#### Another Douglas Trick.

The vote to re consider prevailed, and the people's branch of Congress passed the bill to admit the Free State of Kansas, by barely 2 maj. Every Fremont man voted for it, and every Buchanan man and every Fillmore man (except a few from the Free States) voted against it! (It will be remembered that the Buchanan and Fillmore were willing to "admit Kansas, having a Republican constitution, with or without Slavery, as the people might desire." It is proved beyond all cavil that the honest, real settlers of Kansas do not want Slavery. They have formed a "Republican" Constitution, by a procedure as segular as that under when Arkansas, California and Michigan were admitted; their admission Michigan were admitted; their admission ucipate in the proceedings of a Convention would restore peace to an agonized land: which might commit us to the support of a but the whole Bachanan and Fillmore ticket on the Cincinnati platform, and thereparty strength is used to keep them outbecause they do not come with Slavery !!! Out upon such hypocrisy !)

-The Report of the Investigating Committee has alarmed the Slave Power, and they dare not trust Buchanan before the people as matters stand. Foresceing the passage of the Topeka Constitution, that arch-traitor Douglas has pushed thro' the Senate a wiley, plausible scheme to counteract it. He proposes to repeal some of the worst of the enactments of the Border whit is gained by it. The fraudulent Le- home on the banks of the Kansas. gislature is recognized as legal; its usurpinfernal enactments are endersed. The drunken Shannon, the perjured Lecompte, the musderer Clark, the "Sheriff" Jones, in principle, was as old as the Constitution and the whole posse of corrupt and law-proved by the old Congress of 1784, and again breaking Territorial Officers are to be contiqued in power. No provision is made and Washington signed the bill. It was reto punish or check the assassins and high-way robbors, and nothing to restore to the Free State people what they have lost. No section ordered on protence of "treason."

U. S. soldiers (under Shannen) are to be to punish or check the assassins and high-U. S. soldiers (under Shannen) are to be in the country cluding Buchanan, Cass, and sent all over the Territory. In short, the Douglas. It was reserved for the present execution of the whole scheme is in the

the people on that issue, if they dare!

The Convention which nominated Mr. Buchman, is thus described by Hon. Tuo's H. Benton (who was a spectator) in his recent celebrated and powerful Address at St. Louis :

I found a garrison of office-holders inside of the Convention, and a besieging army of the same gentry on the outside of it. Packed driegales were there, sent to betruy the people. Straw delegates were there, coming from States which could give no Democratic vote. Members of Congress were there, although forbid by their duties from being at such a place. A cohort of office-holders from Washingion City were there, political ennuchs in the federal system, incapable of acting for the people. It was a scandalous coffection, excluded by the Constitution from being even electors of the President; and yet sent there to vote for the Administration-and to vote upon the principle of the ox that knoweth his master's crib-upon the principle of the ass that knoweth the hand that feedeth him. Bullies were there from the Custom House and the five points in New York-all with the approbation of the Administration; for the office-holders would not be there (absent from office-horders and drawing their pay) without their duties and drawing their pay) without the consent of their employers. It was a scan-

On the day when the For settlers were to elect a Legislature, a pro-slavery army marched into the Territory, took posession of the polis, and elected whom they pleased. This pretended Legislature asseu bled, established slavery in Kansas, and fortified it with the most infamous code of laws that ever disgraced a civilized State. veys and Explorations.
It exhibits the Rail Roads more distinctly than any other general Map.

Being finely engraved on copper the physi-

ral features and geographical characteristics of all parts of the country are more clearly netly delineated than on the Lithe graphic Map.

Nogeneral Maps previously published show the Shoals and Sand Banks in the Vicinity of the West India Islands, this feature being become conflued to Marine Charts.

The Map of Sandwich Islands is on a larger scale than before exhibited in any Ameri-

The various acknowledged and disputed boundaries of the several Central American States, including the claims of the Mosquito King at different periods, are correctly desig-

well as distances by water throughout all parts of the World, also the height of principle mountains and length of principal rivers on the Map is much more full and valuable

than usually accompanies a general Map.

The table gives the population of all the counties in the United States, according to Census of 1850, and area of all States and

Territories are of great value.

There are on the same sheet two Maps of the World, one on Mercator's, and one on the Globular projection, on which the relative position and comparative size of the different divisions of the Globe are distinctly shown. By the Map on Mercator's projection, the World is shown, as if viewed by one glance from the United States. This is done by placing the American Continent in the center. which also gives a definite idea of the value of a ship canal through Central America, and a Rail Road from the Atlantic to the Pacific Ocean across the United States, through which the commerce and travel of the World must pass. M. H. Dersham, M. D., AVING permanently located in Le-

wisburg. Pa., respectfully tenders his Professional Services to the citizens of this town and vicinity, hoping by prompt attention the duties of his profession to merit a share of their patronage. Attention will also be paid to Chronic Diseases of every name, and treated with unparalleled success.

Da. DERSHAM graduated at the renowned

American Electic Medical College.Cincinnati, having first studied the Old or Allopathic system of medicine, and attended Lectures in one of the Old School Medical Colleges of Philadelphia; but becoming convinced of the superority of the New or American Eclectic system, commenced its study, and attended two courses of Lectures in the Reformed or American Eclectic Medical College of the Queen City of the West. This Institution, although

has already annually more Students than the four other Medical Colleges of Chroimeal combined. It is sending physicians to all parts of our globe, and in obloe, Indiana, &c. they will sent be more numerous than any other class of physicians.

The principal difference between the Refermed (new) or Electic, and the old Allopathic system of medicine, in this the kew School was no medicinal agent that is in any way injurious to the human system, such as Colomei, Argenic, Antimony, &c.; for superior and harmines aponts have of late years been discovered, (by the ever liberal and progressive physicians of the New School.) that are complete substitutes for those deleterious medicines. (Calomei, &c.;) therefore we have no need for them. With these valuable new agents, and all those of the Old or Allopathic school event time few piesons mentioned above, and all the improvements of every other system of medicine, (as the Homograthic, Hydropathic, Thomostian, &c.) many discusses are now curable that were once considered impecially, and that too without breaking down the omnitiuations and creating other discusses, as hebdity, likenamalism, Dyseposia, Liver Disease, Ulcerabel Sors Tareat, Diseased Bones, premature Loss of Teeth, &c.

The New School certainty claims a great superiority in the treatment of all diseases. It has been proved by Clinkal reports that the mortality—taking all diseases together—is less than 2 per cent; that of Asiatic Cholera is only 5 per cest.

This is an age of progress and improvements, and the

only 6 per cent.
This is an age of progress and improvements, and the
we School is always progressing, not being bound down
despote creeds and antiquated theories.
