuben Fegely & Co., and 150 feet south of that, to Case & Reed. The inclined plane from the top of the bank to the water, is intended to be located on the 90 feet reserved between the Market Street landing and that part of the bank leased to the Philadelphia & Sanbury Company .- Gaz.

ser We have been in the receipt of information from an authentic source, that arrangements are about being made for the guaranty of the Northumberland county subscription to the Susquehanna railroad, by the Philadelphia & Sunbury Company. The latter company feel a great interest in the completion of the former improvement, and will take active measures towards that end. It is reported, with considerable probability of its being the case, that the work on the Susquebanna road will be recommenced inst news from this point in the Coal Region is to the effect that the third storey of the large new Hotel is being raised, and the whole building will be completed by the 1st of June. Barry, the contractor for the grading of the railroad between Shamokin and Mount Carmel, has nearly completed his contract. On account of the want of sleepers and rails for the track, this extension, it is thought, will not be done till the 1st of NEW CHURCH .- The Lutheran Congregation of Sunbury intend building a new Church on the site occupied by their present building. The new edifice is to be a brick, constructed in the Gothic style, and will be commenced as early in the spring as possible. The building now standing, is of logs, plastered on the outside, and is one of the oldest edifices in our town, a relie of the last century, having been erected in 1792 .- Sunbury Gazette. Rey.
