ginated a year ago, after a secret attempt by the New Berlins to get new Public Buildings at the tax-payers' expense. The people, believing the time had arrived, petitioned, to the number of 2,200, for a Division, while 1,900 remonstrated. As it was late in the session, our members concluded not to urge it upon the Legislature, but leave it for further consideration. Last fall, the friends of Division attempted, in opposition to the efforts of the New Berlin men, to have a direct vote on the question of Division, aside from all other issues—the votes to be returned in like manner as other votes. This course was honestly carried out in some districts, which voted 3 to 1 for Division. But in the Anti-Railroad districts, an entirely false and deceptive issue was formed, on the Saturday before election, by the New Berlin men. They printed tickets, "*For the Division—for the Bonds,*" and "*Against the Division—against the Bonds,*" on one ticket, which they declared to be legal, and had voted together. These votes were not returned as other votes, and were not added up by the Clerks to the Return Judges. Counting the votes thus dishonestly cast and irregularly returned, there was a bare majority of 181 against Division; rejecting those votes as spurious, there were 6 to 800 majority *for* Division. This is now clearly demonstrated by three-fifths of the voters petitioning for Division—twice as many (including the neutral) as voted against Division.*

Instead of "false arguments" being used by us to bring about a division, it can be truly said, as you will perceive, these very arguments were used by the anti-division men, and the *persons who procured the signing of the Bonds,* to divert the voters from the true issue of division, in which they too well succeeded at that election. But, since the people have got their eyes open to the hypocrisy of the New Berlin men, and the issue is fairly put, of Division or No Division, leaving Bonds out of the issue, the true position of the public mind is exhibited by the petitions before your honorable bodies.

To carry out their threat to use the unpopularity of the Bonds to defeat the Division, as before intimated, the New Berlin cliques resorted to more than political intrigues. They have violated the sanctity of the Jury room. It has been proved by the oath of Grand Jurors that at the December Term last of our Court, while a bill for bribery was pending before them, different papers, and among the rest one containing interrogatories to be put to witnesses, was introduced into the jury room, without the knowledge of the Foreman or of the Court by some person or persons unknown—as the grand juror who received the paper could not be got to testify as to who gave it to him. When the sanctity of the jury room can thus be tampered with, to subserve local interests, we have a right to believe, and do verily believe, that it is not safe to try causes in a place where such corrupt influences can be brought to bear on the rights of suitors. Under a sense of this danger, the twenty causes which were ordered for trial the first week of the last Term, were all continued by consent of parties.

The last misstatement we shall trouble you to notice, is the assertion that "land was dedicated by individuals on which to erect public buildings, and the Court House was built by private subscriptions." The buildings were built, it is true, by subscriptions, but that subscription was made *by the assessors on the tax-payers of the County.* (Vide Sec. 10, Act of 22d March, 1813.) An individual, (Mr. Seebold) *did* give a piece of land for the public buildings, but, as the reports of the grand juries of that day will show, that individual afterwards petitioned the grand jury, who granted him a remuneration, out of the county funds, to pay him for the philanthropy of his grant!

The present application has no parallel, in applications heretofore made for new counties. It has been generally, if not always, the case, that the parties applying were the minority of the whole, or at best equal to the opposition. In this case, at least three fourths, if not more, of the inhabitants of each equal half part of the territory of the County, as it now is, ask a division. The opposition to the division is confined to New Berlin and a district of one to three miles around, and back of it. Is it reasonable that so small a part of the county should control such a decided majority, not only of the inhabitants, but the territory of the county, which, by the natural barriers of the territory, as well as the commercial, social, and business interests of the people, can be so appropriately made two separate and distinct communities?

We hope that in your wisdom you will see fit to grant the division, and thereby put at rest an agitation, that can be silenced in no other way.

March 15, 1854.

*The following extracts from the New Berlin *Times* of Aug. 25, 1853, will suffice to prove how dishonest were the efforts of the New Berliners to confound and mix up and confuse the Division with other issues:

"☞ Choose ye between Division, $200,000 Railroad Debt, $12,000 interest annually, and Enormous Taxation for the erection of Public Buildings, on the one side—and Anti-Division, Defeat and Cancellation of the Bonds, and Opposition to Increased Taxation, on the other side. Tax-payers, it is for you to decide!"

