A Thousand Years.

By S. F. Bochanan - - - - - New York Tribune.

A thousand years ago—
On many an up-turned brow,
The moon shone bright as now;
And many a heart like mine
Bowed low at Beauty's shrine,
Blessed the Lord for light
And the good gift of sight.
A thousand years from now
Where will our spirit be?
In vast Eternity
Will I be lost in night,
Or bathed in God's pure light?
Thought's wings grow tremulous and weak with fears
While hovering o'er thatgulf—that gulf of years.

Another Exposition.

[A correspondent of the *Boston Herald* gives many revelations of the mysterious order styled Know Nothings by the uninformed. The following is the narrative of his initiation. He was on the Common:]

At 9 o'clock precisely, I stood beneath the big elm. Ere the sound of the ninth stroke had fairly died away, I was seized by four stalwart men, and, in less than a moment, my eyes were closely bandaged, and a sticking plaster clapped on my mouth.

One of the party then seized me by the coat tail, and twirled me round like a top for some minutes, so that when we started to leave the Common, I could not tell for my life, in what direction we were going.

Leaving the Common, I was hurried along at a rapid pace, through street after street till at last a halt was made, and a consultation was held between my conductors. At its conclusion they each said to the other—"*I don't know.*"

I was then suddenly lifted off my feet, and hurried into a building, and up seven flight of stairs, and at so rapid a pace that I could hardly catch breath through my nostrils.

Again my conductors paused, and I was placed again on my feet. Presently,there was a knock on a door. By the flashing light that burst thro' the bandage over my eyes, I knew as we entered the room, that we were in a brilliantly lighted hall of some kind, and, I judged from the atmosphere, that it was densely crowded.

I was led some distance into the hall, when somebody, in a loud and commanding voice, exclaimed, "halt!"

We stood still a moment or two, when in a terrible tone, the words were uttered, —"Be prepared! The hour has arrived!"

Whereupon I was quickly thrown over, and lashed upon a sort of settee.

"*One!*" cried the voice, and I received a tremendous whack on the back. "*Two!*" —and a second came. "*Three!*" and I got a blow, the mark of which I shall carry to my grave.

"Prepare for immersion!" exclaimed my mysterious tormenter. And in less than five minutes I was stripped to the skin, and plunged nine times into a sort of vat, filled with iced water. I thought I should have frozen to death on the spot, —and so I should, I verily believe, had I not been violently rubbed, or rather *rasped* when taken out, with a large and very coarse brush.

My clothes having been replaced, again the voice sounded—

"Remove the bandage and plaster!"

They were taken off, and I stood in the presence of more than 5000 men!

Immediately in front of me there sat a President, on an elevated platform, surrounded by his chief clerks and secretaries.

The seats in the immense hall were filled with well-built, and very respectable looking men, all sitting in profound silence, with heads erect, looking neither to the right or left, and not moving a muscle.

"Henry ——!" cried the President, (calling my name,) "take the oath of allegiance to the order, of which you have become a member!"

A clerk immediately advanced with a book in his hand, a opening and blank leaf, placed my right hand thereon.

"Swear!" exclaimed the President.

"I swear!" said I.

"Henry ——!" said the President, "receive the countersign. Follow the Clerk, as he proceeds."

The Clerk took out his tooth pick. I took mine out. He placed it in the left corner of his mouth. So did I. He squinted with the left eye. So did I. He put his tooth pick back into his pocket. So did I.

And the initiatory ceremonies were brought to a close.

KNOW NOTHINGS AMONG THE ROMANISTS.—Bishop Hughes has been carrying on a spirited controversy with the Daily Times for some time past, provoked by an assertion made in the columns of that journal that there was a split in the Roman Catholic camp; and that the American Catholics sympathized with the "Native" movement. This the Bishop denies. He has taken occasion, at the same time, to belabor and blackguard the Irish patriots who have shown a latitude of thought and action and a lack of bigoted devotion to the Papacy, incompatible with the spirit of true disciples of the "Mother Church." But he has stirred up a hornets' nest about his ears. Some of these Irish exiles carry trenchant pens, and not having the fear of the Archbishop before their eyes, they are beginning to attack unmercifully their priestly calumniator.

A Word for Ourselves

Since the *Chronicle* came into our hands, we have clothed it in new type, at a cost of $300 or $400—Office rent has nearly doubled—Printing paper has advanced 20 or 25 per cent.—The number of workmen employed is larger—Farmers' produce is raised in price generally.....but our terms have not been advanced. Thus, while our *patronage* has increased, our *profits* have not.

