PHILADELPHIA ADVERTISEMENTS.—As this is about the time when our mercantile readers visit Phila. to purchase Goods, we invite them to look over our columns and see what Philad. merchants do invite their custom. We have over 20 different advertisers from the city; and while the fact that they advertise in the Chronicle, is not conclusive evidence that they are the best dealers, it is proof that they desire an inspection of their goods, and wish to form business connections in this region, that shall prove of mutual advantage.

THE SPECIAL COMMITTEE to ferret out the Kansas Election Frauds, consist of Messrs. John Sherman of Ohio, Wm. A. Howard of Mich., (Republicans); and M. Oliver of Missouri, who was elected a K. N. News Items from Other Counties.

LYCOMING—Samuel Hartzel, late of Uniontown, has rented the Menges Hotel, one mile below the Muncy Dam. The Normal School at Muncy will open the 28th April. Prof. Sweet will conduct the Institute, the week preceding. The Union Luminary states that the removal of Rev. Joshua Kelly from that station was against the wishes of almost every member of the M. E. Church and congregation; that no one has ever served that church more satisfactorily, and that on learning of the circumstances of the case, the Presiding Elder has released him from his appointment.

MONTGOMERY—The 10 or 1500 iron men continue on their strike, and are encouraged by many in the town and country. They abstain from violence, and indulge in songs, speeches, and processions. One day, they pulled a big wagon up to Bloomsburg with their hands, and brought it back full of creature comforts. A. B. Putnam is appointed Superintendent of Common Schools, in place of Mr. Conkling who has established a Bookstore. They have been rejoicing on fresh shad in Danville, notwithstanding the leaving of some hundreds of people and temporary depression of business.

SNYDER—Nathan Moyer was chosen Burgess of Selingsgrove; Jeremiah Crouse, Constable. The Freeburg Academy will again open for pupils on Monday next, when addresses are expected from Messrs. Gutelius, Eldenmyer, M'Farland, and others. The Middleburg Journal states that on Monday week, a mad dog belonging to C. Weidman of Adamsburg bit Henry Elchinger and a German man by the name of Barnet Hoffer, before he was killed. The United Brethren house of worship in Middleburg will be dedicated on Sunday next.

NORTHUMBERLAND—Gen. A. H. Blair, late of the Franklin House, Lewisburg, has removed into the Broadway House, Milton. H. A. Moudie is elected Burgess, and Jos. Hagedouber, Constable, of Milton. Samuel Hepburn, Esq., and Dr. Lichtenhaler, of Milton, are about removing to Lock Haven.

MARVELLOUS CURE. We have always been slow to believe the wonderful cures which one medicine after another pretend to have made—but slow as we are we will own up when we are fairly convinced. Those of our readers who are acquainted with the cases of Mrs. Beach and Mr. Farwell, will not think us lightly treated, when we confess our belief that Ayer's Cathartic Pills have virtues for purifying the blood which exceed anything within the range of our acquaintance hitherto. For those who are not cognizant of the facts, we will say: she had been afflicted for over eight years with scrofula which only grew worse, in spite of all the remedies she could employ, until she took Ayer's Pills. Under their influence one after another of her sores have healed, until she is apparently as free from the complaint as ourselves. He has had liver complaint with pain in his side that disabled him from work for a long time; all other medicines had failed to afford him any permanent relief, but a few doses of Ayer's Pills cured him, and he is now steadily at his old post of conductor on the cars.—Middleton Daily Courier.

Persons laboring under this distressing malady, will find Dr. HANE'S Epileptic Pills to be the only remedy ever discovered for curing Epilepsy or Falling Fits. These Pills possess a specific action on the nervous system; and although prepared especially for the purpose of curing Fits, they will be found of special benefit to all persons afflicted with weak nerves, or whose nervous system has been prostrated or shattered from any cause whatever. The dyspeptic patient, whose stomach has lost the power of daily converting food into a life-sustaining element, is relieved by a single dose of the extraordinary Pills. The gastric fluid re-acquires its solvent power, and the crude nutriment which was a load and a burden to the sufferer, while his digestive organization was paralyzed and unstrung, becomes under the wholesome revolution created in the system, the basis of strength, activity and health.
