Jump 1x .- So said a good natured gentleman riding alone in his chaise as he evertook a young man on foot, several years ago. The youngster jumped in and was much obliged. Since that time he has often thought of the very timely and acceptable invitation then extended to him; and now, when he himself overtakes a lone raceler, wayworn and weary, he pays the old debt, by repeating the invitation-"jump in." A small matter surely, to help a stranger a mile or two on his way . yet it is one of those little things which go toward making up the sum of human beneficence and which pays the door a large interest on the amount invested.

RECOMMENDATIONS.

I have this day carefully inspected a conductor or tightning Ecd., with vane and index, creeted by Mr. Thomas Arminage, on Bellevie House, Gloucester, and have no legislation in saying that it is not only the best I have ever seen, but that it is the only one I have yet examined that is constructed on strictly electific principles. It is with much pleasure that I recommend his conductor to the attention of owners of buildings.

Lawrell collection that the Mr. McMURTHIE.

conductor to the attention of owners of buildings.

I am well satisfied that the Magnetic Lightning Rod, manufactured by Mr. Thomas Armitage, of Philadelphia, is the best that has ever been made. I have spent several years in the study of the laws of electricity and magnetism, and have no hesitation in saying that these Rods are constructed upon the only principle of safety. The electric shock is received and dispersed by the magnet at the top of the rod, and it would be impossible, according to the laws of attraction and repulsion, for a building to be injured by a stroke of lightning when protected by one of these rods. I have been acquainted with Mr. Armitage for everal years, and he fire becommenced the manufacture of these rods I examined the principle on which they are constructed, and felt convinced that their adoption would be attended with complete success. The increasing demand for these rods, and the extensivessics in all parts of the country, is ample commendation of their utility and superficity.

Old Newspapers, Some thousands in number, of all sizes, for sale at the Chronicle office, at 50 cts per standing, CASH—and also wood, Wheat, Butter,

have been quietly working their way among the most intelligent and respectable classes, and are constantly anhiering come in an alarming train of diseases, which have for ages bailed all the sed of melicine and all the resources of Science. These diseases are called

"NERVOUS COMPLAINTS.

In the above prevalent and terrible class of dis-eases. Nervous t complaints are much more numer ous than is generally imagined.—

CHRISTIE'S GALVANIC CURATIVES,

Are an Absolute and Postave option generally is affected; the NELKLACK for complaints of the Throat, as Asthma and Brouchitis, and of the Head; and the BRAGELETS for all disorders of the arms or limbs, as Sheumatism, Palsy, Tremors and Are an Absolute and Positive Speci arms or limits, as Ehermatism, Palsy, Tremore and Spasmodic affections. These articles are simply so flield as tirrected with the MAGNETIC FLUID which accompanies them, and when faithfully used they NEVER FAIL:

Nevell FAIL!

22 The great peculiarity and excellence of the GALVANIC CHRATIVE'S consists in the fact that they arises and care theses by subsard application, in place of the usual method of Drugging and Physicking the potent till exhausted nature sinks hopelessly under the indiction. They are notice the whole system equalize the circulation of the Blood, prompted according to the property of the servicions, insignous the entire mergins, and can move do the slightest have under any reconstitutes. Since their introduction in the United States, only three years since, more than

75,000 PERSONS

meluling all ages, classes and conditions, among whom were a large number of Ladies, who are pecu-liarly subject to Nervous Complaints, have been Entirely and Permanently Cured,

when all hope of relief had been given up, and every-thing else been tried in vain! The beneficial results which have uniformly attended their use is conf-dently stated to be without a parallel in the annial of Medical Science. Clergymen, lawyers and ever physicians; ladies of the highest standing; desirn guished persons holding elevated official states merchants, manufacturers, and mechanics, the poor and the rich slike; other whole families among all classes; ranks and conditions, have equally been re-cipicate, and have equally acknowledged the won-drons and other unexpected benefits which they have

has received.

Let it be known and remembered that the only Natural Restorative for the Netves is 6 and that in all Nervous Diseases we should "Throw Physic to the Dog:

"Throw Physic to the Bogs."

To illustrate the use of the GALVANIC BELT, repease the case of a person affected with that bane of civilization. DVSPLPSIA, or any other thronic or Nervous Disorder. In ordinary cases, stimulants are taken, which, by their action on the nerves and muscles of the stoutch, afford festpoury relief, but which leave the patient in a lower state, and with highered faculties, after the action thus excited has based. Now compare this with the effect resulting from the application of the GALVANIC BLLT. Take a Dyspeptic sufferer, even in the worst symposium of an attack, and simply tie the Belt round the Ecdy, using the Nagnetic Fluid as directed. In a fact, period the insensible perspiration will act on the positive element of the Belt, thereby causing a Galvanic chrolation which will pass on to the negative, and thence back again to the positive, thus keeping up a continuous Galvanic circulation throughout the system. Thus the most server class of DASSEPSIA are FERMANENTLY CURED. A FEW DAYS IS AMPLY SUPPLICIENT TO ERADICATE THE DISEASE OF YEARS.

MANY THOUSAND

MANY THOUSAND CERTIFICATES AND TESTIMONIALS from the most intelligent and respectable persons residing in every portion of the United States, could be presented. There are now unnecessary, but a numerous selection embracing many statements of the most extenordinary character, scheless to CON-VINCE THE MOST SCHTEAL may be had of the authorised Agent. The interested are particulityisted to call.

WHAT THINK YOU OF THIS! From one of the most distinguised Physicians in the City of New York.

clams in the City of New York.

"I have been using Christie's Galvanic articles in a quiet way among my parients for about two years past, and I confess I am automiahed at their success. If I am sure a disease in New pt. I know just what they will do. In Epileptic Fits, particularly in children; Deafuses and Alections of the Head, in sululus, Paralysis and Palsy, in all ages, and indeed several other diseases of like "hit have long purried the profession, I is form, the Galvanic articles of surprising beneft. Afther, the defict the sinameless quackery of ash disease in the wenderful virtues of CHRISTIE'S CURATIVES. My mane is, of course, confidential, but I shall never healtate to recommend your articles on all proper occasions."
