The following story was told in Sandusky, Ohio, and appears in the Massillon News, which says:

A party of young men in that ancient city amuse their leisure moments at the hotels in drawing a long bow, or telling wonderful varus to each other for the benefit of those apparently verdant who may happen to come in from other parts. They tried the effect of a few extraordinary woll stories upon a venerable and sedate customer not long since, who had come to spend the night at the best hotel, and he listened to them with much apparent surprise and interest until their stock appeared to have run out and the conversation flagged, when he remarked that he had been much interested in the news they had given him, relative to the primeval inhabitants of that country ; but regarded an event in his early life as more peculiar than any they had named. Said he:

"When a young man I was traveling in western New York, and late of a stormy night applied at a log cabin for lodging. The occupant, a woman, refused it, saying that her husband and sons were out hunt ing and if they found me there, would murder me. I prefered the chance to the down before the fire. In the night, I heard them coming, and scrambling up the

"Thinking I was safe when at the top, I stepped over the roof, and jumping down off the cabin, jumped plump into a wolf trap. A scream of pain brought the men and the boys out, and they declared I deserved a more severe punishment than death, so they kept me both in the trap and in suspense until morning, and then, beading me up in a hogshead, with no air or light but through the bunghole, they put me on a sled and drove me some four miles up a hill, and there rolled me off to starve. This I undoubtedly would have done but for a very singular occurence. The wolves smelled me out and gathered round my prison, when one of them, in turning round, happened to thrust his tail into the bunghole. It was my only chance. I caught firm hold, and held on like death to a negro, which frightened the wolf, of course, and he started down the hill, followed by the hogshead and me. It was a very uneasy ride, over the stones and stumps; but I had no idea how long it was until the hogshead striking a stone fairly, the staves, worn by long travel, were broken in, and I jumped out to find myself away down in the lower part of Cattaraugus county, some thirty miles from the scene of the disaster. Good night, gentlemen. I did not express any doubt of the truth of your stories; and

It is currently reported that the "sell" club of Sandusky has not had a full meeting since that occurred,

I hope you will not of mine."

JONATHAN'S HUNTING EXPEDITION-"Did you ever hear of the scrape I and uncle Zeikel had ducking out on the Conneticut river?" asked Jonathan Timbertoes, while amusing his old Dutch hostess, who had agreed to entertain him in consideration of a bran new milk pan.

"No, I never did-do tell it." " Well, you must know that I and uncle Zeke took it into our heads to go a gunning arter ducks, in father's skiff; so in we got and sculled down the river; a proper sight of ducks flew backward and forward, I tell ye, and bime by a few of them and said at the san muscles. I catched up my powder-horn to prime, and it slipped right out of my hand and sunk to the bottom of the river. The water was amazingly clear, and I could see it on the bottom. Now, I couldn't swim a jot, so I sez to uncle Zeke, you're a pretty clever fellow-just let me take your powder horn to prime; and don't you think the stingy critter wouldn't. Well, sez I, you're a pretty good diver, and if you'll dive and get it, I'll give you a

sailor was called upon the stand as a witness, when he was thus examined : "Well, sir," said the lawyer, "do you

know the plaintiff and defendent?" "I don't know the drift of them words," answered the sailor.

"What! don't know the meaning of plaintiff and defendent," continued the lawyer-"a pretty fellow you, to come here as a witness. Can you tell me on board the ship it was that man struck the other one?"

"Abaft the binnacle," said the sailor. "Abaft the binnacle!" said the lawyer, "what do you mean by that?"

"A pretty fellow you," responded the sailor, "to come bere as a lawyer, and not know what abaft the binnacle means."

cause they may have originated and no matter of how long standing.

If you have contracted the terrible disease which, when once seated in the system, will surely go down from one generation to another, undermining the constitution and suppling the very vital fluids of life, do not trust yourself in the hands of Quacks, who start up every day in a city like this, and fill the papers with giaring falsehoods too well calculated to decrete the young and these not acquainted with their tricks. Nou can not be too careful in the selection of a remedy in these cases.

not be too careful in the selection of a remedy in these cases.