"☞ The question for decision this fall is—*For the Division—For the sale of the Bonds. Against the Division—Against the sale of the Bonds.* Tax-payers! what say you?"

A COUNTRY **Dollar Paper!**

Since the *Chronicle* came into our hands, we have clothed it in new type, at a cost of $300 or $400—Office rent has nearly doubled—Printing paper has advanced 20 or 25 per cent.—The number of workmen employed is larger—Farmers' produce is raised in price generally.....but our terms have not been advanced. Thus, while our *patronage* has increased, our *profits* have not.

☞A reasonable inference from these premises is, that WE MUST RAISE OUR RATES OF CHARGES, or *our readers* must obtain an increase of PATRONAGE. The papers above us on the West Branch, and some on the North Branch and elsewhere, have raised their charges. We choose to wait—one year longer—at the old rates, trusting that we may be favored with such an increase of Subscribers, Advertising, and Job Work, as may enable us to keep on at our old rates.

In almost every neighborhood, within 20 miles around Lewisburg, additional patrons might readily be obtained.

We send out weekly 98 papers in *single wrappers.* To print, fold, envelope, and direct singly, 52 times a year, affords but a small profit indeed. If each one now getting a paper alone will get one or more new subscribers to join him, the larger packages will go more safely, and afford us better compensation.

One Dollar a Year—*Two Cents a Week*—(and no postage in Union county,) is all the paper will cost to any old subscriber who will obtain *one* or more *new* ones, and send the Cash for all (81 each) in advance. This offer is for ONE YEAR ONLY. With such a chance, no Housekeeper, no Young Man, should be without the Chronicle.

☞We ask all who approve the course of our paper, to aid it by getting one or more subscribers.☜

HOLLOWAY'S OINTMENT

This extraordinary Unguent is composed of the most healing Balsams, and when used in accordance with the directions which accompany each pot, will insure cures when all other means fail. Cases of the most desperate Skin diseases readily yield to its efficacy. It is famous when used in cases of Gout, Rheumatism, Contracted or stiff Joints. In Asthmas it will do wonders if rubbed into the Chest.

Most astonishing Cure of Scrofulous Ulcers, certified by the Mayor of Boston, (Eng.)

Copy of a Letter from J. Noble, Esq., Mayor of Boston, Lincolnshire.

To Professor Holloway—Dear Sir: Mrs. Sarah Dixon of Liquorpond street, Boston, has this day deposed before me that for a considerable period she was severely afflicted with scrofulous sores and ulcers in her arms, feet, legs, and other parts of her body; and although the first of medical advice was obtained, at the cost of a large sum of money, she obtained no abatement of suffering, but gradually grew worse.

Being recommended by a friend to try your Ointment, she procured a small pot, and a box of the Pills, and before that was all used symptoms of amendment appeared. By perseverring with the medicines for a short time longer, according to the directions, and strictly adhering to your rules as to diet, &c., she was perfectly cured, and now enjoys the best of health.

I remain, dear sir,

Extraordinary and rapid Cure of Erysipelas in the Leg, after medical aid had failed.

Letter from Mrs. Elizabeth Yates, of the Post Office, Allsworth Wood, near Bagnor, Sussex, dated Jan 12, 1853.

To Professor Holloway—Sir: I suffered for a considerable period from a severe attack of Erysipelas, which at length settled in my leg, and resisted all medical treatment. My sufferings were very great and I quite despaired of any permanent amendment, when I was advised to have recourse to your Ointment and Pills. I did so without delay, and am happy to say the result was crowned with success for, by effecting a radical cure of my leg and restored me to the enjoyment of health. I shall ever speak with the utmost confidence of your medicines, and have recommended them to others in this neighborhood similarly afflicted, who derived great benefit.

I am, sir, your obliged and faithful servant,

Lightning Rods.

