Turs remedy has won for itself such notoriety This remedy has won for itself such notonicity from its curves of every variety of pulmonary disease, that it is entirely unaccessary to recount the exi-dences of its situles in any community where it has been employed. So wide is the field of its use-fulness, and so numerous the cases of its airrer, that almost every section of the country abounds in persons publicly known, who have been restored from aligning and even desperate diseases of the lings by its use. When once tried its superiority over every other modeline of its kind is too appar-ent to escape observation, and where its virtues are ent to escape observation, and where its virtues are known, the public no longer hesitate what and to employ for the distressing and dangerons to employ for the distressing and dangerous affec-tions of the pulmonary organs which are incident to our elimate. And not only in formidable at-tacks upon the longs, but for the milder varieties of Cornonex it is the pleasantest and safest medicine that can be obtained. As it has long been in constant use theoughout this section, we need not do more shan assure the people its quality is kept as so the best that it erem has been and that the granine article is sold by Prepared by AMES C ATER, Practical and Analyti-with the section.
