☞The 19th of April, 1855, will complete EIGHTY YEARS since the American Revolution was opened by the blood shed at Lexington. Mrs. SIGOURNEY alludes to some individual birth-day, and also to that anniversary in the following lines in a late Boston *Waverley Magazine*:

The Eightieth Birth-Day.

Want a change o'er hill and glade
Fourscore years have made!
When the faint, Colonial sigh,
Gathered strength in secrecy,
And indignant spirits planned
Resolve for a threatened land;
Ere those drops, so rich and red,
Had at Lexington been shed,
At whose wild, electric flame,
From his plough the patriot came,
From his forge the soldier's hand
Firmly grasped th' unshrinking brand,
Till their realm, in freedom's grace,
'Mid the nations took her place.

Now, her sails the surges crest
From the orient to the west,
Ocean lakes and mountains bold
Her far-stretching arms enfold,
And her thronging millions show
(Through whatever zone they go)
Like an ages gift with flame
To it young country's honored name.

Blessed are your eyes that trace
Change so fair, in clime and race!
And their ears are blessed too,
That your life's calm current view—
Whose unstained, unruffled tide,
By each virtue dignified,
Warmly prompts this grateful lay
On your eightieth natal day. L. H. S.

Gov. Pollock.

The November Term of the Northumberland county Court was the last, for three years at least, in which Gov. Pollock will associate with his brother lawyers at the Bar, or address a jury of his fellow citizens. By next term he will have removed from his usual field of activity and usefulness, to another sphere, more exalted, but not less honorable, in which every member of the State should earnestly hope that he may be as successful as he has been in the practice of his arduous profession.

During the last two weeks those who have attended our County Court have been witnesses of one of the most remarkable features of our Republican institutions—a feature which no other government on earth presents, which is the highest commendation of the one under which we live, and which especially endears it to every American heart. Among the inmates of the Bar they observed a plain, unassuming gentleman, with no mark or badge to distinguish him from those who surrounded him, who came in and went out with the crowd, who at one moment is seen in familiar conversation with an acquaintance, and the next is pleading a case before a jury in the prosecution of his profession—nothing to show that in a few months he will occupy the highest position in the Commonwealth. That plain gentleman is James Pollock, Governor elect of a State, large, and rich, and populous enough to make an empire. A beautiful commentary upon the free, enlightened and popular character of our institutions.

It was the professional duty of Mr. Pollock at the November Term to conduct a case in favor of several industrious young mechanics of Milton, who had sued for the price of a steam engine which they had manufactured and disposed of to a certain purchaser. His speech before the jury was one of those happy and effective efforts for which he is justly celebrated. His numerous friends, in fact all who were in the Court House irrespective of party, listened, with pleasure, and, it may be said, also with regret, to this, one of his last speeches previous to taking his seat in the gubernatorial chair. We would not wish to have our feelings misconstrued when we say that we hope he may as soon as possible return again among us.

During the late campaign we were politically opposed to Judge Pollock. We at this moment believe that it would be better for the interests of Pennsylvania had Gov. Bigler been re-elected, inasmuch as we are convinced by experience, that the doctrines and measures of our party, sustained by a Democratic Executive, are best calculated to advance the prosperity of the Commonwealth. A personal comparison need not be made between the present Governor and the Governor elect. Both gentlemen have their fine points of private character; but compared politically, Gov. Bigler, in our opinion, has decidedly the advantage of his Whig successor. However, that point was fully discussed previous to the election. Judge Pollock will leave Northumberland county with the well wishes of his fellow citizens, both Whigs and Democrats.—*Sunbury Gazette.*

THE HEALTHFULNESS OF SMOKE.—A writer in the London Times discourses upon the proprieties of smoke. He thinks London and all large cities would be much less healthy but for the artificial atmosphere created by the combustion of wood and coal. Describing smoke as nothing more than minute flakes of carbon or charcoal, which absorb the poisonous gases emanating from the sewers and from works where animal substances are under manipulation. If this theory be true, Pittsburg ought to be the healthiest city known, for it is the smokiest hole in creation.

Arrison, the man who is supposed to have sent the infernal machine to Mr. and Mrs. Allison, of Cincinnati, last summer, by which both were killed, has been arrested in Iowa, and taken to Ohio.

The renowned Remedy!

HOLLOWAY'S OINTMENT

This extraordinary Unguent is composed of the most healing Balsams, and when used in accordance with the directions which accompany each pot, will insure cures when all other means fail. Cases of the most desperate Skin diseases readily yield to its efficacy. It is famous when used in cases of Gout, Rheumatism, Contracted or Stiff Joints. In Asthmas it will do wonders if rubbed into the Chest.

Most astonishing Cure of Scrofulous Ulcers, certified by the Mayor of Boston, (Eng.)

Copy of a Letter from J. Noble, Esq., Mayor of Boston, Lincolnshire.

