Way or Guows .- The New Haven Register says that the rapid growth of Episcopacy in New England is in a great degree owing to the fact that the church avoids the discussion of all untraneous questions and is more pro-verbial for preaching the Gospel according to St. Paul than that of Kansas and Nebraska. example of their Episcopal brethren in Con-

forzastra J. Nostrs, Philadelphia, Pa. who will smile with satisfaction that the true dignity of his clerical position is at last appreciated by the press.

So then! the Episcopalians of New England avoid all extraneous questions, pursued in the Institute. The Priest and the Levite avoided all extrancous questions too. Each followed his own Reverend and dignified nose right straight ahead, without looking to the right or to the left; while the poor, misguided, fanatical Samaritan, at the risk of his purse, and for aught we know at the risk of his reputation too, and certainly with no eye to "denominational" prosperity, turned aside to gather up and nurse the mutilated form of him who fell among the thieves. Those elergymen and laymen of any denomination whose highest aspiration is to make their Church the wealthy and fashionable one of the country, will perhaps do well to avoid all " extraneous questions;" but those who desire simply to do good to the souls and bodies of men,-to improve the condition of human society, should hasten to throw their Church organizations, and their Church influence into the very front rank of every hest which is contending for Truth and Right on the world's great battle-field.

Does the writer of the above paragraph mean to tell us that the question of Freedom or Slavery in Kansas and Nebraska is one about which the Episcopalians of New England care nothing? Then, in our opinion, he utters a slander on that noble body of Christians! If imbued with their own Liturgy, they cannot be indifferent to the solution of any question on which depends the welfare or improvement of any portion of the human race. The true Episcopalion regards every human being as his fellow-heir to an immortal destiny. He looks upon the degraded drunkard, the trembling slave, the benighted heathen, and the wretched beggar, each as a man and a brother, whom it is duty and his joy so far as God shall give him strength, to bless and to save.

The trifling sticklers for sacerdotal robes and Church ornaments, who would willingly ape Popery, not only in the stupidity of her intolerant dogmas, but in the butterflies of the Church, which have of the former address. This Annual Festival for Lewisburg is just passing away. It has happily been tempered with much moderation of weather, and the number of visiters in town was one-third greater than ever before. Not less than Five Thousand persons were in and around the Grove on Wednesday.

On Friday and Saturday of last week, the various Classes in the Female Institute reviewed their principal studies by a public questioning relative to them—by performances of Music—and by reading performances of Music—and by reading performances of Music—and by reading the delivery, although most, if not all, here took the field—the stump—for their first oration, in the open air. After about half of the class had spoken, something like a slight damper occurred in the descent of a few drops of rain, which "sprinkled both the books and all the people," and some of the audience were slightly disturbed thereby. But the sun soon shone out again and dispersed all sadness. At the close, Gov. Poliock being loudly called for, arose, and said ho had read the Programme again and again,

AVER'S PILLS.

COR all the purposes of a PARILY PHYSIC.

Turner has long existed a putche demand for an effective pursuitive pill which could be relied on as sere and perfectly safe in its operation. This has been precised to meet that demand, and an extensive find of its winness has combusted; shown with what cases at accomplishes the purpose designed. It is core to make a powered pall, but not easy to make the best of oil path—one which should have a fee of the observious, but all the advantages, of cory often. This has been attempted here, and with what a most we would respectfully submit to the public desisten. It has been unfortunate for the public desisten. All all the public comments and invitating to the bowers. The same are all the public comments and a public public of the public what discuss to which they are approximate on the low. Among the com-bine been speedily cured by them, we in liver Complaint, in its various forms being stan, Languar and Loss of Ap-terior and Ague, Pain in the Side

Hence an occisional dose is advantageous, even though no serious derangement caists; but unnecessary dosing should never be carried too far, as every pargative medicine reduces the strength, when taken to excess. The thousand cases in which a physic is required cannot be enumerated here, but they suggest themselves to the reason of every body; and it is confidently believed this pill will unswer a better purpose than any thing which has lither to been available to mankind. When their virtues are once known, the public will no longer doubt what remedy to employ when in need of a cathartic medicine. an appropriate land is advantageous even

cathartic medicine.

AVER'S CHERRY PECTORAL.

THIS remode has won for itself such notoriets This remost has won for itself such notoriety from its cures of every variety of pulmonary disease, that it is entirely unnecessary to recount the evidences of its virtues in any community where it has been employed. So wide is the field of its usefulness, and so numerous the cases of its cures, that almost every section of the country abounds in persons publicly known, who have been restored from altrainer and even desperate diseases of the from altirning and even desperate diseases of the lines by it me. When once tried its superiority over every other medicine of its kind is too apparto employ for the distressing and dangerous affec-tions of the pulmomry organs which are incident to our climate. And not only in formidable st-tacks upon the lungs, but for the milder varieties of Cours, Corons, Hoanseness, &c.; and for Children it is the pleasantest and safest medicine

that can be obtained.

As it has long been in constant use throughout
this section, we need not do more than assure the
people its quality is kept up to the best that it over
