A Chinese Munchausen.

A Chinaman was arrested last Wednesday in New Orleans for a petty crime and brought before Recorder Bright; and gave a very curious history of his life. He stated that he was but forty five years of age, and at the age of eighteen he was beassassinate the Emperor of China, Moon Sing, who is the son of the King or the King of the sun; and five years after he was cut to pieces because he was accused of murder. He was then imprisoned out for lying, which is considered a very serious crime in the Celestial Empire. After coming out of prison he was banished from the country for making sport of a Mandarin during the feast of the Lanterns. He embarked on board of an American man-of-war, and was in the battle of the Nile, under Commodore Stockton, where a canuon ball terminated his eventful career, and now he found himself arrested in New Orleans for the crime of petty larceny The recorder thought it was time for him to rest from his labors, and so sent Mr. Chinaman to the work-house for the next ninety days. In making outh to the above statement, he swore by one of the earthen spittoens-for the Chinese always

THE FIRST TELEGRAPHIC MESSAGE.— Co.'s Drug store, opposite the Telegraph office.

Lewisburg, Feb. 22, 1855 We have heretofore given an interesting account of the first message sent over the and ready for use, which we will sell to any telegraphic wires in America. The graphic question, "What bath God wrought?" was the first sentence, dictated by Miss Annie G. Ellsworth, (daughter of Hon. Henry L. Ellsworth) now Mrs. Smith, of Indiana. The minuscript, or copy made at the end of the line, has been deposited at Lewisburg in the county of Union, to "THE LEWISBURG BANK," with One Hundred with the Connecticut Historical Society Thousand Dollars additional capital, and for treservation, and may justly be regard, authority to issue their own notes for circulafor preservation, and may justly be regarded as one of the most valuable possessions of that or any similar institution.

AN ANCIENT MARRIAGE INVITATION. - The simplicity of our ferefathers in most matters is often worthy of admiration, and might be imitated by the present generation with profit. What can be more simple and beautiful than the following invitation at the old stand of F. Zellers, (in the rear of St.; W. H. Horstman & Sons, No. 51 to a marriage, issued in the year 1746?

"Respected Fr'd-My sweet-heart as well as myself desire, (if it may suit thy Cheap for Cash. We trust we shall have a always on hand (warranted to stand at least 10 convenience and freedom) that thou will favor us with thy company at our marringe, which is intended to be at Burl'n! the 4th of next month. I am thy respect-AARON ASHERIDGE."

An administration paper in Obio that brought out its rooster on reception of the first news of the late election in that State, excuses itself on the ground that it only made a wrong cackle ation.

Lightning Rods.

A FTER many years' close investigation and numerous experiments, the Patentee takes pleasure in informing the public that he has arrived at the true principle of protecting families, dwellings and property from the destructive influence of LIGHTNING. The calamities that every City. Town, Village and Country falls victim to annually, thro' the gross negligence of its inhabitants, is beyond calculation, especially when the remedy is so easy to obtain-this is found in

ARMITAGE'S Datent Magnetic Lightning Rods,

and in this alone. This Rod has been examined by the most scientific gentlemen in the world-Professors M'Murtrie, Johnson, Waller and many others that have examined them, recommend and speak of them in the highest terms of approbation, and have pronounced them the only safe rods ic use in this or any other country for the protecti of Lives and Property. One advantage is to divide and throw back a part of the electric fluid harmless to the clouds; in time of a stroke this enables the rod to conduct that portion of fluid that belongs to the earth without the slightest danger of leaving the conductor. This rod has many other advantages over the old one. The only place of

manufacturing is in Vine St. 3 doors above 12th, Philodelphia, where all persons are respectfully invited to cell and examine for themselves. For sale Wholesale or Retail by Retail by THO'S ARMITAGE.

RECOMMENDATIONS.

Philana. Aug 13, 1847.

I have this day exceptily inspected a conductor or inhance in factor and redex, evented by Mr. James Armiters, or Fellows House, Glorester, and even be station in secing that it is not only the best hand over the first over an exception of the best factors of the first over the fir that the reason is saving that it is not only the best that the case area and that it is the case are the reason of the saving and that is constructed on strictly securify principles. It is with much pleasure that I recommend his conductor to the attention of peners of buildings.

In me well satisfied that the Marnetic Lightning Rod manufactured by Mr. Thomas Armiting, of Philadelphia is the best that has ever been inside. There spent several years in the study of the laws of electricity and magnetic indicated have in bestation in againg that these Reist are emistracted upon the only principle of safety. The electric shew is received and discrete by the magnet at the top of the rod, and it would be impossible, according to the laws of attraction and regulator, for a building to be injured by a studie of lightning when protected by one of these rods. I have been acquainted with Mr. Armiting for exercial years and before he commenced the manufacture of these rods I examined the principle on which they are constructed, and is if convinced that their adoption would be attended with complete success. The increasing demand for these rods, and the step reserved in the principle of these rods.
