A Right Hanter, Badly Invested.

"Thank you, I don't care if I do," said a fast young man, with a large pressed brick in his bat, as he surged up to the Indian that stands in front of Van Cott's Indian that stands in front of Van Cott's tobacco store in Broadway with a bunch of cast iron eigars in his hand. "I'll take and price his work, as he is confident they will selinagrove."

He hung on to the cigars like grim death. "Look here old Copperhead," said the fast young Worsted, Linen, and Cotton FLY NETS to man, "none of that, no tricks upon trave-lers, or there'll be a muss, you and I'll of different styles and prices. fall out, somebody'll get a runch on the bend "

The Indian said never a word, but he'd tice, cheap, and in the most durable manner.

The citizens of Lewisburg and the surrouncing country, are solicited to extend a fair on to the cast iron eigars. He was calm. dignified, unmoved as an Indian should port be, looking his assailant straight in the face, and no muscle moving a single hair. "Yes! yes! Look at me, old featherhead! I'm one of 'em, I'm around, I'm full weight, potatoe measure, heaped up," and he placed himself in a position, threw back his coat, and squared off for a fight. All the time the Indian said never a word, looked without the least alarm unwinkingly straight into the face of the fast young man, still holding out the cigars in a mighty friendly sort of a way. The young man was plucky, and just in a condition to resent any kind of an insult, or no kind of insult at all. He was ready to "go in," but the calmness and imperturability of the Indian rather cowed him, and he was disposed so reason the matter.

"I'll take one," said he, "certainly : I said so before. I freeze to a good cigar, I'm one of the smokers. My father was one of the smokers, he was one of the old sort, I'm edition number two revised and corrected with notes, author's hand writing on the title page, and copyright secured. Yes, I'll take one. All right, old red skin. I'll take one." But the Indian said not a word, all the time looking straight in the face of the fast young man, and holding on to the eigars. "Look here,old gimbleteye, I'm getting riled, my back's coming up, and you and I'll have a turn, smell of that, old copperhead," and be thrust his fist under the nose of the cast iron Indian, who said not a word, moved not a muscle, but kept right on, looking straight into the face of the fast young man, as if not caring a fig for his threats or taking in at all the odor of the fist.

"Very well," said the fast young mar, "I'm agreeable, I'm around, look to your ugly mug, old pumpkin-head," and he let go a right hander, equare against moved an inch, nor stirred a muscle, looking with calm, unchanged dignity as before, in the face of his enemy. "Hallo," the side walk, with the blood dripping from his skiuned knuckles, "Hallo! here's a go, here's an eye-opener, here's a thing to hunt for round a corner. I'm satisfied, old iron face, I am. Enough said between gentlemen."

"Hold on," cried the fast young man, as be dodged round the awning post. "Hold on, none of that-I'll apologize-I squat, I knock under. Hold on, I say," he continued, as the Indian seemed to seewl with peculiar fierceness, "Hold on! Very well, I'm off; business down the street; people at home waiting for me; can't stay." And he bolted like a quarter horse down Broadway, and his ory of "hold on" died away as he vanished beyond the lamp-lights up Columbia street.

WISE CONFAB. -The day after the Election, four New Yorkers met, and conferred together in this wise :

"Hello !" "Hello back again."

"Who'd you vote for ?" "Ciyron II. Mark, and be hanged to you! Who'd you vote for?"

RECOMMENDATIONS. I have this day carefully inspecial a conductor or Lightning fied, with wans and index, erected by Mr. Thomas Armitage, on Billevine House, Gloucester, and have no healtation in soying that it is not only the best have eye seen, but that it is not only the best examined that is constructed on strictly scientific principles. It is with much pleasure that I recommend his conductor to the attention of owners of buildings.

I am well satisfied that the Magnetic Lightning Red.

conductor to the attention of owners of buildings.

It am well satisfied that the Magnetic Lightning Rod, manufactured by Mr. Thomas Armitage, of Philiadelphia, is the best that his ever been made. I have spont several years in the stury of the laws of electricity and magnetism. and have no heritation in anying that these Rods are constructed upon the only principle of safety. The electric shock is received and dispersed by the magnet at the top of the rod, and it would be impossible, amencing to the laws of attraction and repulsion, for a building to be injured by a strike of lightning when protected by one of these rods. I have been acquainted with Mr. Armitage for several years, and before he commenced the manufacture of these rods I examined the principle on which they are constructed, and foft convinced that their adoption would be attended with complete success. The increasing demand for these rods, and the extensive-salan in all parts of the country, is ample commenciation of their atility and superiority.