TO PROFESSOR HOLLOWAY—Dear Sir: Mrs. Sarah Dixon of Liquorpond street, Boston, has this day deposed before me that for a considerable period she was severely afflicted with scrofulous sores and ulcers in her arms, feet, legs, and other parts of her body; and although the first of medical advice was obtained, at the cost of a large sum of money, she obtained no abatement of suffering, but gradually grew worse.

Being recommended by a friend to try your Ointment, she procured a small pot, and a box of the Pills, and before that was all used, symptoms of amendment appeared. By persevering with the medicines for a short time longer according to the directions, and strictly adhering to your rules as to diet, &c., she was perfectly cured, and now enjoys the best of health.

I remain, dear sir,

Extraordinary and rapid Cure of Erysipelas in the Leg, after medical aid had failed.

Letter from Mrs. Elizabeth Foster, of the Post Office, Adwick Road, near Doncaster, Sussex, dated Jan 12, 1853.

TO Professor Holloway—Sir: I suffered for a considerable period from a severe attack of Erysipelas, which at length settled in my leg, and resisted all medical treatment. My sufferings were very great, and I quite despaired of any permanent amendment, when I was advised to have recourse to your Ointment and Pills. I did so without delay, and am happy to say the result was eminently successful, for they effected a radical cure of my leg and restored me to the enjoyment of health. I shall ever speak with the utmost confidence of your medicines, and have recommended them to others in this neighborhood similarly afflicted, who derived great benefit.

I am, sir, your obliged and faithful servant,

Pulvermacher's Hydro-Electric Voltaic Chains,

CONSTRUCTED to be worn next to the skin, producing a constant current of electro magnetism, effecting *immediate relief from all acute pains*, and a

Permanent Cure of all Neuralgic Diseases.

PULVERMACHER'S ELECTRIC CHAINS

Were first used in France, three years since, for the cure of nervous diseases, and after being submitted to the most thorough trials in every hospital in Paris by the most learned Professors in that city, they were recommended to the Government of France, which granted a patent for the discovery. During the year 1851-2, they were introduced in Germany, Austria, Prussia and England, and one year since introduced and patented by the U. S. Government.

Most astonishing cures of

Rheumatism, St. Vitas' Dance,
Painful and Swelled Joints, Palpitation of the Heart,
Neuralgia of the Face, Periodical Headache
Deafness, Blindness, Pains from Indigestion,
Hysterics, Dyspepsia, Uterine Pains,
Every Disease, called Nervous,

is quickly and rapidly cured, by simply wearing the Chain for a few hours each day.

The Chains were first introduced in the city of New York, where they were exhibited to Profs. Valentine Mott, Van Buren, Post, Cheneocian, who readily discovered that they possessed

Strange and Singular Powers of

INSTANTLY RELIEVING PAINS,

whenever applied, and by their recommendation and influence they were introduced into the different hospitals of New York, and are now in daily use in those Institutions in the treatment of the cure of the above-named diseases.

No Other Medical Agent

in the world can produce so many well authenticated certificates of cure from Scientific Physicians and intelligent Patients as may be found in each pamphlet, which may be obtained (gratis) at the Drug Store of Tate & Carter, who is sole agent for Mifflinburg and vicinity, and who will explain the manner of use to any one who may apply.

In the city of New York, at the General Office, 565 Broadway, there are daily being sold from 50 to 60 chains and the sale and demand in Boston is as great in proportion to the population, although they have only been introduced three months.

The Chains are easily worn, and are equally applicable to all classes of persons—the child as well as the adult, and are always ready for use—never get out of repair, and as much an article of ornament as they are of a valuable means of cure.

The Chains can be sent by mail to any part of the U. States, and can be obtained in all the principal cities in the Union. Physicians are requested to examine them.

CAUTION.—Ladies who are ordering are requested not to use them only for a few moments at each time of applying, for by long continued use, miscarriage is frequently produced.

Lightning Rods.

AFTER many years' close investigation and numerous experiments, the Patentee takes pleasure in informing the public that he has arrived at the true principle of protecting families, dwellings and property from the destructive influence of LIGHTNING. The calamities that every City, Town, Village and Country falls victim to annually, thro' the gross negligence of its inhabitants, is beyond calculation, especially when the remedy is so easy to obtain—this is found in

ARMITAGE'S

Patent Magnetic Lightning Rods,

and in this alone. This Rod has been examined by the most scientific gentlemen in the world—Professors M'Murtrie, Johnson, Wallor and many others that have examined them, recommend and speak of them in the highest terms of approbation, and have pronounced them the only safe rods in use in this or any other country for the protection of Lives and Property. One advantage is to divide and throw back a part of the electric fluid harmless to the clouds; in time of a stroke this enables the rod to conduct that portion of fluid that belongs to the earth without the slightest danger of leaving the conductor. This rod has many other advantages over the old one. The only place of manufacturing is in

Vine St. 3 doors above 12th, Philadelphia,

where all persons are respectfully invited to call and examine for themselves. For sale Wholesale or Retail by THO'S ARMITAGE.

