The Northern Central Railway Company, Now combining the Susquehanna with the several railways from Harrisburg to of our native gold product since 1847: Baltimore, organized at Baltimore, Monday last, by the election of Directors A majority of the Board are from Maryland, and Messrs John Herr, Simon Cameron, Eli Lewis, and Wm. F. Packer, represent Pennsylvania.

The new Company possesses the franchises and property of all the former Companies, and has an annual income \$250,000 to \$300,000, with which it will as soon as practicable resume the work and no further dividends declared until it is completed to Sunbury.

The time has nearly expired in which the road should have been completed to less extend the time, and the rival road, if it had the means, could not deprive the company now in possession of its choice of location.

California Gold.—Amount of Specie in the Country.

For the sake of satisfying the public of the large excess of specie now remaining in the country, we have made some careful researches, the results of which we shall present to our readers. From official documents sent into Congess last year, and from the weekly reports of the specie export at Boston and New York this year, we derive the following statement:

Foreign export of specie, 1847 to 1854 \$130,310,014 Excess of Export Expert of Specie from Jan. 1st to Dec. 1st. 1854, stout 73.389.981 40,000,000

\$113,389,981

Here we have the total drain of our metalic currency since the year that California began to supply us of her abundance. From authentic reports, some of which have been have before been published, and from the reports of the Mints this year, we derive the following statement

Net export since California Discoveries

Deposits of California Gold at all the Mints, to Dec. 31st 1853, about Deposits of California Gold at Phila. Mint, From Jun. 1st to Dec. 1st, 1854. 32,515,926

Total Home Production of Gold Deduct Specie export as above \$252,515,929 Excess of Specie in the country

We do not pretend to say these figures are strictly accurate, but they have been cautiously made, and cannot be more than million or two out the way, the excess in the country being quite as likely to be as soon as practically to be between Harrisburg and Sunbury. It is over as under the amount we have stated. also contemplated that all the funds of It is thus proved that there is now in the the Company be devoted to the work, United States about One Hundred and Forty Millions of Dollars, in hard coin, more than there was in the year 1846.
