ABALINDA—or, Revenge!!!!!

A PRIZE TALE.

IT was near midnight, towards the close of the afternoon, on a sultry morning in December, 18—, previous to the revolution of the last war, when the burning moon was setting in the eastern sky, casting a brilliant shadow upon the gorgeous clouds, which entirely obscured the firmament, and the unclouded sun was sending down its noonday beams with an intensity of heat, like the shrieking of heavy thunder thro' the deep mountain gorges of the western prairies.

Lovely indeed, was the sound of such a spectacle to the feet of the weary traveler, for three feline monsters of the deep were just gathering together for their evening meal, and separating ere the sun was risen, for the sports of the chase, and all things betokened a response too deep for utterance.

In the ensuing autumn, about two years previous to the above mentioned merry catastrophe, two pedestrians might have been seen, riding upon horse-back in a three-wheeled carriage, up to the brow of a precipice under the side of a forest, which had been cut down before the trees had begun to take root, and engaged in eating their evening dinner by the road side, in the arms of Morpheus. The eldest of the three gentlemen was a young lady, of about fifty-three years and about two years younger than the other man, which latter gentleman was, from the manner in which she addressed him, evidently her only and youngest daughter.

The remainder of her dress consisted of two pair of pantaloons, neatly buttoned round the tops of her ears, and elegantly attached by a golden strap of unwoven silk to the axletree of the middle aged gentleman's horse.

The third individual, last mentioned, was an old gentleman of about twenty-two, whose venerable features disclosed the livid hue of Siberian negro. His bald head was profusely covered with long silver locks of sandy jet and which he evidently had lost during a severe attack of sea sickness caught from the next door neighbor, who resided several blocks from him in the country. He also was richly attired in the same manner as the lady being clothed in a worn out frock coat which was secured by straps under his boots.

His feet were bare, and save his gloves, he had no garments to shield him from the balmy atmosphere. He had lost both arms just above his colar bone, and was constrained to wear crutches. This, added to his total blindness, rendered him an object of general admiration.

As we do not intend to introduce the above mentioned personages into our story, we shall—

(To be continued in a former number.)

A Plucky Sheriff.

On Friday last, Sheriff Heffelfinger, of Chester county, proceeded to Baltimore with a requisition from Gov. Bigler, for Sloane, the prize fighter, who had previously been arrested in that city. They traveled on the cars, and when they arrived Havre de Grace, the prisoner asked to be unironed. The Sheriff complied with his request, as the cars were going at a very rapid rate. When about three miles this side of Chester, a "gentleman"—undoubtedly an accomplice—cut the bell rope that ran through the cars, stepped to the door and threw it open. Sloane evidently knew the movement, for he sprang to the door the instant it was opened. The Sheriff sprang after him, but a man sitting by the door had nearly closed it before he could reach it.

He, however, was on the platform in an instant, but only to see his prisoner spring from the cars, while they were running at the rate of from twenty-five to thirty miles an hour. He saw him strike the ground and roll upon it like a ball. In an instant the intrepid Sheriff followed, striking upon his face, and cutting his lip. He arose and found that his upper lip was the only wound in consequence. His prisoner had gathered himself up and started for a run, evidently crippled by his fall. The Sheriff followed and gained on his culprit, calling upon him to surrender, who seeing he was about to be overtaken, turned and squared himself for a fight. The Sheriff drew his revolver and attempted to fire, but fortunately for the prisoner it missed. He was about to try another, when the pugilist surrendered and begged for quarter.

The Sheriff held the pistol to his breast and told him to hold out his hands for the irons, which he submissively did. After securing him the Sheriff put his prisoner before him and started towards the city on foot. At the next stopping place, the conductor, who had remained ignorant of what had had happened, was informed of the circumstances, and was persuaded to run back, expecting to find the Sheriff and prisoner both dead, or badly injured. Instead of this, they were found on the rail, the victor marching his prisoner before him. They were taken on board and brought to West Chester.

A young lady in a boarding house, very vain of her musical talents, was one day entertaining the company with a song, when a crusty old bachelor came out of his room on the next floor, and bawled from the top of the stair:

"What are you doing with that pig? Do turn that pig into the street!"

"What pig?" cried several.

The bachelor descended the stairs, looked into the room, and said—"I thought I heard a pig squealing in this room!"

The girl never sang afterwards without first ascertaining that the old bachelor was absent.

A COUNTRY Dollar Paper!

Since the *Chronicle* came into our hands, we have clothed it in new type, at a cost of $300 or $100—Office rent has nearly doubled—Printing paper has advanced 20 or 25 per cent.—The number of workmen employed is larger—Farmers' produce is raised in price generally.....but our terms have not been advanced. Thus, while our *patronage* has increased, our *profits* have not.