RECOMMENDATIONS.

PHILADA., Aug. 13, 1847.

I have this day carefully inspected a conductor or Lightning Rod, with vane and index, erected by Mr. Thomas Armitage, on Bellevue House, Gloucester, and have no hesitation in saying that it is not only the best I have ever seen, but that it is the only one I have yet examined that is constructed on strictly scientific principles. It is with much pleasure that I recommend his conductor to the attention of owners of buildings.

H. M'MURTRIE.

I am well satisfied that the Magnetic Lightning Rod, manufactured by Mr. Thomas Armitage, of Philadelphia, is the best that has ever been made. I have spent several years in the study of the laws of electricity and magnetism, and have no hesitation in saying that these Rods are constructed upon the only principle of safety. The electric shock is received and dispersed by the magnet at the top of the rod, and it would be impossible, according to the laws of attraction and repulsion, for a building to be injured by a stroke of lightning when protected by one of these rods. I have been acquainted with Mr. Armitage for several years, and before he commenced the manufacture of these rods I examined the principle on which they are constructed, and felt convinced that their adoption would be attended with complete success. The increasing demand for these rods, and the extensive sales in all parts of the country, is ample commendation of their utility and superiority. TRACY P. WALLER, M. D.

CHERRY PECTORAL

For the Cure of

COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

"And by the river, upon the bank thereof, shall grow all trees for meat, whose leaf shall not fade and the fruit thereof shall be for meat and the leaf thereof for medicine."

Here was hope for the sick revealed long ago, and every year adds new proof to the assurances that those promises shall not fail.

As medical science discovers and designates the remedies nature has given, one by one the diseases that afflict our race yield to the control of art. Of all the maladies we suffer from, none has carried more victims to an untimely grave than Consumption of the Lungs. Subjoined we give some evidence that this too may be cured, and that Pulmonary Complaints, in all their forms, may be removed by CHERRY PECTORAL.

FOR INFLUENZA AND WHOOPING COUGH.

ASHVILLE, Tenn., June 26, 1852.

SIR—I have repeatedly used your CHERRY PECTORAL for Whooping Cough and Influenza, and have no hesitation in pronouncing it a complete remedy. Four of my children have been afflicted with these diseases, and the free use of the PECTORAL has always afforded almost instant relief. JAMES GLOVER.

Having tried many remedies without much relief, I at last tried the CHERRY PECTORAL, which under Providence has cured me altogether. I am with gratitude
Yours, JAMES M'CANDLESS.

IT IS A FACT,

ONE self-evident, and worthy of every consideration, that no Miller can make good clean flour without he has good clean wheat. I suppose you wish to know the remedy. I tell you—it is to get one of *Bergstresser's Wheat Scourers*, or Smut Machines. He being an old, practical and experienced Millwright has invented, got up and put in successful operation the best Wheat Scourer now in use. Any person ordering a machine and afterwards finding that it does not prove to operate as represented, there shall be no sale, as those machines are to be warranted good. Further recommendations are thought unnecessary. He is now having a supply made at Lewisburg, by Messrs. Geddes & Marsh. Orders for machines, or letters of inquiry, will be promptly attended to. Machines will be sent and put to all orders. Address

The extraordinary curative powers of these wonderful inventions is now so generally known and their sales and reputation through out the whole country so extensive, that it would seem unnecessary to urge their merits further. But, since late circumstances have occurred which render it a matter of duty to the public not to be misapprehended, for while the ephemeral nostrums of the day are trumpeted by columns through the Press and swallowed by quarts and gallons by the afflicted, and are found but good for nothing.

Christie's Galvanic and Magnetic Curatives,

have been quietly working their way among the most intelligent and respectable classes, and are constantly receiving testimonials in the shape of cures in an almost endless variety of diseases, which have for ages baffled all the art of medicine and all the resources of Science. These diseases are called

NERVOUS COMPLAINTS,

and in these diseases medicine is of no avail whatever. It never does good and it often does harm. Syrups, Extracts, Balms, Balsams, Elixirs, Bitters, Pills, Powders and Potions of every kind are their worthless, for they weaken the vital energies of the already prostrated system, while under the stregthening, life-giving influence of Galvanism, as applied by this beautiful discovery, the exhausted patient and weakened sufferer is restored to former health, strength, activity and vigor.

These remarks relate to such diseases as NEURALGIA, TIC DOLOREUX, PALPITATION of the HEART, WEAKNESS, and all FEMALE DISORDERS, such as NERVOUS HEADACHE, LASSITUDE, and DESPONDEN
