

Lewisburg Chronicle.

BY O. N. WOODS & J. S. CORNELIUS. OCT. 12, 1855.

The following reported majorities for Canal Commissioners indicate the election of Plumer by 10,000 or 20,000 majority.

Table with columns for names (Wayne, Susquehanna, Cumberland, Berks, Cambria, Bedford, Montgomery, Dauphin, Northumberland, Philadelphia, Franklin, Columbia, Montour, Chester) and counts.

Which is the "healthiest town" to-day? Every voter in Lewisburg who desired to vote, did vote; whereas, in Millinburg, several were "unable to get out."

Table with columns for names (Lewisburg, S. W., N. W., Millinburg, White Deer, Kelly, Buffalo, W. Buffalo, E. Buffalo, Hartley, Limestone, New Berlin, Jackson, Union) and counts.

Table with columns for names (Lewisburg, N. Ward, S., Millinburg, White Deer, Kelly, Buffalo, W. Buffalo, E. Buffalo, Union, Hartley, Limestone, New Berlin, Jackson) and counts.

Table with columns for names (Lewisburg, S. W., N. W., Millinburg, White Deer, Kelly, Buffalo, W. Buffalo, E. Buffalo, Union, Hartley, Limestone, New Berlin, Jackson) and counts.

From returns and reports, it appears that for Associate Judge, Col. BURN has 13 over Schrack, and 49 over Barber. GULDIN has about 150 over Albright, for Sheriff.

McMILL, LINCOLN and SCHUCH are chosen Commissioners, the latter by 4 maj. LAIRD has a handsome majority over Sanders for Treasurer.

Lewisburg gives Nicholson 139 majority, and Crawford the same. Returns are very meagre and slow, but Nicholson, it is supposed has a majority in Union county, and also Stroum, but it is reported that Crawford has carried Juniata and Snyder, and is elected.

The open "Fusion" was made too late to be perfected throughout the State, and a secret "Fusion" of Democracy with the Liquor Law League and the Foreign voters, has doubtless carried Plumer by 10,000 to 20,000 majority.

The Fall and Winter Session of the Legislature will commence on Thursday, Oct. 12, 1855, at 10 o'clock. The design of the Principal in commencing so early is that usual, is to prepare the way by a shorter Fall and Spring recess for a vacation hereafter during the hot and sickly season.

The question of Division being decided, and Lewisburg fixed upon as the Seat of Justice, the next step is for the subscribers to the building fund and guarantee to the building fund and guarantee to select two committees of three each, one to fix upon the site within the Borough, and one for a Building Committee.

The committee to Establish the precise Site, will necessarily examine the proposed lots, estimate the value of the improvements (if any) thereon, and obtain the prices and terms upon which the same will be conveyed to the County.

The duties of the Building Committee will be to divide the fixing of Plans for the building, contracting and paying for the work and materials, collecting old and obtaining new subscriptions—in short, that is the important committee, and should be chosen with the utmost discrimination and judgment.

We all desire comfortable, commodious, stable, and safe buildings, as the chief recommendation, and that their exteriors shall be tasty, ornamental, and attractive. The sites which have been chiefly recommended are the Black's lots, in front of the late Town Hall—the property of the heirs of Dr. Ludwig, deceased—the corner opposite Mr. Spyer's, adjoining the Lutheran Church property—the lots fronting the German Reformed house of worship.

The citizens of Millinburg and vicinity, certainly made a vigorous effort for the county seat, and we are assured felt so certain of success that they had prepared for celebrating the event by dinners, processions, music, &c. We think they indulged too extravagant hopes of the benefits of the proposed addition to their resources, for not over half a dozen men would realize the value of their sacrifice in ten years, and to others it would have been no perceptible benefit.

Our fellow-citizens, we doubt not, will all generally be satisfied as soon as the new state of things is organized and the machinery gets fairly to work. They need not be afraid of sickness, or of railroad bonds, or any other of the fanciful evils which the Millinburgers endeavored to excite alarm and envy.

As far as we have heard, our Northumberland neighbors across the river are rejoiced at our success, and will take measures, at the proper time and manner, to cast in their lot with ours in county organization. Proper county buildings, finished, paid for, and legally conveyed to the county, will ensure the union.

A VENERABLE COUPLE.—Mr. John Burrows, of North Billerica, Mass., is 98 years old, and his wife, Bridget, 100.—They have lived together 79 years. They are natives of Ireland, and reside with their son, Valentine Burrows, at North Billerica. It is doubtful whether there is another couple in America who have been married so long.

Messrs. BROTHERS: By your permission I would state that I am a warm friend of the Spruce Creek and Lewisburg Railroad, and that I have subscribed to that stock some time ago. I make this statement for some might think that I was opposing this road from the course I pursued at the Hartleton Fair; I only pursued that in order to check that wild and rabid excitement that was commenced on the said ground; it was not done that I was afraid that railroads would injure agriculture; it was only done for peace sake on that occasion, for I think that railroads are as much benefit to agriculture as the agricultural societies are themselves; and moreover, I would be willing to mount the stump, if called on, and give my reasons in full, in which I think I would be able to show the benefit of the road to our agriculturists, for I was utterly astonished at the opposition manifested on the show ground against this road by some of our agricultural district.

October 6, '55. JACOB GUNDY.

