Indeed very few are the diseases in which a Pargative Medicine is not more or less required, and much sick ness and suffering might be prevented, if a harmless but effectual Cathurtic were more freely used. No person can feel well while a costive habit of body prevails; bendes it soon generates serious and office field diseases, which magint have been avoided by the timely and judicious use of a good purgative. This is alike true of Colds, Feverish symptoms, and Hillous derang ments. They all tend to become or produce the deep seated and formidable distempers which load the hearses all over the land. science can all oil. They are compounded not of the drops them eives, but of the medicinal virtues only of Vegenirde remolies, extracted by chemical the drops them exces, but of the mechanial various only of Vegerande remodes, extracted by chemical process in a state of parity, and conditing together in such a manner as to insure the best results. This system of composition for medicines has been found in the Cherry Peatoral and Pills both, to produce a more efficient remody than had hitherto been obtained by any process. The reason is perfectly obtained by any process. The reason is perfectly obtained by any process. The reason is perfectly obtained by any process, and historical process of acrimonious and injurious qualities, by this each individual virtue only that is desired for the curative effect is present. All the inert and obscavious qualities of each substance coupleyed are left behind, the curative virtues only being retained. Hence it is self-evident the effects should prove as they have proved more purely remedial, and the Pills a sure, more powerful anti-lott to discuss than any other medicine known to the world.

As it is frequently expedient that my medicine should be taken under the counts of an attending Physician, and as he could not properly judge of a remedy without knowing its composition, I have

Physician, and as he could not properly judge of a renealy without knowing its composition. I have supplied the assumate Formulæ by which both my Petteral and Pills are made to the whole body of Practitioners in the United States and British American Provinces. If however there should be any one who has not received them, they will be promptly forwarded by until to his address.

Of all the Patient Medicines that are offered, how few would be taken if their composition was known!

Their life consists in their mystery. I have no mysteries.