The Fluid Extract of Buchu has been pronounced by eminent physicians the Greatest Remedy ever known. It is a medicine perfectly pleasant in its taste and very innocent in its action, and yet so thorough that it annihilates every particle of the rank and poisonous virus of this dreadful disease; and, unlike other remedies, it does not dry up the disease in the blood. Constitutional liebility, brought on by self-abuse, a most terrible disease, which has brought thousands of the human race to untimely graves, thus blasting the brilliant hojes of parents and blighting in the bad the glorious smittion of many a moble youth, can be curred by this Infallible Remedy. And as a medicine which must benefit every body, from the simply delicate to the confined and deepairing invalid, un equal is to be found, acting both as a Curre and irreventive.

Fluid Extract Sarsaparilla, Fluid Extract Sarsaparilla,
For purifying the Blood, removing all diseases arising
from excess of Mercury, exposure and imprudence in
life, chronic constitutional diseases, arising from an impure state of the Blood, and the only reliable and effectual known remedy for the cure of Scrofuls, Salt
Bleum, Scald Head, Clecrations of the Throat and
Legs, Pains and Swellings of the Bones, Tetter, Pimpleson the Face, and all Scaly Eruptions of the Skin.
This article is now precribed by some of the most
distinguished Physicians in the country, and has proved
more efficient in pacific than any preparation of Sarsaparilla yet offered to the public. Secural cases of seconday Syphilis, Mercurial and Scrofulous diseases have entirely recovered in the incurable wards of our Public Institutions which had for many years resisted every mode
of treatment that could be devised. These cases furnish
striking examples of the salutary effects of this medicine
in attrecting some of the most invaterale diseases, after
the glands were destroyed and the bone alterady affected.

FTER many years' close investigation and A numerous experiments, the Patentee takes pleasure in informing the public that he has arrived at the true principle of protecting familier, dweilings and property from the destructive influ-ence of LIGHTNING. The calamities that every City, Town, Village and Country falls victim to annually, thro' the gross negligence of its inhabitants, is beyond calculation, especially when the remedy is so easy to obtain-this is

ABMITAGE'S Datent Magnetic Lightning Rods, and in this slone. This Rod has been examined by the most scientific gentlemen in the world-Professors M'Murtrie, Johnson, Waller and man others that have examined them, recommend and speak of them in the highest terms of approbation, and have pronounced them the only safe rods ic use in this or any other country for the protecti of Lives and Property. One advantage is to divide and throwback a part of the electric fluid harmless to the clouds; in time of a stroke this enables the red to conduct that portion of fluid that belong to the earth without the slightest danger of leaving the conductor. This rod has many other advantages over the old one. The only place of

manufacturing is in Vine St. 3 doors above 12th, Philadelphia, where all persons are respectfully invited to call and examine for themselves. For sale Wholesale

RECOMMENDATIONS. I have this day carefully inspected a conductor of Lightning Rod, with vane and index, exceted by Mr Thomas Armitage, on Relievue House, Giencester, and have no hesitation in saying that it is not only the best I have ever seen, but that it is the only one I have yet examined that is constructed on strictly scientific principles. It is with much pleasure that I recommend his conductor to the attention of owners of buildings.

I am well astinged that the McMURTRIE.

conductor to the attention of owners of buildings.

I am well satisfied that the Magnetic Lightning Bod manufactured by Mr. Thomas Armitage, of Philadelphia is the best that has ever been made. I have sport series is the set that has ever been made. I have sport series is meant years in the study of the laws of electricity and magnetical, and have no hesitation in saying that these Rods are constructed agon the only principle of safety. The electric shock is received and dispersed by the magnet at the top of the rod, and it would be impossible, according to the laws of attraction and requision, for a building to be injured by a stroke of lightining when preterted by one of these rods. I have been acquainted with Mr. Armitage for several years, and before he commenced the manufacture of these rods is examined the principle on which they are constructed, and felt convinced that their adeption would be attended with complete success. The increasing demand for these rods and the extensiveales in all parts of the country, is ample commendation of their athlity and superiority.
