Voting Under Difficulties.

[A correspondent of the Knickerbacker furnishes the Editor of that journal, the following amusing sketch of the elective franchise in the State of Obio. We should like to have grasped the band of the patriotic fellow, who was so anxious to vote the "tig whicket," if it were not for the fact, that he finally backed out:]

In the north-west parties of the State of Ohio, in the county of Auglairs, there Pattand Spring recess for a naction hereafter is a township, the citizens of which are principally German, and notwithstanding Vo their 'sweet accent,' they are all Democrats of the regular, 'unterrified' stripe. are prepared to effect to the public a very superior article, particularly suited to the manufacture of Iron and making Steam. Our sizes of Coal are arrived at the true principle of protecting lamilies, dwellings and property from the destructive influence of LIGHTNING. The calamities that the country falls victim to annually, thro' the gross negligence of its inhabitants, is beyond calculation, especially when the remedy is so easy to obtain—this is found in

ARMITAGE'S Patent Magnetic Lightning Hods, and in this alone. This Rod has been examined by the most scientific gentlemen in the world-Professors M Murrie, Johnson, Waller and many others that have examined them, recommend and speak of them in the highest terms of approbation. and have pronounced them the only safe rods ic use in this or any other country for the protecti of Lives and Property. One advantage is to divide and throw back a part of the electric fluid harmless to the clouds; in time of a stroke this enables the rod to conduct that pertion of fluid that belongs to the earth without the slightest danger of leaving the conductor. This rod has many other advantages over the old one. The only place of

manufacturing is in Vine St. 3 doors above 12th, Philadelphia, where all persons are respectfully invited to call and examine for themselves. For sale Wholesale or Retail by THO'S ARMITAGE.