AFTER many years' close investigation and numerous experiments, the Patentee takes pleasure in informing the public that he has arrived at the true principle of protecting families, dwellings and property from the destructive influence of LIGHTNING. The calamities that every City, Town, Village and Country falls victim to annually, thro' the gross negligence of its inhabitants, is beyond calculation, especially when the remedy is so easy to obtain—this is found in

AEMITAGE'S
Patent Magnetic Lightning Rods,

and in this alone. This Rod has been examined by the most scientific gentlemen in the world—Professors M'Murtrie, Johnson, Wallor and many others that have examined them, recommend and speak of them in the highest terms of approbation, and have pronounced them the only safe rods in use in this or any other country for the protection of Lives and Property. One advantage is to divide and throw back a part of the electric fluid harmless to the clouds; in time of a stroke this enables the rod to conduct that portion of fluid that belongs to the earth without the slightest danger of leaving the conductor. This rod has many other advantages over the old one. The only place of manufacturing is in

RECOMMENDATIONS.

PHILADA., Aug. 15, 1847.

I have this day carefully inspected a conductor or Lightning Rod, with vane and index, erected by Mr. Thomas Armitage, on Bellevue House, Gloucester, and have no hesitation in saying that it is not only the best I have ever seen, but that it is the only one I have yet examined that is correctly and strictly on scientific principles. It is with much pleasure that I recommend his conductor to the attention of owners of buildings.

H. M'MURTRIE.

I am well satisfied that the Magnetic Lightning Rod, manufactured by Mr. Thomas Armitage, of Philadelphia, is the best that has ever been made. I have spent several years in the study of the laws of electricity and magnetism, and have no hesitation in saying that those Rods are constructed upon the only principle of safety. The electric shock is received and dispersed by the nearest at the top of the rod, and it would be impossible, according to the laws of attraction and repulsion, for a building to be injured by a stroke of lightning when protected by one of these rods. I have been acquainted with Mr. Armitage for several years, and before he commenced the manufacture of these rods I examined the principle on which they are constructed, and felt convinced that their adoption would be attended with complete success. The increasing demand for these rods, and the extensive sales in all parts of the country, is ample consolation of their utility and superiority. THOMAS F. WALLER, M. D.

CHERRY PECTORAL
For the Cure of
COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

"And by the river upon the bank thereof shall grow all trees for meat, whose leaf shall not wither, neither shall the fruit thereof fail: it shall be meat and the leaf thereof for medicine."

Here was hope for the sick recorded long ago, and every year adds new proof to the assurance that these promises shall not fail.

As medical science discovers and designates the remedies nature has given, one by one the diseases that afflict our race yield to the control of art. Of all the maladies we suffer from, none has carried more victims to an untimely grave than Consumption of the Lungs. Published we give some evidence that this foe may be cured, and that Pulmonary Complaints, in all their forms, may be removed by Cherry Pectoral.

FOR INFLUENZA AND WHOOPING COUGH.

NASHVILLE, Tenn., June 26, 1852.

SIR—I have repeatedly used your CHERRY PECTORAL for Whooping Cough and Influenza, and have no hesitation in pronouncing it a complete remedy. Four of my children have been afflicted with these diseases, and the free use of the Pectoral has always afforded almost instant relief. JAMES GLOVER.

We attest the truth of the above statement:

J. M. ZIMMERMAN, Inspector.

FOR A CONSUMPTIVE COUGH.

Pittsburgh, Pa., Feb. 25, 1851.

Dear Sir—For three years I have been afflicted with a cough, so distressing that I frequently despaired of recovery; much of the time I was obliged to sit up all night in my chair, as my cough would suffocate me when I laid down. Having used many remedies without much relief, I at last tried the Cherry Pectoral, which under Providence has cured me. Yours, &c. JAMES M'CALLES.

Vocal and Instrumental MUSIC,
and the German Language.

VERY thankful for past patronage from the Citizens and Students of Lewisburg and vicinity, the subscriber would state that he continues to give Instructions on the Piano and Guitar—also in Vocal Music—and in the German Language. Having been taught in the best Music Schools in Germany, he deems himself amply qualified to teach Music, and to aid in the correct acquisition of the rich German tongue. He will also tune Pianos, and put them in repair, if desired. Residence in South Fourth street, in the late Brick Office of Dr. Ludwig.