☞A reasonable inference from these premises is, that WE MUST RAISE OUR RATES OF CHARGES, or *our readers* must obtain an increase of PATRONAGE. The papers above us on the West Branch, and some on the North Branch and elsewhere, have raised their charges. We choose to wait—one year longer—at the old rates, trusting that we may be favored with such an increase of Subscribers, Advertising, and Job Work, as may enable us to keep on at our old rates.

In almost every neighborhood, within 20 miles around Lewisburg, additional patrons might readily be obtained.

We send out weekly 98 papers in *single wrappers*. To print, fold, envelope, and direct singly, 52 times a year, affords but a small profit indeed. If each one now getting a paper alone will get one or more new subscribers to join him, the larger packages will go more safely, and afford us better compensation.

One Dollar a Year—*Two Cents a Week*—(and no postage in Union county,) is all the paper will cost to any old subscriber who will obtain *one* or more *new* ones, and send the Cash for all ($1 each) in advance. This offer is for ONE YEAR ONLY. With such a chance, no Housekeeper, no Young Man, should be without the Chronicle.

☞We ask all who approve the course of our paper, to aid it by getting one or more subscribers.☜

The renowned Remedy!

HOLLOWAY'S OINTMENT

This extraordinary Unguent is composed of the most healing Balsams, and when used in accordance with the directions which accompany each pot, will inform cures when all other means fail. Cases of the most desperate Skin diseases readily yield to its efficacy. It is famous when used in cases of Gout, Rheumatism, Contracted or Stiff Joints. In Asthmas it will do wonders if rubbed into the Chest.

Most astonishing Cure of Scrofulous Ulcers, certified by the Mayor of Boston, (Eng.)

Copy of a Letter from J. Noble, Esq., Mayor of Boston, Lincolnshire.

To Professor HOLLOWAY—Dear Sir: Mrs. Sarah Dixon of Liquorpond street, Boston, has this day deposed before me that for a considerable period she was severely afflicted with scrofulous sores and ulcers in her arms, feet, legs, and other parts of her body; and although the first of medical advice was obtained, at the cost of a large sum of money, she obtained no abatement of suffering, but gradually grew worse.

Being recommended by a friend to try your Ointment, she procured a small pot, and a box of the Pills, and before that was all used, symptoms of amendment appeared. By persevering with the medicines for a short time longer according to the directions, and strictly adhering to your rules as to diet, &c., she was perfectly cured, and now enjoys the best of health.

I remain, dear sir, Dated Aug 12, 1853. (signed) J. NOBLE.

Extraordinary and rapid Cure of Erysipelas in the Leg, after medical aid had failed.

Letter from Mrs. Elizabeth Foster, of the Post Office, Adwick-le-Street, near Bessmer, Yorkshire, dated Jan 12, 1853.

To Professor Holloway—Sir: I suffered for a considerable period from a severe attack of Erysipelas, which at length settled in my leg, and resisted all medical treatment. My sufferings were very great, and I quite despaired of any permanent amendment, when I was advised to have recourse to your Ointment and Pills. I did so without delay, and am happy to say the result was eminently satisfactory, for they effected a radical cure of my leg and restored me to the enjoyment of health. I shall ever speak with the utmost confidence of your medicines, and have recommended them to others in this neighborhood similarly afflicted, who derived great benefit.

I am, sir, your obliged and faithful servant,
(signed) ELIZABETH YEATES.

The Pills should be used conjointly with the Ointment in most of the following cases:

Bad Legs	Chilblains	Fistulas	Sore Throats
Bad Breasts	Chapped	Gout	Skin Diseases
Burns	Hands	Glandular	Scurvy
Bunions	Corns (soft)	Swellings	Sore Heads
Bites of Mos-	Corners	Lumbago	Tumors
chetoes and	Contracted	Files	Ulcers
Sand-Flies	and Stiff	Rheumatism	Wounds
Coco Bay	Joints	Scalds	Yaws
Chiego-foot	Elephantiasis	Sore Nipples &c &c.	

Sold at the Establishment of Professor Holloway, 244, Strand, (near Temple Bar, London), and also at his house in New York. Orders for Medicines in the States addressed "*T. Holloway, New York*" will receive due attention. Sold also by all respectable Druggists and dealers in Medicines throughout the United States, in Pots at 37½ cts., 87 cts. and $1.75 each. Wholesale by the principal Drug houses in the Union.

Lightning Rods.

