Sunbury & Erie R. R. Excursion.

NIAGARA FALLS, Dec. 20, 1854 .- The

excursionists left Willamsport at 10 o'clock

this morning, but before starting on their

northern tour the train was run down the

link between Williamsport and Milton, for

a few miles, for the purpose of enabling the

party to inspect this portion of the great

work already completed. The visit afford-

sionists, including some 45 members of

City Councils, continued onward with the

excursion, and the remainder of the large

party returned to Philadelphia. Gov.

train. Before leaving Williamsport he

No harm done, except the broken snouts, and 4 hours' delay in hoisting the tender on again-whereby I am here and not somewhere else. Shall start in half an bour for Pottsville, 16 miles, in a sleigh, so as to reach Auburn in time for the Harrisburg train. (Of course, I have your sympathizing congratulations!) We had some fun, however. Best, of the Danville Intelligencer, occupied the hindmost seat in the train, facing the rear, and was surprised to find the water jur, in front of him, suddenly make him a very profound obeisance, and empty its servered into his lap, without any previous intimation of its benevolent intentions, or any anticipated reason for so doing. Editors are in luck some times, at any rate. - Our Conductor, Mr. W. D. Covell, was very prompt and efficient, as well as generally obliging, and is wholly free from any blame for this casualty. We all give him especial credit for his energy and tact on

the occasion. Opinion of a Judge on Naturalization.

POUGHKEEPSIE, Dec. 16 .- Judge Dean, of the supreme court in this place, has forbidden his clerk to take proofs of citizenship and grant naturalization papers, and has directed that all those who wish to become citizens hereafter, must apply to the court. After hearing the proofs from numbers of applicants to-day, he rejected nearly all of them. He has given a written opinion, holding that admitting an alien to the right of citizenship is a judicial act, and requires an examination by the court in each case.

Bishop Hopkins, of Vermont, has also proposed, as a test, that the applicant for citizenship be examined in open Court and satisfactory evidence given not only of the necessary legal forms, but also of the good character and the qualifications of the applicant. Let the scrunity be thorough, and the boon denied to all who are not fully worthy of it.

The examination of all papers relating to naturalization, by a full Court, and with ample time to detect fraud, doubtless would cut off many who now surreptitiously obtain the voters' privilege. As it is, a large share of those papers are issued by elerks, at the rate of scores by day and bundreds by night, paid for by party funds, and made in a hurried, careless manner, that opens the door for the admission of thousands of unworthy imposters.

But the additional safeguards proposed by Bishop Hopkins, are not only partial, but impracticable. Partial, because it requires moral qualities from those born on one side of a salt pond, which are not required of those born on the other side of the same water. Now it is no credit to a man that he was born in America-he couldn't help it; nor was it a crime to be barn in England-he couldn't help that. It is a discredit to any man to be vicious, or ignorant; but those faults are more disgraceful to Americans, because their opportunities for virtue and knowledge are superior to those of any other people. The proposition that every man should be virtuous and intelligent before being clothed with the powers of a voter, has much to recommend it; but it is not now lawthousands of votes are polled by Americans who regard none of the Ten Commandments, and thousands more by blockheads who can not read the votes they give. At the advice and under the auspices of Senator Atchison, (who resides in Platte County,) associations were organized for the purpose of importing votes from Missouri, and boasts were openly made that large sums of money had been raised to pay the expense. The real voters of Kansas felt disposed not to make the Slavery question an issue at this election, thinking the young Territory had other interests that required all their present attention, and that the "nigger question" could be disposed of in due season and at the proper time. The Pro Slavery Missourians insisted on dragging the Slavery question into the issue, and fell upon a Gen. Whitfield, who was an old Indian Agent, who does not live in the Territory at all. He resides in the town of Independence, Missouri, and Louis Napoleon would have about as much legal right to represent Kausas in Congress. I must say that Gov. > I happened to be in Westport, a town only three miles from the river, and the Sunday and Monday previous to the election, and saw all that was going on in that quarter. During the whole of Sunday, persons passed through that town in companies of from two to thirty, in buggies, wagons, on horseback, and on mules. Most of them came provided with the institutions peculiar to the country-pistols, bowie knives, and whiskey; and were not at all choice in their language, particularly when speaking of those who dared to differ with them in opinion. Many of them registered their names in the hotels, residing at all the towns on the Missouri side of the river, and openly laughed at the idea of ever making their homes in the Territory. On Monday morning the tide f emigration recommenced and continued throughout the day. Every vehicle that had wheels to run, and every animal that had legs to go, were brought into requisition to carry these "free independent" voters to the polls, and by Monday evening there were scarcely men enough left in the town to take care of the women and childincluding lawyers, doctors, editors, landlords, merchants, and loafers, all had gone over to Kansas, to show by their presence their approval of "popular sovereignty !" known as "One Hundred and Ten," to a poll of over six hundred votes-and all for Whitfield-when every man in Kansas
