We have recently added a number of varieties of JDB TYPE to our former large assortment, making

OVER 60 STYLES

of type, large and small, with a good wanting anything in the way of

HANDEIFF3"

Tickets, Blanks, Labels, CARDS, Circulars, Bills, &c. The use of these by merchants and business men generally, is more common in most communities than in ours. A nearer approximation to a Cash business may be made with patronage attracted by this means.

We think we have the materials and the experience—the taste and the tact-to execute all kinds of Jobbing expected from a Country Office, in aterms—and in prompt time. Call.

AT THE "Chronicle" (ffice.

THE SMOKER.

Ann ! quick-corrosive sublimate, Chloride of lime provide, Pastiles burn on a chafing dish, And vinegar besides !

My nephew Sam has just been here, (As one might know full well.) And he has left behind again That vile tobacco smell,

Throw up the windows, and the doors Set open for a draft, And while the breezes far away The noisome odor wait,
I'll take a turn upon the porch,
For, Oh, I did not dare

To respirate in yonder room While that vain youth was there.' His very whiskers, beard, and hair, Are steeped in putrid smoke, His clothes are saturated, too,

As if they'd been in soak. And from his mouth and nostrils goes A breath which, far and near, Impregnates all the furniture, And taints the atmosphere. Is this the chap that thinks to wed

My neice, and be my heir?
The nuisance! my hard carned wealth He surely shall not share; But Kate may have his cousin Will, Whose name she can not speak, Or hear, without a glowing blush

Suffusing her fair cheek. He is an earnest, manly youth, Though not so rich in pence, And me he treats with due respect, And Kate with deference;

His teeth are set, his lips are closed Agoinst the foul cigar, And fouler quids, which spread around That rank effluvia.

And they shall come and live with me. And I, who when a boy Inhaled the purest country air, And breathed my breath with joy, Shall now henceforth keep always free From fumigating folk, And not be smothered in old age, Nor end my days in smoke

FRENCH LOVE OF SCANDAL .- A French provincial paper contains the following : " A trial took place at our Assizes. It promised rich food for scandal. All the ladies of the town bedecked themselves in their smartest toilets, and crowded to the court-house. On seeing this, the presiding judge arose and said: 'Persons here assembled as spectators are not aware of the nature of the cause. I therefore invite all decent women to withdraw.' A pause the latest from Seusiness, and acting of the common to withdraw.' A pause the latest from Seusiness, and acting posture, having the laxurious softness of the best Feather Bed with the lightness and facility of handling of the common thair mattress.

These improved Spring Beds are invariably promised rich food for scandal. All the took place without a single female moving received and for sale by the subscribers. from her seat. Sceing this, the president of Merchandize. again rose and exclaimed, 'Officers of the Court, now that all decent women have retired, turn out the remainder."

During the examination of a witness as to the lecality of the stairs in a house, the counsel asked him, "Which way did the stairs run ?"

The witness, who, by the way, is a noted wag, replied, " One way they ran up stairs, but the other way they ran down stairs."

and then took a look at the ceiling.

Daniel Webster, being present at a ball in Washington during his incumbency as Secretary of State, was asked by an effeminute, foppish sort of a chap, who thought a good deal of his own dancing, "Don't you dance, Mr. Webster? I never see you dancing." "No," said Mr. Webster, as he ken as usual-cash never refused. only could say and look such things, "I never had the capacity, sir."

A lady promised her servant girl five dollars as a marriage portion. The girl married a man of low stature, which somewhat surprised ber mistress. "Why, Mary, at the old stand of F. Zeliers, (in the rear of what a little husband you have got !" "La, Missus," replied Mary, "what

can you expect for five dollars?"

TENACITY OF LIFE IN A GOOSE .- A goose on the farm of James Budd, near Pemberton, N. J., was missed in the enow storm of the 5th ult. Search was made, but without avail, until Saturday, 9th inst., when goosey was discovered in a large bank of snow, alive, and apparently uninjured by its five weeks' imprisonment.

ett was entertained at a public dinner be. from the manufactors, at prices that we can EVERETT AND STORY .- Edward Everfore leaving Boston. Judge Story gave as a sentiment - "Genius is sure to be re- where. warded where Ever-ett goes." Everett responded-"Law, equity and jurisprudence; no effort can raise them above one Story."

" Did I burt you?" said a lady the other day, when she trod on a man's foot. "No, madam, I thank you, seeing it's you. If it was any body else, I'd holler murder."

An up-country paper declares it is "like the Sheriff-for it goes icto all parts of the Sherili-for it goes into all parts of BLANKS for Justices and the county." A remarkably extensive BLANKS Constables, for sale

CARD.

A. B. LONGSHORE, M. D., having variety of borders, and most respect-fully solicit a trial of them by those

A. located himself on the property lately owned and occupied by Rev. C. A. Hewitt, in West Milton, respectfully offers his professional services to the public, and from long experience flatters himself that he can render satisfaction to all those disposed to patronize him.—Kelly Tp, Union Co, Feb. 4, 1856 [4m]

COURT HOUSE.

THE Subscribers to the Building of the Union County Court House, &c., are requested to pay the ONE-TENTH of their larger range of operations may be gained by a constant "keeping before the people" of the TRADE, OCCUPATION or PROFESSION of any man: and a JAMES F. LINN, Treasurer. larger range of operations may be subscriptions, to the undersigned, on the first Lewisburg, Jan. 15, 1856

M. H. Dersham, M. D.,

HAVING permanently located in Le-wisburg, Pa., respectfully tenders his Professional Services to the citizens of this town and vicinity, hoping by prompt attention to the duties of his profession to merit a share

with unparalleled success.