AFTER many years' close investigation and numerous experiments, the Patentee takes pleasure in informing the public that he has arrived at the true principle of protecting families, dwellings and property from the destructive influence of LIGHTNING. The calamities that every City, Town, Village and Country falls victim to annually, thro' the gross negligence of its inhabitants, is beyond calculation, especially when the remedy is so easy to obtain—this is found in

ARMITAGE'S
Patent Magnetic Lightning Rods,

and in this alone. This Rod has been examined by the most scientific gentlemen in the world—Professors M'Murtrie, Johnson, Wallor and many others that have examined them, recommend and speak of them in the highest terms of approbation, and have pronounced them the only safe rods in use in this or any other country for the protection of Lives and Property. One advantage is to divide and throw back a part of the electric fluid harmless to the clouds; in time of a stroke this enables the rod to conduct that portion of fluid that belongs to the earth without the slightest danger of leaving the conductor. This rod has many other advantages over the old one. The only place of manufacturing is in

Vine St. 3 doors above 12th, Philadelphia,

where all persons are respectfully invited to call and examine for themselves. For sale Wholesale or Retail by THO'S ARMITAGE.
Orders promptly attended to. Terms cash.

These rods have been purchased and successfully used by the following individuals, companies and corporations, whose names are cheerfully submitted:

RECOMMENDATIONS.

PHILADA., Aug. 13, 1847.

I have this day carefully inspected a conductor or lightning Rod, with vane and index, erected by Mr. Thomas Armitage, on Bellevue House, Gloucester, and have no hesitation in saying that it is not only the best I have ever seen, but that it is the only one I have yet examined that is constructed on the electric scientific principles. It is with much pleasure that I recommend his conductor to the attention of owners of buildings.

H. M'MURTRIE.

I am well satisfied that the Magnetic Lightning Rod, manufactured by Mr. Thomas Armitage, of Philadelphia, is the best that has ever been made. I have spent several years in the study of the laws of electricity and magnetism, and have no hesitation in saying that these Rods are constructed upon the only principle of safety. The electric shock is received and dispersed by the magnet at the top of the rod, and it would be impossible, according to the laws of attraction and repulsion, for a building to be injured by a stroke of lightning when protected by one of these rods. I have been acquainted with Mr. Armitage for several years, and before he commenced the manufacture of these rods I examined the principles on which they are constructed, and felt convinced that their adoption would be attended with complete success. The increasing demand for these rods and the extensive sales in all parts of the country, is ample commendation of their utility and superiority. TRACY R. WALLER, M. D.

CHERRY PECTORAL
For the Cure of
COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

"And by the rivers upon the bank thereof shall grow all trees for meat, whose leaf shall not fade and the fruit thereof shall be for meat and the leaf thereof for medicine."

Here was hope for the sick recorded long ago, and every year adds new proof to the assurances that these promises shall not fail.

As medical science discovers and designates the remedies nature has given, one by one the diseases that afflict our race yield to the control of art. Of all the maladies we suffer from, none has carried more victims to an untimely grave than Consumption of the Lungs. Subjoined we give some evidence that this foe may be cured, and that Pulmonary Complaints, in all their forms, may be removed by CHERRY PECTORAL.

FOR INFLUENZA AND WHOOPING COUGH.

NASHVILLE, Tenn., June 26, 1852.

SIR—I have repeatedly used your Cherry Pectoral for Whooping Cough and Influenza, and have no hesitation in pronouncing it a complete remedy. Four of my children have been afflicted with these diseases, and the free use of the Pectoral has always afforded almost instant relief. JAMES GLOVER.

We attest the truth of the above statement:

J. M. ZIMMERMAN, Druggist.

FOR A CONSUMPTIVE COUGH.

PITTSBURGH, Pa., Feb. 25, 1851.

Dear Sir—For three years I have been afflicted with a cough, so distressing that I frequently despaired of recovery; much of the time I was obliged to sit up all night in my chair, as my cough would suffocate me when I laid down. Having used many remedies without much relief, I at last tried the CHERRY PECTORAL, which under Providence has cured me entirely. Yours, JAMES M'ANALLEN.

Among the other distinguished authorities who have lent their names to recommend this preparation as the best known to them for affections of the lungs, are—

Vocal and Instrumental MUSIC,
and the German Language.

VERY thankful for past patronage from the Citizens and Students of Lewisburg and vicinity, the subscriber would state that he continues to give Instructions on the Piano and Guitar—also in Vocal Music—and in the German Language. Having been taught in the best Music Schools in Germany, he deems himself amply qualified to teach Music, and to aid in the correct acquisition of the rich German tongue. He will also tune Pianos, and put them in repair, if desired.

