

mont and Dayton, but have nominated Smith and M'Farland, as their candidates for President and Vice President. I have said thus much merely as an act of justice to a class of men scattered sparsely thro' the community, whom your readers will recognize as generally persons of sincere piety and not at all dangerous to the public weal.

What matters it, then, that Theodore Parker and Garrison have denounced the Constitution as hopelessly entangled with Slavery, and have also shown themselves deists? or that the N. Y. Standard, if there be such a paper, has spoken hard of the course of the Tract Society?

That paper is now extensively circulated, however unwelcome the news may be to you, and any man who does not take it himself, has only to ask one of his neighbors if what you say of it is true. It would not be wicked for him even to look at the paper himself just enough to become satisfied whether it is the mad dog which it is cried up to be. It is probably perused regularly by nearly a million of readers, for some time past, and I confidently ask whether one of all these has found its editors advocating 'infidelity,' 'free love,' or any of the bog-bears which you associate with it.

There are some other points of interest suggested by your pamphlet, which I will notice hereafter. Yours with due respect, GEO. R. BLISS.