☞A reasonable inference from these premises is, that WE MUST RAISE OUR RATES OF CHARGES, or *our readers* must obtain an increase of PATRONAGE. The papers above us on the West Branch, and some on the North Branch and elsewhere, have raised their charges. We choose to wait—one year longer—at the old rates, trusting that we may be favored with such an increase of Subscribers, Advertising, and Job Work, as may enable us to keep on at our old rates.

In almost every neighborhood, within 20 miles around Lewisburg, additional patrons might readily be obtained.

We send out weekly 98 papers in *single wrappers*. To print, fold, envelope, and direct singly, 52 times a year, affords but a small profit indeed. If each one now getting a paper alone will get one or more new subscribers to join him, the larger packages will go more safely, and afford us better compensation.

☞We ask all who approve the course of our paper, to aid it by getting one or more subscribers.☜

LADIES' INSTITUTE

of the Penn Medical University of Philad.

THE FALL TERM of this new Medical School for Ladies, will commence on the first Monday in October, 1854, and continue four months.

The *System of Teaching*, here pursued is entirely new, and is more comprehensive, thorough, liberal and practical, than that of any other Medical School in the country. It is based, as far as possible, upon the positive Sciences consequently, free from all sects and dogmas. The branches of study are divided according to their natural order of succession, and taught in four progressive courses of four months each; there are two courses in each year, thus enabling the students to pass successively through all four courses within two years. By this arrangement the study is rendered easy, and possessed of daily increasing interest.

Ladies desiring a thoroughly scientific Medical Education, or any part particularly interesting them,have facilities here nowhere else to be found.

The renowned Remedy!

HOLLOWAY'S OINTMENT

This extraordinary Unguent is composed of the most healing Balsams, and when used in accordance with the directions which accompany each pot, will insure cures when all other means fail. Cases of the most desperate Skin diseases readily yield to its efficacy. It is famous when used in cases of Gout, Rheumatism, Contracted or Stiff Joints. In Asthmas it will do wonders if rubbed into the Chest.

Most astonishing Cure of Scrofulous Ulcers, certified by the Mayor of Boston, (Eng.)

Copy of a Letter from J. Noble, Esq., Mayor of Boston, Lincolnshire.

To PROFESSOR HOLLOWAY.—Dear Sir: Mrs. Sarah Dixon of Liquorpond street, Boston, has this day deposed before me that for a considerable period she was severely afflicted with scrofulous sores and ulcers in her arms, feet, legs, and other parts of her body; and although the first of medical advice was obtained, at the cost of a large sum of money, she obtained no abatement of suffering, but gradually grew worse.

Being recommended by a friend to try your Ointment, she procured a small pot, and a box of the Pills, and before that was all used, symptoms of amendment appeared. By persevering with the medicine for a short time longer according to the directions, and strictly adhering to your rules as to diet, &c., she was perfectly cured, and now enjoys the best of health.

I remain, dear dir,
Dated Aug 12, 1853. (signed) J. NOBLE.

Extraordinary and rapid Cure of Erysipelas in the Leg, after medical aid had failed.

Letter from Mrs. Elizabeth Yeates, of the Post Office, Adlestrop, Road, near Bourton, Stratton, dated June 12, 1853.

To Professor Holloway—Sir: I suffered for a considerable period from a severe attack of Erysipelas, which at length settled in my leg, and resisted all medical treatment. My sufferings were very great,and I quite despaired of any permanent improvement, when I was advised to have recourse to your Ointment and Pills. I did so without delay, and am happy to say the result was eminently successful, for the swelling is reduced, the redness of my leg and ankle is entirely gone, and my health is restored. I shall ever speak with confidence of your medicines, and have great pleasure in recommending them in this neighborhood whenever called upon to do so. You are at liberty to make this statement any use you think proper, for the benefit of afflicted sufferers.

I am, your obliged and faithful servant,
(signed) ELIZABETH YEATES.

The Pills should be used conjointly with the Ointment in most of the following cases:

Bad Legs	Chilblains	Fistulas	Sore Throats
Bad Breasts	Chapped	Gout	Skin Diseases
Burns	Hands	Glandular	Scurvy
Bunions	Corns (soft)	Swellings	Sore Heads
Bites of Mos-quitoes	and Stiff	Lumbago	Tumors
chelties and Contracted	Joints	Piles	Ulcers
Sand-Flies	Coco-Bay	Rheumatism	Wounds
Chigo-foot	Elephantiasis	Sore Nipples	Yaws
			&c. &c.