Dr. CHRISTIE'S

THE acknowledged and extraordinary curative powers of these wonderful inventions is now so generally known and their sales and reputation farexceed the whole country so extensive, that it would seem unnecessary to urge their merits further. In some late circumstances have occurred which render it a matter of duty to the public not to be altogether silent, for while the opheremeral nostrums of the day are trumpeted by columns through the Press and swallowed by quarts and gallons by the ailing, and are found just *good for nothing.*

Christie's Galvanic and Magnetic Curatives,

have been quietly working their way among the most intelligent and respectable classes, and are constantly achieving cures in an alarming train of diseases which baffle for ages before all the art of medicine and all the resources of Science. These diseases are called

NERVOUS COMPLAINTS,

and in these diseases medicine is of no avail whatever. It never does good and it often does harm. Syrups, Extracts, Balms, Balsams, Elixirs, Pills, Powders and Potions of every kind are worthless, for while we weaken the vital energies of the already prostrated system, while under the strengthening, life-giving, vitalizing influence of Galvanism, as applied by this beautiful discovery, the exhausted patient and weakened sufferer is restored to former health, strength, elasticity and vigor.

These remarks relate to such diseases as NEURALGIA, TIC DOLOREUX, BRONCHITIS, AFFECTION OF THE HEART, WEAKNESS, and all FEMALE DISORDERS, such as NERVOUS HEADACHE, LASSITUDE and DESPONDENCY, which are only other names for Nervous Derangement, EPILEPTIC FITS and CONVULSIONS, which are now known to result from a non-equilibrium of Electric influence; NERVOUS TREMORS, PARALYSIS, which is nearly always caused by torpidity of the Auditory Nerves, and can always be perfectly cured by Galvanism, when the organ is not destroyed; DYSPEPSIA in its worst forms; PALSY and PARALYSIS, uniformly caused by a deficiency of Nervous influence; CHRONIC RHEUMATISM, TORPIDITY of the LIVER, PAIN in the SIDE, SLUGGISH CIRCULATION, SPINAL DISEASES and HIP COMPLAINTS, DEFICIENCY of NERVOUS and PHYSICAL ENERGY, and all those distressing complaints resulting from a DERANGEMENT of the NERVOUS SYSTEM.

In the above prevalent and terrible class of diseases—Nervous Complaints are much more numerous than is generally imagined—

CHRISTIE'S GALVANIC CURATIVES,
Are an Absolute and Positive Specific.

The BELT is used when the body or system generally is affected; the NECKLACE, for complaints of the Throat, as Asthma and Bronchitis, and of the Head; and the BRACELETS for all disorders of the arms or limbs, as Rheumatism, Palsy, Tremors and Spasmodic affections. These articles are simply applied as directed with the MAGNETIC FLUID which accompanies them, and when faithfully used they NEVER FAIL!

☞The great peculiarity and excellence of the GALVANIC CURATIVES consists in the fact that their great secret and power is conveyed by means of electricity, in place of the usual method of Drugging and Physicking the patient till exhausted nature sinks hopelessly under the infliction. *They strengthen the whole system, equalize the circulation of the Blood, promote the movements, invigorate the entire energies, and can never do the slightest harm under any circumstances.*

Since their introduction in the United States, only three years since, more than

75,000 PERSONS

including all ages, classes and conditions, among whom were a large number of Ladies, who are peculiarly subject to Nervous Complaints, have been

Entirely and Permanently Cured,

when all hope of relief had been given up, and everything else been tried in vain! The beneficial results which have uniformly attended their use is confidently stated to be without a parallel in the annals of Medical Science. Clergymen, lawyers, and even physicians; ladies of the highest standing, distinguished persons holding elevated official stations; merchants, manufacturers, and mechanics; the poor and the rich alike; often whole families among all classes, ranks and conditions, have equally been recipients, and have equally acknowledged the wonderful and often unexpected benefits which they have thus received.

☞Let it be known and remembered that the only Natural Restorative for the Nerves is Galvanism, and that in all Nervous Diseases we should

"Throw Physic to the Dogs."

To illustrate the use of the **GALVANIC BELT**, suppose the case of a person afflicted with that bane of civilization, DYSPEPSIA, or any other Chronic or Nervous Disorder. In ordinary cases, stimulants are taken, which, by their action on the nerves and muscles of the stomach, afford temporary relief, but which leave the patient in a lower state, and with injured faculties, after the action thus excited has ceased. Now compare this with the effect resulting from the application of the GALVANIC BELT. Take a Dyspeptic sufferer, even in the worst symptoms of an attack, simply tie the **Belt** round the body, using the Magnetic Fluid as directed. In a short period the insensible perspiration will act on the positive element of the Belt, thereby causing a Galvanic circulation which will pass on to the negative, and thence back again to the positive, thus keeping up a continuous Galvanic circulation throughout the system. Thus the most severe cases of DYSPEPSIA are PERMANENTLY CURED. A FEW DAYS IS AMPLY SUFFICIENT TO ERADICATE THE DISEASE OF YE
