#### AYER'S PILLS. FOR all the purposes of a FAMILY PHYSIC.

Turnum has long existed a public domand for an effective purchive pill which could be relied on an sure and perfectly safe in its operation. This has been prepared to mass that domand, and an exten-sive trial of its virtues has conclusively shown with what success it accomplishes the purpose designed. It is easy to make a physical pid, but not easy to make the best of all pairs — one which should have more of the observations, but all the advantages of none of the obsertions, but all the advantages, of every other. This has been attempted here, and with what success we would respectfully submit to the public decision. It has been unfortunate for the patient hitherto that almost every purgative medicine is accomplicate and irritating to the bow-els. This is not. Many of them produce so much griping pain and revulsion in the system as to more than constraindance the good to be derived from them. These palls produce no irritation or pain, unless if are from a prevaoally existing obstruc-tion or dorangement in the bawels. Being purely cogetable, no harm can arise from their use in any quantity, but it is beiter that any medicine should regarding, but it is better that any medicine states be taken judiciously.
