Not alone commits an error. But a grievous moral wrong-Give it play, and never fear it, Active life is no defect; Never, never break its spirit,

Carb it-only to direct. Would you stop the flowing river," Thinking it would cease to flow ! Onward must it flow for ever-Better teach it where to go.

HARTLETON, June 9, 1856. In the last number of the Chronicle appeared a statement of my having graduated at "a Pe-male Medical College" in Philadelphia. As this is not once accurate it has seemed to me this is not quite accurate, it has seemed to me fact is that Hussey's machine is achieving a but just to myself as well as to my Alma Mater to give you the real .....'s in the case.

The Penn Medical University of Phila., in which I was educated, is not a Femule Institution, but one designed for both sexes, and harvest field, OBED HUSSEY, the Father of one which accords to women the same advan-tages rights, and privileges that it does to men.

The same Faculty lectures to both, and gives

the same faculty lectures to both, and gives

season, as the crops todicate a large demand, to the female class the same teaching that it and we can not have over 200 Reapers ready gives to the male. Both classes are, however, for the vast harvest of 1856. not present at the same lecture at the same the ladies, another is lecturing to the gentletime. Whilst one Professor is lecturing to men. The school is therefore entirely freed from the charge of superficiality which always more or less anaches to institutions exclusively female. It is also by this arrangement saved any aspersions of indelicacy or impropriety which might be east upon it, were both classes attendant on the same lecture at the

Neither is it a Medical College, but a Medical University, and is believed to be the most comprehensive in its range of studies, and also the most thoro' of any existing "this side the water." The number of branches taught is 24 and these are arranged in four courses, of four months each, the more fundamental being first pursued, and in respect to all others a regular progression is observed throughout. Each course comprises six branches. It is self-evident that Anatomy must be well understood before Physiology can be comprehended, and this again naturally takes precedence of Pathology, and this of Therapeutics. If nee, the first course is termed Philosophical, and in this Anatomy is a leading branch. The second is the Physiological course, the third the Pathelogical, and the fourth the Practical.

Botany general and Medical, Philosophy Natural and Intellectual, are obligatory branches of study. Of Anatomy there is tanable --Anatomy Miscropic and Topographic. There Carskadden, Joseph Hanns, Robert Holmes. is a chair of Pathology and a chair of Medical Juristicadence. History of Medicine is also an obligatory study. Much attention is given to Organic Chemistry,a department of science whose importance can hard!, be overrated, but

Thus at a glance is seen the superiority of the Penn Medical University of Philadelphia in its wider range of scientific pursuit, and the consequently greater length of time necessary. Instead of two repetitional terms, in which the initial and concluding branches of Medical Science are chaotically mingled, this institution has four regularly progressive terms in which are taught not only medicine proper, but also the cognate branches of this noble science. Yours, &c. E. CALVIX.

Does Farming Pay?

EDS. RUBAL :- I take the liberty of sending you the following statement of the It is not with the idea that it exceeds SELF-Raking Reaper and Mower!-many others in the country, but my obdollars per sere. The field contains 94 minished the yield of cora somewhat. The account stands as follows:

To manuring,

Six days plowing,	12,00
Harrowing,	3,00
Marking,	2,00
Ten days planting,	10.00
Twelve days cultivating,	18,00
Ten days hocing,	10.00
Seed corn,	2,00
Seed potatocs,	2,00
Digging potatoes,	3 00
Picking apples,	3,00
Cutting up corn,	8,00
Husking corn,	32,00
Repairs on fence,	8,00
Plaster,	3,00
Interest on land,	66,50
Total,	232,50
By 1,050 bus. corn at 28cts,	\$294,00
105 bushels potatoes,	32.00
130 Lusbels apples,	20,00
Four bushels turnips,	1,00
Twenty-three leads stalks,	69,00
Ten load pumpkins,	10,00
Two and a half bushels beans	4,00
Eight bushels black walnuts,	
One bushel walnuts,	1,00
Total,	\$433,00

From the above it will appear that I have a profit of \$200,50, or more than 21 per cent. on the capital invested, which is rather better, I think, than some of our Railroad stocks. G. W. Wood. Mendon, N. Y., 1856.

\$232,50

\$200,50

Brooks of S. C. was a Delegate to the Cincinnati Convention. Some say he went and was loudly sheered; others say that he was urged not to appear in Convention. and had a substitute, who voted for Buchange and Breckenridge.

Francis P. Blair, Jr., has been nominated for Congress by the Benton Democrate of the Fifth district, Missouri, to fill the vacancy occasioned by the death of J. G.

A Boston Buchanan paper represents A Boston Buchanan paper represents silver, \$1 per 1 doz. All goods warranted to the murderer Herbert as a Northern man give satisfaction. All kinds of Engraving at and a Know Nothing, when he is in fact a Southerner and Buchapan man.

There is only one Lutheran church in New England, and that is in Boston. In the United States there are more Lutheren than Catholic churches.

Great Improvements!