Sold at the Establishment of Professor HOLLOWAY, 244, Strand, near Temple Bar, London, and also at his house in New York. Orders for Medicines in the States should be addressed "*Professor Holloway, New York*" will receive due attention. Sold also by all respectable Druggists and dealers in Medicines throughout the United States, in Pots at 37½ cts., 87 cts. and $1.56 each. Wholesale by the principal Drug houses in the Union.

Proclamation to the Citizens of

Mifflinburg and Vicinity.

Pulvermacher's Hydro-Electric Voltaic Chains,

CONSTRUCTED to be worn next to the skin, producing a constant current of electro magnetism, effecting *immediate relief from all acute pains*, and a

Permanent Cure of all Neuralgic Diseases.

PULVERMACHER'S ELECTRIC CHAINS

Were first used in France,three years since,for the cure of nervous diseases,and after being submitted to the most thorough trial in every hospital in Paris by the most learned Professors in that city, they were recommended to the Government of France, which granted a patent for the discovery. During the year 1853 they were introduced in Germany, Austria, Prussia and England, and one year since introduced and patented by the U. S. Government.

Most astonishing cures of

Rheumatism,	St. Vitus' Dance,
Painful and Swelled Joints,	Palpitation of the Heart,
Neuralgia of the Face,	Periodical Headache
Deafness, Blindness,	Pains from Indigestion,
Hysterics, Dyspepsia,	Uterine Pains,
	Every Disease, called Nervous,

is quickly and rapidly cured, by simply wearing the Chain for a few hours each day.

The Chains were first introduced in the city of New York, where they were exhibited to Gov. Valentine Matt. Van Buren, Post, Cunningham, who readily discovered that they possessed

Strange and Singular Powers of

INSTANTLY RELIEVING PAINS,

whenever applied, and by their recommendation and influence they were introduced into the different hospitals of New York, and are now in daily use in those Institutions in the treatment of the cure of the above-named diseases.

No Other Medical Agent

in the world can produce so many well authenticated certificates of cure from Scientific Physicians and intelligent Patients as may be found in each pamphlet, which may be obtained gratis at the Drug Store of Tate & Ormsby, who is sole agent for Mifflinburg and vicinity, and who will explain the manner of use to any one who may apply.

In the city of New York, at the General Office, 289 Broadway, there are daily being sold from 50 to 60 chains and the sale and demand in Boston is so great by previous to the population, although they have only been introduced three months.

The Chains are easily worn, and are equally applicable to all classes of persons—the child as well as the adult, and are always ready for use—never get out of repair,and are merely an article of ornament as they are of a valuable means of cure.

The Chains can be sent by mail to any part of the U. States, and can be obtained in all the principal cities in the Union. Physicians are required to examine them.

CAUTION.—Ladies who are desirous are requested to send to them only for a few moments at each time of applying, for by being continued too long a shock may be frequently produced.

Lightning Rods.

AFTER many years' close investigation and numerous experiments, the Patentee takes pleasure in informing the public that he has arrived at the true principle of protecting families, dwellings and property from the destructive influence of LIGHTNING. The calamities that every City, Town, Village and Country falls victim to annually, thro' the gross negligence of its inhabitants, is beyond calculation, especially when the remedy is so easy to obtain—this is found in

ARMITAGE'S

Patent Magnetic Lightning Rods,

and in this alone. This Rod has been examined by the most scientific gentlemen in the world—Professors M'Murtrie, Johnson, Wallor and many others that have examined them, recommend and speak of them in the highest terms of approbation, and have pronounced them the only safe rods in use in this or any other country for the protection of Lives and Property. One advantage is to divide and throw back a part of the electric fluid harmless to the clouds; in time of a stroke this enables the rod to conduct that portion of fluid that belongs to the earth without the slightest danger of leaving the conductor. This rod has many other advantages over the old one. The only place of manufacturing is in

RECOMMENDATIONS.

PHILADA., Aug. 12, 1847.

I have this day carefully inspected a conductor or Lightning Rod, with vane and index, erected by Mr. Thomas Armitage, on Bellevue House, Gloucester, and have no hesitation in saying that it is not only the best I have ever seen, but that it is the only one I have yet examined that is constructed on strictly scientific principles. It is with much pleasure that I commend his conductor to the attention of owners of buildings.

H. M'MURTRIE.

I am well satisfied that the Magnetic Lightning Rod, manufactured by Mr. Thomas Armitage, of Philadelphia, is the best that has ever been made. I have spent several years in the study of the laws of electricity and magnetism, and have no hesitation in saying that those Rods are constructed upon the only principles of safety. The electric shock is received and dispersed by the magnet at the top of the rod, and it would be impossible, according to the laws of attraction and repulsion, for a building to be injured by a stroke of lightning when protected by one of those rods. I have been acquainted with Mr. Armitage for several years, and before he commenced the manufacture of these rods I examined the principles on which they are constructed, and felt convinced that their adoption would be attended with complete success. The increasing demand for these rods,and the extensive sales in all parts of the country, is ample commendation of their utility and superiority. TRACY P. WALLER, M. D.

