I see that some writer in the last Union County Star, (Millinburg,) tortures a remark which I dropped in a funeral discurred in the same quarter, and I have real lications, Bibles, Prayer and Hymn ter of our borough, keep back some students from the University. To prevent a false impression from my testimony it would only be necessary to present a little more fully what I said on the ceived every day by Express. [June 8, 1855. occasion referred to. I said that "notwithstanding the eminent healthfulness of our locality in general, we had of late certainly experienced solemn judgment at the hand of God," a trnth as I regard it, which I would to God we might all appreciate! I will only add to this simple correction, that after a residence here of seven summers and six winters. I have never seen a time until this full, which especially called for any such remark. On the contrary, I have regarded the place as an eminently healthy one, so that the occurrence lately of several deaths in rapid succession (though from no single or epidemic disease) Among our students, averaging 150 at the least, I can remember but two deaths Beaver & Kreamer's Store. occurring here during all the time I have been connected with the University. In Madison University, of which I was formerly a member, and which was justly celebrated for the salubrity of its situation, I think there were as many deaths annually one year with another as have occurred here in six years, -so kindly has Providence favored us. We have, since the remarkably hot and dry summer, a year ago, (in common with a multitude of places generally very healthy,) suffered from an invasion of "chills," which I had before scarcely heard of in this neighborhood, and which I am happy to believe is now wearing off again, as it did under similar circumstances twenty-five or thirty years ago. I have not the slightest idea that any person transiently here, even during our late visitation, would have at all hazarded health or life; and were the ravages of the "chills" much more severe on residents than they are likely to be, I should think this counterbalanced by our marked exemption from pulmonary complaints compared with other regions in which I have resided. On the whole, therefore, I think neither students nor others have reason to be shaken in mind concerning the general Philadelphia Adv'ts. health of Lewisburg.

GEO. R. BLISS. Oct. 6. TO THE PUBLIC.

It is represented to me in what I believe to be good authority, that citizens of Mifflinburg have asserted that "the members of the Amish church are going for Mifflinburg for the County Seat, and that their preacher had given out tickets for Mifflinburg at their meeting last Sunday." As I am supposed to be the preacher alluded to, I deem it justice to myself and to my brethren to say, that we had no meeting last Mifflinburg or Lewisburg, as a County Seat. ness and facility of handling of the common If I as a citizen were to favor either place, it would be Lewisburg. THE GOVERNMENT OF SAN JUAN .- Col. Kinney has been elected the Governor of the town of San Juan. A correspondent of the New York Times, giving an account of affairs in that quarter says: "A few after the inauguration of Governor Kinner, order.—Also an extensive assertment of highly after the inauguration of Governor Kinner, as soon as the Government was organized, notice was served upon the British and American Consuls. The setting Consul, Mr. Mason—(Mr. Fabens, you know, on account of his association with Col. Kinney, was not permitted by the United States to resume his functions here,) promptly recognized the new Government e not seen his letter, but I understand that it was quite satisfactory to the Gover-nor. But the British Consul, after a consultation with a British man-of-war captain, in port, and the late Mayor Martin, did not see fit to recognize, on account that the new organization interfered with the territorial rights of the King of Mosquito, and treaty! It is worthy of notice, that half the test : the officers in the Government are British subjects. The truth is, England sees that preat things are to be accomplished down here, and would like to hold on to this coast

ESTABLISHING THE CHURCH IN NICARA-Gra.—Col. Kinney has succeeded in carrying out his pious intention, of establishing ing out his pious intention, of establishing the Church in Nicaragua. cause they may have originated and no matter cause they may have originated and no matter of how long standing.

If you have contracted the terrible disease which, when once seated in the system, will surely go down from one generation to another, undermining the constitution and suppling the very vital fluids of life, do not trust yourself in the lands of Quarks, who that up every day in a city life this, and fill the papers with glaring faircheeds too well calculated to decree the young and these not acquainted with their tricks. You can not be too careful in the selection of a remedy in these cases.

not be too careful in the selection of a remedy in these cases.

The Finid Extract of Bucha has been pronounced by eminent physicians the Greatest Kemedy ever known. It is a medicine perfectly pleasant in its taste and very innocent in its action, and yet so theorough that it annihilates every particle of the rank and poissons wires of this dreadful disease; and, unifice other remedies, it does not dry up the disease in the biood. Constitutional pebliky, brought on by self-abuse, a most terrible disease, which has brought thousands of the hisman race to untimely graves, thus blacking the brilliant hopes of parents, and blighting in the best the glorious ambitten of many a nodle youth, can be cared by this Infallible flumely. And as a medicine which must benefit every body, from the simply deficate to the confined and despairing invalid, no equal is to be found, acting both as a Cure and I reventice.

# Lightning Rods.

Gedder, Marab & Co.

A FTER many years' close investigation and numerous experiments, the Patentee takes pleasure in informing the public that he has arrived at the true principle of protecting families. dwellings and property from the destructive influence of LIGHTNING. The calamites that every City, Town, Village and Country falls victim to annually, theo' the gross negligence of its inhabitants, is beyond calculation, especially when the remedy is so easy to obtain—this is found in

ARMITAGE'S Datent Magnetic Lightning Bods,

and in this alone. This Rod has been examined by the most scientific gentlemen in the world— Professors M'Murtrie, Johnson, Wallor and many others that have examined them, recommend and speak of them in the highest terms of approbation, and have pronounced them the only safe rode in use in this or any other country for the protecti of Lives and Property. One advantage is to divide and throw back a part of the electric fluid harmless to the clouds; in time of a stroke this enables the rod to conduct that portion of fluid that belongs to the earth without the slightest danger of lea ving the conductor. This rod has many other advantages over the old one. The only place of

manufacturing is in Vine St 3 doors above 12th, Philadelphia, shere all persons are respectfully invited to call and examine for themselves. For sale Wholesale or Retail by THO'S ARMITAGE.

Orders promptly attended to. Terms cash.

I have this day carefully inspected a conductor or Lightning Red, with vane and index, excited by Mr. Themas Aminings, on Bellevine House, Glauerster, and have no heatesten in saying that if is not only the best I have ever seen, but that it is the only one I have ever seen, but that it is the only one I have even ment that be onet meld on strictly scientific principles. It is with much pleasure that I recommend his conductor to the after the or of consequents. RECOMMENDATIONS.

I am well satisfied that the Magnetic Lightning Red manufactured by Mr. The mas Armitage, of Philadelphia is the beet that has ever been made. I have spent several years in the study of the lows of electricity and magnetic m, and have no heastathen in a ying that these Rods are constructed upon the only principle of safety. The electricity and magnetic m, and have no heastathen in a ying that these Rods are constructed upon the above precipied and it would be impossible, according to the laws of altraction, and reputation, for a building to be injured by a strake of lightning when protected by one of these rods. I have been asymmeted the manufacture of these rods.