Hussey's American Reaper & Mower FOR 1856....This Machine was put I in successful operation in 1833, and con-tinued to be the only Reaper and Mowing Ma chine in the World of any pratical value up to 1845—twelve years after its introduction. Other Reapers are now offered with glowing Advert, sements and Certificates of Gold and Silver Medals. But the Parmer, in search of the best Reaper, and not posted in the matter, had better see a little further. One of the other Reapers took the great medal in England, at the premature trial in 1851; before the close of the barvest of the same year, however series of triumphs in England, and rapidly ob-taining that pre-eminent position there, which it has already secured in the land of its origin.

If there is any value in 23 years' experience in building Reapers, and using them in the

EVANS & WATSON, No. 26, S. Fourth St., Philad., have had the surest demonstration in the following Certificates, that their manufacture of Salamander Safes has at length fully warranted the representations which have been made of them, as rendering an undoubted security against the terrific element :

Decurity against the terrinc element:

Misses: Evans & Warson — Gents:—It affords us the highest satisfaction to state to you, that owing to the very protective qualities of two of the Salamander Safes which we purchased of you some few months since, we saved a large portion of our Jewelry, Books. Papers, &c. exposed to the calumidous fire in Hanstead Place, on the morning of the 11th inst. exposed to the calamidous fire in Ranstead Place, on the morning of the 11th inst.

When we reflect that these Safes were located in the fourth steys of the building we occupied, and that they fourth steys of the building we occupied, and that they fourth steys of the building we occupied to the the transplace to melt, we cannot but regard the preservation of the valuable contents as most convincing proof of the great security afforded by your Safes.

We shall take much pleasure in recommending them to men of business as a sure reliance against fire.

GEORGE W. SHONS & BRO.

PHILADEPHIA. APRIL 1.856.

GEORGE W. SINONS & BRO.

Messes Fyans & Watron - I have to offer you my testimony in favor of the great security afforded to my entire stock of jeweity, books, pagers, &c, during the recent disastrous conflagration in Ranstead plaw, from the fact that the same were contained in two of the Salamanteer Safer manufactured by you.

Having failen from the fifth story of the Artisan Building, where they were previously placed and exposed to a rast heat for a long time, the preservation of the valuable deposits seamed to every one who expressed the opening and interior examination, a matter of profound as unit-humest.

ble deposits several territory one matter of professind asting and interior examination, a matter of professind astinishment.

To all who may require a perfect protection from the
ravades of fire, I shall not besitate to recommend the
use of your Safes, as I consider they have now undergone
the most trying test.

PRILORIPHIA, April 14. 1856.

Missens Fvans & Warson - Gentlemen - No should you
will be deeply gratified to learn the good condition in
which I discoursed my book, policy of insurance, certificates of stock, and others valuable documents, when on
Fricky last I opened the safe made by your firm.

With my knowledge of its great exposure, both to the
intensity of the heat from so hot a fire as that which destroyed the Artisan Building, as also from the force of
the fall from its former elevated position in the third
story. I could enfertish but sleader hopes prior to its interior inspection, that the contents which I once so
highly prized would ever be of any service to me, but as
these fears are now happily removed, I feel it only due
to say to you, that I can heneforth recommend the use
of your Safes to all who may wish to feel a confidence in
the perfect security which such means provides against
so frightful an element.

ENDMAND GASKILL, Bookbinder. o frightful an element. EDWARD GASKILL, Bookbinder.

Lewisburg Foundry by

GEDDES, MARSH & C7 Lightning Rods. FTER many years' close investigation and A FTER many years' close investigation and numerous experiments, the Patentee takes phasure in informing the public that he has arrived at the true principle of protecting lamilies, dwellings and property from the destructive infoence of LIGHTNING. The calamites that every City, Town, Village and Country falls victim to annually, thro' the gross negligence of its inhabitants, is beyond calculation, especially

when the remedy is so easy to obtain-this is found in ARMITAGE'S

Datent Alagnetic Lightning Robs, and in this alone. This Rod has been examined by the most scientific gentlemen in the world— Professors M'Murtrie, Johnson, Wallor and man J. J. Countan, Lancaster Bris. Elizabeth, Lancaster, C. W. Peaux, Shamekin. H. Barrasannen do Use Orders addressed to Shamokinor unbury others that have examined them, recommend and speak of them in the highest terms of approbation, and have pronounced them the only safe rods ic use in this or any other country for the protecti of Lives and Property. One advantage is to divide and throwback a part of the electric fluid harmless to the clouds; in time of a stroke this enables the rod to conduct that portion of fluid that belong to the earth without the slightest danger of leaving the conductor. This rod has many other advantages over the old one. The only place of

manufacturing is in some 12th, Philadelphia, where all persons are respectfully invited to call and examine for themselves. For sale Wholesale or Retail by THO'S ARMITAGE. Orders promptly attended to. Terms cash.

These rods have been purchased and success fully used by the tollowing individuals, companies and corporations, whose names are cheerfully ubmitted:

I have this day carefully inspected a conductor or Lightning Red, with vane and index, erected by Mr. Thomas Armitoge, on Believe House, Gloncester, and have no hesitation in saying that it is not only the heat I have ver seen, but that it is the only one I have yet examined that is constructed on strictly scientific principles. It is with much pleasure that I recommend his conductor to the attention of owners of buildings.