Da. DERSHAM graduated at the renowned American Electic Medicai College, Cincinnati, having first studied the Old or Aliopathic system of medicine, and attended Lectures in one of the Old School Medical Colleges of Philadelphia; but becoming convinced of the superiority of the New American Education elphia; but becoming convinced of the superiority of the New or American Eclectic system,
he commenced its study, and attended two
courses of Lectures in the Reformed or American Eclectic Medical Coilege of the Queen
City of the West. This Institution, although
yet in its infancy, has no superior in the Great West, and
has already annually more Students than the four other
Medical Colleges of Cincinnati combined. It is sending
physicians to all parts of our globe, and in Ohio, Indiana,
A., they will soon be more numerous than any other
class of physicians.

The principal difference between the Reformed (new) or

Ac, they will soon be more innerous than any other class of physicians.

The principal difference between the R-formed (new) or Eclectic, and the old Aliopathic system of medicine, is thirt the New School uses no medicinal agent that is in any way injurious to the human system, such as Calomel, Arsenic, Antiminy, Ac; for superior and harmiess agents have of late years been discovered, (by the ever literal and progressive physicians of the New School.) that are complete substitutes for those deleterious medicines. (Calomel, Ac., therefore we have no next for them. With these valuable new agents, and all those of the Old or Allopathic school except the few poisons mentioned above, and all the improvements of every other system of audicine, (as the Homespathic, Hydrogathic, thomsonias, Ac.) many discoses are now curable that were once considered impossible, and that too without breaking down the constitution, and creating other discoses, as bedity, Rheumatistin, Dyspepsia, Liver Discase, Ulcerated Sors Threat, Discase, Roses, premature Loss of Teeth, Ac.

The New School certainty claims a great superiority in the treatment of all diseases. It has been proved by Cinical reports that the mertality—taking all diseases together—is less than 2 per cent; that of Asiatic Cholera is only 5 per cent.

This is an are of recurres and improvements, and the

agether—is less than a per cont.

This is an age of progress and improvements, and the New School is sivesy progressing, not being bound down by despotic croeds and antiquated theories.

which were awarded separ-ate Medals at the World's Pair London, 1851, and also

Patent Champion Fire-Proof SAFES, with HALL's Patent Powder-Proof Locks,

rair, London, 1851, and also at the World's Pair, New York, 1853 and 1854. The subscribers are the sole manufacturers and proprietors in this State of the above unequalled Safes and Locks. The reputation of the genuine "Herring's Safe" is world wide, and for the last thirteen years the mercantile community have witnessed and borne testimony to their NEVER PAILING fire proof quali-ties. More than 12,000 of these Safes have been actually sold, and over Two HUNDRED have passed triumphantly through accidental fires. The public are assured that all Safes manufactured by the subscribers are not only guaranteed to be fully equal, but in many respects even superior to those which have been so severely tried by fire. Few will forget their services in the burning of the "Tribune establishment," New York, and at the Great Fire extreme lightness, case, and durability, with in Strawberry street, at the large fire last July, opposite the Girard House; and still more recently in the Fire at Fifth and Chesnut Sts., in this city, in which these Safes came forth the acknowledged CHAMPION, when many other securities failed. Lightning Rods.

PTEH many years' close investigation and A numerous experiments, the Patentes takes phasure in informing the public that he has arrived at the tone principle of protecting families, dwellings and property from the destructive infoence of LIGHTNING. The calemities that every City, Town, Village and Country falls victim to annually, thro' the gross negligence of its inhabitants, is beyond calcolation, especially when the remedy is so easy to obtain—this is found in found in

ARMITAGE'S Datent Magnetic Lightning Bods, and in this alone. This Rod has been examined by the most scientific gentlemen in the world— Professors M'Murtrie, Johnson, Wallor and man others that have examined them, recommend and speak of them in the highest terms of approbatios, and have pronounced them the only cafe rods in use in this or any other country for the protecti of Lives and Property. One advantage is to divide and throwback a part of the electric fluid harmless to the clouds ; in time of a stroke this enables the rod to conduct that portion of fluid that belong to the earth without the slightest danger of les-

ving the conductor. This rod has many other advantages over the old one. The only place of menufecturing is in Vine St. 3 doors above 12th, Philadelphia,

where all persons are respectfully invited to cal and examine for themselves. For sale Wholesale or Retail by THO'S ARMITAGE. Orders promptly attended to. Terms cash. These rods have been purchased and success fully used by the following individuals, companies and corporations, whose names are cheerfully

RECOMMENDATIONS. I have this day carefully impected a conductor Lightning Rod, with tane and index, secreted by Mr. Thomas Armitage, on Bellevue House, Gloucester, and have no hesitation in seying that it is not only the best I have ever seen, but that it is the only one I have yet examined that is constructed on strictly scientife principles. It is with much pleasure that I recommend his conductor to the attention of owners of buildings.

conductor to the attention of owners of buildings.

It am well satisfied that the Magnetic Lightning Redmanufactured by Mr. The mas Armitage, of Philadelphia is the best that has ever has made. I have spent several years in the study of the fliws of electricity and magnetism, and have no healtation in saying that these Roda are constructed upon the only principle of afety. The electric shock is received and dispersed by the magnet at the top of the rod, and it would be impossible, according to the laws of attraction and repulsion for a building to be injured by a streke of lightning when protected by one of these rods. I have been acquanted with Mr. Armiggifor several years, and before he commenced the manufacture of these rods. I have been acquanted with Mr. Armiggifor several years, and before he commenced the manufacture of these rods. I casamined the principle on which they are constructed, and felt convinced that their adoption would be attended with complete success. The increasing demand for these rods, and the extensivessie in all parts of the country, is ample commendation of their utility and asperiority.

TRACY E. WALLER, M. D. Rising Sun, Philad Co., April 10, 1852.