The editor of the Albany Register thus gives his experience on betting on elections: "We were a great Jackson man, we were, the last time the old General ran for the Presidency, and whenever General Jackson runs for that office, shall be so again. We lived in the country then, and had a neighbor who was on the other side of the political fence, who was a great dealer in horses. Well, we got into an argument with him one day, and so sure was he of success that he offered to bet a horse against fifty dollars, that the old hero of New Orleans would not be elected. We took the bet. The argument being one that had no end, was renewed from time to time with the same result, until five horses on the one side, and two hundred dollars on the other, were staked on the issue of the election. We won. But he had forgotten to designate the animals, and such a lot of horses as was tendered in payment of the bet, was a sight to see. If there was an ailment to which horse flesh is subject, that was not exhibited by one of those five horses, we should like to be informed of its diagnosis. There was ring bone and spavin, and straghtail, and blindness, and heaves, and one venerable old roaster had all these, and in addition, was as deaf as a post. We kept them a week as a collection of curiosities in the animal line, and then sold them at auction. According to our recollection, four of them sold for forty dollars, in the aggregate, and we gave a tin-potter ten dollars for taking the other. We have not bet on elections since, and don't want to win any more horses."

About 4 o'clock on last Saturday morning, Sept. 22, a large boiler at the Rough and Ready Rolling Mill, of Messrs. Hancock & Foley, in this borough, exploded, tearing down in its course about 20 or 30 feet of the building in which it was placed, and also a large portion of the main mill, together with both stacks. Two other boilers near it were displaced and thrown some 20 yards to the right and left. The exploded boiler lodged against the house of Geo. Koerber, about 100 yards distant, and the whole of which was moved nearly a foot from its foundation, and the kitchen attached totally destroyed. The wreck is awful to behold. Fortunately no lives were lost, although a number of persons are injured by the falling timbers and brick, and scalded by the escaping steam. Evan Williams, a puddler, had his shoulder broken.

Charles Sholes, son of Jesse Sholes, about 14 or 15 years of age, had a leg broken and was somewhat scalded. He is still in a critical situation. Jacob Lyons, a boy of about 14 years, had his leg broken, and has since died. Some five or six other persons were slightly scalded or wounded. The workmen are already engaged in removing the ruins, and the mill will be repaired forthwith. It will take about two months to put it into operation again. The loss is estimated at about \$5000. The cause of the accident is ascribed to a want of water in the boiler.—Danville Democrat.

A MAMMOTH EAR OF CORN.—Baltimore county is noted for the productions of its rich soil, but an ear of corn, exhibited to us on Saturday, surpassed anything of the kind we have seen. It was grown on the Queen Spring Manor farm of Mr. C. T. Williams; measured 15 inches in length and contained eight rows of the finest and richest grain that could be anywhere found. The total number of grains on the ear was 537, and many of them were three fourths of an inch in width.

MORE TROUBLE IN KANSAS.—It is stated that as soon as the building of the capital at Leocompton is commenced, a writ of quo warranto will be issued and the legality of its location at that place be tested by the Supreme Court of the U. States. If this is tried, it will probably bring the whole of the Kansas affairs under review.

ESTATE OF DANIEL LUDWIG, dec'd. NOTICE is hereby given, that Letters Testamentary on the Estate of DANIEL LUDWIG, late of White Deer township, Union county, dec'd, have been granted to the undersigned by the Court of Union county in due form of law; therefore, all persons indebted to said estate are requested to make immediate payment, and those having any just claims are also requested to present them legally authenticated for settlement.

CALL AND SEE. (More particulars hereafter.) J. Schreyer & Son. Lewisburg, April 12, 1855.

Let us Reason together. HOLLOWAY'S PILLS. It has been the lot of the human race to be weighed down by disease and suffering. HOLLOWAY'S PILLS have relieved millions of the most distressing cases of the Blood, the Liver, the Kidneys, the Bladder, of all those who, after years of suffering, have been cured by the Pills of the United States, and others there to a free and complete cure. It is the best remedy for the blood now known for the relief of disease.

These Pills Purify the Blood. These Pills Purify the Blood, on the stomach, the liver, the kidneys, the lungs, the brain, and the bowels, correcting any derangement in their functions, and restoring the very fountain of life and health to its original state. Dyspepsia and Liver Complaints. Nearly half the human race have taken these Pills. It has been proved in all parts of the world that these Pills have a beneficial effect on the stomach, the liver, the kidneys, the lungs, the brain, and the bowels, and on all complaints generally. They give good health to the most delicate, however much debilitated, and have all other modes been failed.

Female Complaints. No Female, young or old, should be without this excellent medicine. It is a safe and reliable remedy for all the most distressing complaints of the female sex, such as irregularities of the monthly course, all kinds of pain, and all the various diseases of the female system, which are so common, and which are so often the cause of death. It is a safe and reliable remedy for all the most distressing complaints of the female sex, such as irregularities of the monthly course, all kinds of pain, and all the various diseases of the female system, which are so common, and which are so often the cause of death.

AYER'S PILLS. For all the purposes of a FAMILY PHYSIC. There has long existed a prime demand for an effective purgative pill which could be relied on as one and perfectly safe in its operation. This has been prepared to meet that demand, and an extensive trial of its virtues has conclusively shown, with that success which is the result of a long and every other. This has been ascertained by the use of what is called a "purgative pill," but not so easy to make the best of all pills—one which should have the effect of a cathartic, and all the advantages of every other. This has been ascertained by the use of what is called a "purgative pill," but not so easy to make the best of all pills—one which should have the effect of a cathartic, and all the advantages of every other.
