RECOMMENDATIONS

I am well entisfied that the Mannetic Lightning had misnefactured by Mr. Thomas Armstage, of Philadelphia is the feet that has over been made. I have spent settly years in the starty of the laws of electricity and magnetism, and have no he-station in saving that these fields are constructed upon the only principle of safety. The electric shock is received and dispersed by the magnet at the 22 of the set of and its settle shock is received and dispersed by the magnet at the 22 of the set and its settle fields. of the rost, and it would be impossible, according to the of the rol, and it would be impossible, according to the laws of affraction and rejulized, for a building to being rol by a stroke of lightning when protected by one of these role. I have been acquainted with Mr. Armitagior several year, and before he commenced the manufacture of these role is examined the principle on which they are constructed, and folt convinced that their adoptive would be attended with complete success. The increases demand for these role, and the extensive suckes in all particular of the country, is ample commendation of their utility and superiority.