DR. CHRISTIE'S

MAGNETIC FLUID

The acknowledged and extraordinary curative powers of these wonderful inventions is now so generally known and their sales and reputation thro'ghout the whole country so extensive, that it would seem unnecessary to urge their merits further. But some late circumstances have occurred which render it a matter of duty to the public not to be altogether silent, for while the ephemeral nostrums of the day are trumpeted by columns through the Press and allowed by quarts and gallons by the afflicted, and are found just good *for nothing.*

Christie's Galvanic and Magnetic Curatives,

have been quietly working their way among the most intelligent and respectable classes, and are constantly achieving cures in an alarming train of diseases, which have for ages baffled all the *ill of* medicine and all the resources of Science. These diseases are called

☞NERVOUS COMPLAINTS,

and in these diseases medicine is of no avail whatever. It never does good and it often does harm. Syrups, Extracts, Balms, Balsams, Elixirs, Bitters, Pills, Powders and Potions of every kind are alike worthless, for they weaken the vital energies of the already prostrated system, while under the unwholesome, life-giving, vitalizing influence of Galvanism, as applied by this beautiful discovery, the exhausted patient and weakened sufferer is restored to former health, strength, elasticity and vigor.

These remarks relate to such diseases as NEURALGIA, TIC DOLOREUX, BRONCHITIS, PALPITATION OF THE HEART, WEAKNESS, and all FEMALE DISORDERS, such as NERVOUS HEADACHE, LASSITUDE and DESPONDENCY, which are only other names for Nervous Derangement; EPILEPTIC FITS and CONVULSIONS, which are now known to result from a non-equilibrium of Electric influence; NERVOUS TREMORS, DEAFNESS, which is nearly always caused by torpidity of the Auditory nerves, and can always be *perfectly cured* by Galvanism, when the organ is not destroyed; DYSPEPSIA in its worst forms; PALSY and PARALYSIS, uniformly caused by a deficiency of Nervous influence; CHRONIC RHEUMATISM, TORPIDITY of the LIVER, PAIN in the SIDE, SLUGGISH CIRCULATION, STONE and GRAVEL, and COMPLAINTS, DEFICIENCY of NERVOUS and PHYSICAL ENERGY, and all those distressing complaints resulting from a DERANGEMENT of the NERVOUS SYSTEM.

In the above prevalent and terrible class of diseases—Nervous complaints are much more numerous than is generally imagined—

CHRISTIE'S GALVANIC CURATIVES,
Are an Absolute and Positive Specific.

The BELT is used when the body or system generally is affected; the NECKLACE for complaints of the Throat, as Asthma and Bronchitis, and of the Head; and the BRACELETS for all disorders of the arms or hands, as Rheumatism, Palsy, Tremors and Spasmodic affections. These articles are simply applied as directed with the MAGNETIC FLUID which accompanies them, and when faithfully used they NEVER FAIL!

☞The great peculiarity and excellence of the GALVANIC CURATIVES consists in the fact that they arrest and cure disease by *natural application,* in place of the usual method of bringing and Physicking into the exhausted nature sinks hopelessly under the infliction. They *strengthen the whole system, equalize the circulations of the Blood, promote the secretions, invigorate the entire energies, and can never do the slightest harm under any circumstances.*

Since their introduction in the United States, only three years since, more than

75,000 PERSONS

including all ages, classes and conditions, among whom were a large number of ladies, who are peculiarly subject to Nervous Complaints, have been

Entirely and Permanently Cured,

when all hopes of relief had been given up, and everything else been tried in vain! The beneficial results which have uniformly attended their use is confidently stated to be without a parallel in the annals of Medical Science. Lawyers, ministers and even physicians; ladies of the highest standing; distinguished persons holding elevated official stations, merchants, manufacturers, and mechanics; the poor and the rich alike; often whole families, among all classes, ranks and conditions, have equally been recipients, and have equally acknowledged the wonderous and often unexpected benefits which they have thus received.

☞Let it be known and remembered that the only Natural Restorative for the Nerves is Galvanism, and that to all Nervous Diseases we should

"Throw Physic to the Dogs."

To illustrate the use of the GALVANIC BELT, suppose the case of a person afflicted with that bane of civilization, DYSPEPSIA, or any other Chronic or Nervous Disorder. In