CHERRY PECTORAL

For the Cure of

COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

"And by the ways upon the banks thereof shall grow all trees for meat, whose leaf shall not fade, nor the fruit thereof shall be for meat and the leaf thereof for medicine."

Here was hope for the sick recorded long ago, and every year adds new proof to the assurances that these promises shall not fail.

A medical science discovers and declassifies the remedies nature has given, one by one the diseases that afflict our race yield to the control of art. Of all the maladies we suffer from, none has carried more victims to an untimely grave than Consumption of the Lungs. Subjoined we give some evidence that this too may be cured, and that Pulmonary Complaints, in all their forms, may be removed by CHERRY PECTORAL.

FOR INFLUENZA AND WHOOPING COUGH.

NASHVILLE, Tenn., June 26, 1852.

SIR—I have repeatedly used your CHERRY PECTORAL for Whooping Cough and Influenza, and have no hesitation in pronouncing it a complete remedy. Four of my children have been afflicted with these diseases, and the free use of the PECTORAL has always affected a almost instant relief. JAMES GLOVER.

DR. CHRISTIE'S

THE acknowledged and extraordinary curative powers of these wonderful inventions is now so generally known and their sales and reputation throughout the whole country so extensive, that it would seem unnecessary to urge their merits further. But some late circumstances have occurred which render it a matter of duty to the public not to be altogether silent, for while the ephemeral nostrums of the day are trumpeted by columns through the Press and swallowed by quarts and gallons by the afflicted, and are found just *good for nothing.*

Christie's Galvanic and Magnetic Curatives,

have been quietly working their way among the most intelligent and respectable classes, and are constantly achieving cures in an alarming variety of diseases, which have for ages baffled all the art of medicine and all the resources of Science. These diseases are called

NERVOUS COMPLAINTS,

and in these diseases medicine is of no avail whatever. It never does good and it often does harm. Syrups, Extracts, Balms, Balsams, Elixirs, Salves, Pills, Powders and Potions of every kind are also worthless, for they weaken the vital energies of the already prostrated system, while under the stimulating, life-giving, vitalizing influence of Galvanism as applied by this beautiful discovery, the exhausted patient and weakened sufferer is restored to former health, strength, activity and vigor.

These remarks relate to such diseases as NEURALGIA, TIC DOLOREUX, BRONCHITIS, PALPITATION of the HEART, WEAKNESS, and all FEMALE DISORDERS, such as NERVOUS HEADACHE, LASSITUDE and DESPONDENCY, which are the other names for Nervous Debility, EPILEPTIC FITS and CONVULSIONS, which are now known to result from a non-equilibrium of Electric influence; NERVOUS TREMORS, DEAFNESS, which is nearly always caused by paralysis of the Auditory Nerves, and can always be perfectly cured by Galvanism, when the organ is not destroyed; DYSPEPSIA, or worst forms; PALSY, and PARALYSIS, uniformly caused by a deficiency of Nervous influence; CHRONIC RHEUMATISM, TORPIDITY of the LIVER, PAIN in the SIDE, SLUGGISH CIRCULATION, SPINAL and HIP COMPLAINTS, DEFICIENCY of NERVOUS and PHYSICAL ENERGY, and all those painful complaints arising from a DERANGEMENT of the NERVOUS SYSTEM.

In the above prevalent and terrible class of diseases—Nervous Complaints are much more numerous than is generally imagined—

CHRISTIE'S GALVANIC CURATIVES,

Are an Absolute and Positive Specific.

The BELT is used when the body or system generally is affected; the NECKLACE, for complaints of the Throat, as Asthma and Bronchitis; and of the Head; and the BRACELETS for disorders of the arms or limbs, as Rheumatism, Palsy, Tremors and Spasmodic affections. These articles are simply applied as directed with the MAGNETIC FLUID which accompanies them, and when faithfully used they NEVER FAIL!

☞The great popularity and excellence of the GALVANIC CURATIVES consists in the fact that they attack and cure disease by natural restoration, in place of the usual method of Drugging, and the powerful and exhausting effects produced by such medicines, which are entirely avoided by the use of the Galvanic system, together with the stimulating influence of Galvanism, which is the great restorative agent, invigorates the entire energies, and cure more in the slightest known time under any circumstances.
