Helmbold's Genuine Preparations. HELMBOLD'S Highly Concentrated Compound Fluid Extract of BUCHU, for Diseases of the Bladder and whether in Male or Female, from whatever cause they may have originated and no matter

cause they may have originated and no matter of how long stauding.

If you have contracted the terrible disease which, when once seated in the system, will surely go down from one generation to another, undermining the constitution and suppling the very vital fluids of life, do not trust yourself in the hands of Quacks, who start up every day in a city like this, and fill the papers with glaring fels-hoods too well calculated to decrete the young and these not acquanted with their tricks. You can not be too careful in the selection of a remedy in these cases.

not be too careful in the selection of a remedy in these cases.

The Finisi Extract of Buchu has been pronounced by eminent physicians the Greatest Remedy ever known. It is a menicine perfectly pleasant in its taste and very innocent in its action, and yet so therough that it annihilates every particle of the rank and poissonous virus of this dyradful disease; and, unlike other remedies, it does not dry up the disease in the blood. Constitutional bebility, brought on by self-abuse, a most terrible disease, which has brought thousands of the human race to untimely graves, thus blasting the brilliant hopes of parents, and blighting in the bud the giorious ambition of many a noble youth, can be cured by this Infallible Remedy. And as a medicine which must benefit every body, from the simply delicate to the confined and despairing invalid, no equal is to be found, acting both as a Cure and Preventice.

Helmbold's Highly Concentrated Compoun Fluid Extract Sarsaparilla, For puritying the Blood, removing all diseases arising from excess of Mercury, exposure and imprudence in life, chronic constitutional disease, arising from an inpure state of the Blood, and the only reliable and electual known remedy for the cure of Scrofuls, Salt Rheum, Scald Head, Ulcerations of the Throat and Legs, Fains and Swellings of the Bones, Tetter, Fimples on the Face, and all Scaly Kruptions of the Skin. plea on the Face, and all Scaly Eruptions of the Skin. This article is now prescribed by some of the most distinguished Physicians in the country, and has proved more efficient in practice than any preparation of Sarsaparilla yet offered to the public. Several cases of secondary Syphilis, Mcreurial and Scrofulous diseases have entirely recovered in the incurable wards of our Public Institutions which had for many years resisted every mode of treatment that could be devised. These cases furnish striking examples of the salutary effects of this medicine in arresting some of the most inveterate diseases, after the glands were destroyed and the bones already affected.