Christle's Galvanic and Magnetle Curatives have been quietly working their way among the most intelligent and respectable classes, and are constantly achieving cures in an alarming train of discusses, which have for ages beilled all the said of medicine and all the resources of Science. These

NERVOUS COMPLAINTS,

NERVOUS COMPLAINTS, and in these diseases medicion is of no avail what ever. It never does good and it often does hard Syrupe, Extracts, Balms, Balasme, Elizara, Bilim, Filis, Fowders and Potions of every kind are size worthless, for they weakes the vimil surjects of the already prostrated system, while under the strengthening, his giving, vitalizing influence of Galvanser, as applied by this beautiful discovery, the exhausted patient and weakened sofferer is restored to former health, strength, elasticity and vigor.

These remarks relate to much diseases as NEU RALOJA. TIC BOLOBEUX, BRONCHITIS, PALFITATION of the HEART, WEANNESS, and all FEMALE DISORDERS, such as NERVOUS HYAD ACHE, LASSITUDE and DESTONDENCY, which are only other names for Nervous Derangement, EFILEFIR FITS and CONVULSHONS, which are now known to result from a non-equilibrium of Electric influence, NERVOUS TREMORS DECENSES, which is nearly always caused by torpidly of the Auditory Nerves, nol can always be populy of the Auditory Nerves, and can always be populy of the Auditory Nerves, and can always be populy of the Auditory Nerves, and examination of Northlyte of the LIVER, PAIN in the SIDE, SLUGGISH CIP. CULATION, SPINAL and HIP COMPLAINTS, DEFICIENCY of NERVOUS and PHYSICAL ENERGY, and all those distressing complaints resulting from a DERANGEMENT of the NERVOUS SYSTEM.

In the above prevalent and terrible class of the sames—Nervous tomplaints are much more numer one than its generally imagined—

CHRISTIE'S CALVANIC CURATIVES.

Are an Absolute and Positive Specific.

The BELT is used when the body or system generally is affected; the NECKLACE for complaints of the Throat, as Astman and Bronchita, and of the Head, and the BRACELETS for all disorders of the arms or limbs, as Rheumatism, Palsy, Tramors and Spannodic affections. These articles are simply applied as directed with the MAGNETIC FLUID which accommands them, and when faithfully used they

NEVER FAIL:

AT The great poculiarity and excellence of the GALVANIC CURATIVE'S consists in the fact that they arrest and care disease by eacuned application, in place of the usual method of Drugging and Physicking the patient till exhausted marce make hopelessly under the infliction. They strengthen the whole spines, equality the cervations of the Bood, promote the secretions, inexposure the entire energies, and can move do the slightest harm under my circumstances.

Since their introduction in the United States, only three years since, more than

75,000 PERSONS meluding all ages, classes and conditions, amon whom were a large number of Ladies, who are post liarly subject to Nervous Complaints, have been

Entirely and Permanently Cured. Entirely and Permanenty Jured, when all lope of relief had been given up, and every thing else been tried in vain! The benefical results which have mistermly attended their use is confidently stated to be without a parallel in the similar Modical Science. Clergymen, lawyers and seen physician; lattice of the highest standing, dating quished persons holding elevated official stations, marchants, manufacturers, and mechanics; the poor and the rich alike; other whole families, snoong all clusters. Irinka and conditions, have equally been recipionts, and have equally actinowicinged the wonclasses, ranks and commission, have easily expected, and have equally a canonic legic the wondrous and often unexpected benefits which they have this received.

Let it be known and remembered that the only Natural Restorative for the Nervee is Galvanian and that in all Nervous Diseases we should

and that in all Nervous Diseases we should

"Throw Physic to the Dogs."

To illustrate the use of the GALVANIC BELT, suppose the case of a person afflicted with that bane of civilization, Di SPLFSIA, or any other Chronic or Nervous Disorder. In ordinary cases, stimulants are taken, which, by their section on the nerves and muscles of the stomach, afford fempower relief, but which leave the patient in a lower state, and withsquered faculties, after the action thus excited has used. Now compare this with the effect resulting from the application of the GALVANIC BELT. Take a Dyapeptic sufferer, even in the worst symplems of an attack, and simply tie the Belt remaided the Eedy, using the Magnetic Fullet as directed. In a short period the insensible perspiration will act on the positive element of the Belt, thereby causing a Galvanic circulation which will pass on to the negative, and thence back again to the positive, thus keeping up a continuous tistwanic circulation themselvent.

negative, and thence back again to the positiva thus keeping up a continuous telvanic circulation throughout the system. Thus the most severe cases of DASPERSIA are FERMANENTLY CYRED. A FEW DAYS IS AMPLY SUFFICIENT TO ERADI-CATE THE DISEASE OF YEARS. MANY THOUSAND CERTIFICATES AND TESTIMONIALS from the most intelligent and respectable persons residing in every portion of the United States, could be presented. These are now unnecessary, but numerous selection embracing many statements of the most extensedimeny character, at being to CONVINCE. THE MOST SCEPTHAL may be had of the authorised Agent.
