Mitchell's New National MAP.

FIRHS is the only large Metallic Plate Map ever published in this country, showing the United States, Mexico and Central America in their proper connection.
It is on a larger scale than any Map published for general circulation, embracing the United States and Territories from the Atlantic to the Pacific Ocean.
It is the latest Map of the United States

published—consequently embodies all infor-mation of the most recent Government Surveys and Explorations.
It exhibits the Rail Roads more distinctly

than any other general Map.

Being finely engraved on copper the physical features and geographical characteristics of all parts of the country are more clearly and distinctly delineated than on the Litho-

graphic Map.
Nogeneral Maps previously published show the Shoals and Sand Banks in the Vicinity of the West India Islands, this feature being heretofore confined to Marine Charts. er scale than before exhibited in any Ameri-

can publication.

The various acknowledged and disputed boundaries of the several Central American States, including the claims of the Mosquito King at different natively assess suggested as proper for constructing Rail Roads, Canals, &c. throughout this country, (Central America) and Mexico are indicated.

A table giving the distances by Rail Roads

to the principal places throughout the United States, and by different overland routs across our unsettled Territories of the Pacific, as well as distances by water throughout all parts of the World, also the height of princi-

ple mountains and length of principal rivers on the Map is much more full and valuable than usually accompanies a general Map. The table gives the population of all the counties in the United States, according to Census of 1850, and area of all States and

Territories are of great value,

There are on the same sheet two Maps of the World, one on Mercator's, and one on the Globular projection, on which the relative position and comparative size of the different divisions of the Globe are distinctly shown. By the Map on Mercator's projection, the World is shown, as if viewed by one glance from the United States. This is done by scing the American Continent in the center which also gives a definite idea of the value of a ship canal through Central America, and Ocean across the United States, through which the commerce and travel of the World must pass. Mr. F. TAGGART, of Wayne Co., is engaged in canvassing Union and Snyder counties for the above work published by

HAVING permanently located in Le-wisburg, Pa., respectfully tenders his wisburg, Pa., respectfully tenders his Professional Services to the citizens of this own and vicinity, hoping by prompt attention to the duties of his profession to merit a share of their patronage. Attention will also be paid to Chronic Diseases of every name, and treated rith unparalleled success.

Du. DERSHAM graduated at the renowned

Imerican Electic Medical College, Cincinnati. having first studied the Old or Allopathic system of medicine, and attended Lectures in one of the Oid School Medical Colleges of Philadelphia; but becoming convinced of the super-iority of the New or American Eclectic system, he commenced its study, and attended tw-

courses of Lectures in the Reformed or American Eclectic Medical College of the Queen City of the West. This Institution, although yet in its infancy, has no superior in the Great West, and has already annually more Students than the four other Medical Colleges of Cincinnati combined. It is sending physicians to all parts of our globe, and in this, indiana, &c., they will soon be more nomerous than any other class of physicians.

The principal difference between the Reformed (new) or Eclectic, and the old Allopathie system of medicine, is this, the New School uses no medicinal agent that is in any way injurious to the human system, such as Calomel, Arsenic, Antimony, &c.; for superior and harmless agents have of late years teen discovered, (by the ever therm has of late years teen discovered, (by the ever therm and progressive physicians of the New School) that are complete substitutes for those deleterious medicines. (Calomel, &c.;) therefore we have no need for them. With these "attable new agents, and all those of the Old or Allegathic school except the few poisons mentioned above, and all the improvements of severy other system of medicine, (as the Homerpathic, Hydropathic, Thomsonian, &c.) many discusses are now curable that were once considered impossible, and that too without breaking down ties constitution, and creating other diseases, as Bebility, Rheumatism. Devenous, Liver Disease, as Bebility, Rheumatism.

ogether—is less than 2 per cour, a only 5 per cent. This is an age of progress and improvements, and the New School is always progressing, not being bound down by despotic creeds and antiquated theories.

All persons are therefore cautioned against manufacturing or purchasing said ered with various kinds of Oak, Pine, Phylical Bee-Hive unless duly authorized by said High and Chesnut.

The Farm contains about 55 acres of ab. above Hives in the foregoing Townships and Boroughs, for sale on reasonable terms. A single right for \$5. H. & D. single right for \$5.

*** This Hive has taken the first premiums at the State and County Fairs in Vt., N. H., Mass, Ind., and Ohio, in the Fall of 1854.

and County Fairs in Vt., N. H., Mass., Ind., and Onlo, in the Fall of 1854.

With this Hive, any one may keep Bers, with perfect safety and success, since all difficulty and uncertainty are entirely removed.

The Bers may be made to means from one or more hives, or may be conducted into any number of hives without sucreasing, and still have a full supply of Queens.

The Bers are entirely posted from the first Mich and other insects which amony mid ruin the Bers. This we were run, if managed seconding to the directions which are given in the book.

In the Spring, the Bers have an opportunity to exercise

en in the book.

Spring, the Bees have an opportunity to exercise
ar ; be fifth from their haves, without flying out t die on the snow.

The fifth can be at any time removed from the hives without disturbing the flees.

without disturbing the lines.

The liers can be transferred as often as necessary, to give them new comb, and without killing them.

It prevents all possibility of rothing, while feeding.
It is thoroughly reministed throughout feed-drawers, hives, honey-baxes and chambers.

The work and progress of the Boss may be seen in the lives, honey-baxes and feed-drawers.

FINE BUFFALOE VALLEY FARM OR SALE .-- Having become too old to manage my large Farm to advantage. I wish to sell a part of the same-a tract of

as a purchaser might prefer. The portion I would part with is all first quality Limestone land, and every field may be watered from the Little Buffaloe creek. It is all under the best cultivation-except about twenty acres of excellent TIMBER. It is newly limed, with new fences. There is a Limestone Quarry open, from which housands of bushels are sold yearly. It has also a young bearing ORCHARD.

The Improvements-all new-are a good two-storey Frame HOUSE with a Cellar Kitchen, and a Pump beside it, a Spring House, a large Bank Barn, Wagon Sh Corn House and other out-buildings.

The property lies in Kelly township, near Lewisburg, and 2 from Milton-and has been ounced one of the best in the Valley. Pronounced one of the best in the valley.

Title, indisputable. Payment to be made one half down, and the remainder on time. Possession given the 1st of April next. SAMUEL YODER.
