### Female Education.

land; and the greatest efforts now put forth for Education, are in behalf of the young of the gentler sex of America. The work was for a time almost monopolized by the Papists, who exhibited extraordinary zeal and tact in erecting, at the most prominent points, institutions of learning which the daughters of rich and influential nuns and monks and others of the Roman Catholic order from foreign countries.could give Americans the finished and polite education desirable; and for years, this wily scheme was successful in bringing inte Roman churches and convents, hundreds of the pupils thus ensuared. In process of time, however, our countrymen saw their error, and the danger; and to make amends for the past, and to guard against future evil. Protestants bave awakened, and established, in every State, Institutions of learning where God's Word is not a scaled or forbidden book, and where individual faith in the one Mediator. without priestly interference, is inculcated. In every section of our Union, we now find Female Collegiate Institutes, and Seminaries of various grades, some of which are very liberally endowed, and nearly all of which have started into life with the most encouraging prospects. The that the best way to educate and ennoble a family, is to educate and ennoble the mother, the wife, the sister, the daughter, whose controlling influence is not only the The better educated is woman, the more power she has to inculcate the feminine

The Cattawissa Railroad has for a long time "been death on" cows, but has been fortunate in not destroying human life. A few days ago however a narrow escape was made. As a train was coming around a very sharp curve on the Little Schuylkill, it came upon a cow so sudden ly that the speed could not be checked : the engine, tender and baggage car surmounted the obstacle, but a passenger car was detached, thrown down the bank, and, turning an entire somerses, struck right side up in three or four feet of water. people are beginning to realize the truth, There were about 30 passengers aboard, not one of whom was seriously injured!

### A Remarkable Man. AND A UNIVERSAL REMEDT FOR DIREASE.

This city is now the home of one of the ost remarkable men of the age-a man who has traversed the civilized globe, and established in almost every country which he has visited, the sale of his medicines for the relief of human suffering, and which are a certain cure for disease in all its forms. We allude to Professor Tuomas Hollowar, of London. It is now several years since this benefactor of the human race first proclaimed to the world, through the British press, that he had, after deep research, prepared a remedy that was sure to eradicate disease. Years of paphysiology which control our bodies in health and when diseased, led to the invention and to suit the wishes of parents. Daily preparation of the world renowned Holloway's Pills and Ointment. Nearly, if not quite one half the human race have taken his medicines! His name is as universally known over the globe as that of Alexander, Napoleon or Washington, when in the height of their am bitious career. If they conquered nations on the field of battle, Professor Holloway has, The Terms open and close about the disease in all its forms. # Later from Kansas.

A private letter of a Springfield emigrant to Kansas, dated at Lawrence, July 11, gives a report from Pawnee, that the Territorial Legislature, before adjourning to the Shawnce Mission, excluded the eight Free State members chosen at the second election, leaving only two Anti-Slavery members to fight the battles of Freedom. The House of Representatives passed the whole Missouri code of laws at a jump. It was also reported that Governor Reeder had resolved to repudiate the Legislature, since its exclusion of the only members who had any legal claim to their seats, and no longer to recognize it as the Legislature of Kansas, but to treat it in its true character, as the organized repre-

sentatives of the Missouri mob. The free settlers in Kansas are unanimous in their determination to repudiate the acts of the fraudulent Legislature and meet the consequences, whatever they may be. There is a growing conviction among them that they must either fight for their rights to the soil and to the common privileges of American citizens, or surrender

everything to the Missouri ruffians. ADVANCE PAYMENT FOR PAPERS .-No subscriber worth retaining, will object to the pay-in-advance system. Those who wanted to hear Jenny Lind sing, had to pay in advance; and what where her divinest strains compared with those which flow from the editorial pens? You can't take your seat in a rickety mail-coach, or fly-from-the-track rail-road car, without paying in advance for the risk of being killed. If you would hear a concert, or literary lecture, or see Tom Thumb or the Siamese Twins, you must plank down your twenty five, or fifty, or one hundred cents, before you pass the threshold. Nay, if any one has so little regard for his own character as to want to read Barnum's Autobiography, he must pay for it. And vet men hesitate and cavil about paying for a paper furnished at a price on the very brink and utmost verge of prime

Flour has become a mere drug in the Markets of California. The Chillian importations, after paying \$1,35 duty, E Dunean t have been sold recently, at San Francisco, for less than five dollars per barrel. Under such circumstances, it is not to be wondered at that the merchants of San Francisco have commenced the exportation of breadstuffs to New York. At the last accounts a clipper ship, 1500 tons, Kline baniel was loading with wheat, and others are to follow. This is a plain indication that the people on the Pacific coast are no longer in need of breadstuffs from the eastern States. They are to supply themselves, and if any deficiency should occur, they can supply it more cheaply by importations from Chili than from New York.

These Pills, the result of long investigation and
study, are offered to the public as the best and
most complete which the present state of medical
science can afford. They are compounded not of
the drugs themselves, but of the medicinal virtues
only of Vegetable remedless, extracted by chemical
process in a state of purity, and combined together
in such a manuter as to insure the best results. This
system of composition for medicines has been found
is the Cherry Pectoral and Pills both, to produce a
more efficient remedy than had hitherto been obtained by any process. The reasor is perfectly obtions. While by the old mode of composition, erery medicine is burdened with more or less of acrimonitous and injurious qualities, by this cach individual virtue only that is desired for the curative
effect is present. All the inert and obnoxious qualeffect is present. All the inert and obnexious qualities of each substance employed are left behind, the cutative virtues only being retained. Hence it is self-evident the effects should prove as they have

ADMINISTRATOR'S NOTICE.

NOTICE is hereby given, that Letters of Administration on the estate of Janus Moore, late of Kelly Township, Union county, deceased, have been granted to the undersigned, by the Register of Union county, in

The composition of my preparations is laid open to all men, and all who are competent to judge on the subject freely acknowledge their convictions of their intrinsic merits. The Cherry Pectoral was pronounced by scientific men to be a wonderful medicine before its effects were known. Many eminent Physicians have declared the same thing of my Filis, and even more considently, and are willing to certify that their anticipations were more than realized by their effects upon trial.

They operate by their pewerful inducance on the internal viscera to purity the blood and stimulate it into healthy action—romove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangoments as are the first crimin of disease.

Being sugar wrapped they are pleasant to take and being purely vegetable, no harm can arise from their use in any quantity.

For minute directions, see the wrapper on the live.
