their chance is so desperate. There were three candidates for effice from Hartley at a portion of the superstructure is completthe last election, and all are elected, altho the seat of one will be contested by another western man. A Mifflinburg nominee for Commissioner had 455 maj. in Lewisburg over a Kelly neighbor, also a West Buffaloe candidate for Judge had 159 maj. ever an East Buffalce neighbor. Had the "western neighbors" chosen, they might have elected both these men. Certainly, these facts show that this attempt to arouse discontent and prejudice is causeless, and will excite only contempt among caudid, well informed and sensible men.

The Near further says, 78 people of Hartley "did all in their power to oppose the interest of Miffliuburg," by voting for Lewisburg. We deem this an unfounded charge against free and responsible men. who are known and recognized throughout the county as among its very best men in every respect. That they "did all in their power to oppose the interest of Mifflinburg" is an assumption of knowledge of motives, and an imputation of malice, we venture to say, not authorized by truth. Those men voted for Lewisburg, not for the purpose of injuring Mifflinburg, but because, in their judgement, their present and prospective interests, and these of the county, would be best promoted, by making Lewisburg the county seat. Some in our neighboring townships, on the other hand, thought best to vote for Mifflinburg, as they had a right to do, but we do not, for that act, charge them with the "unnatural" crime of doing "all in their power to oppose the interest" of Lewisburg. Men may differ in opinion without indulging in illiberality or hate. When I can vote for but one of two candidates, the other has no right to impugu my motives or to excite or to harber ill will towards me for my exercise of the precious and inalienable privilege of a free choice.
