Lewisburg, Pa.

FRIDAY MORNING, OCT. 31, 1856

ADVERTISE!—Manufacturers, Merchants, Mechanics, Public officers in City and Country, Publisher—all who wish to buy or sell—would do well to employ the columns of the *Lewisburg Chronicle*, which has a large and increasing circulation in a community containing a large proportion of active, solvent producers, consumers and dealers, as any in the State.

☞See New Advertisements.

☞Gov. Pollock has appointed Thursday, 20th of November, as a day of Thanksgiving.

☞The Harrisburg *Telegraph* is now published *daily*, and is a strong advocate for Fremont and the Union Ticket.

FIRE—A car attached to a freight train on the Catawissa road took fire at Danville on last Thursday night, and was completely destroyed.

☞At the sale of Lewisburg University Lots, Friday last, nearly $5,000 were realized, which, with the sum obtained for the present Seminary building, will go far towards finishing the neat, beautiful and commodious new edifice to be let to-day!

☞In Stephenson Co., Ill., we observe J. Wilson Shafer is the Republican candidate for Sheriff, and Charles E. Berry for District Attorney—both gentlemen formerly of Union county, Pa. Among the Delegates to the Republican County Convention we notice the names of O. P. Duncan, J. K. Housel, Levi Sheckler, J. B. Barber, John Bolender, S. H. Laird, Daniel Kostendorder—and probably others familiar to the people of this county.

☞One of the premium lists of our late County Fair, was in a private pass-book, and we knew nothing of it until too late for last week's paper. Most of the Reports were almost illegible. We add the one not before published:

A premium of $2 was awarded to John Musser, Lewisburg, for fine matches, and not to John Moyer of Kelly. There were also several other errors—not the printer's—which will be corrected by the Executive Committee.

☞The Union & Snyder Counties Teachers' Institute met at New Berlin, 21st and 22d inst., 32 members present. The resolutions adopted urge the co-operation of parents with teachers—are anxious for a uniformity in text books—approve the County Superintendency—recommend the *Penn'a School Journal*—and complimentary to the citizens and others who had contributed to make their session pleasant and profitable. Adjourned to meet in Freeburg. Officers for next year:

President—G F. M'Farland. Vice Presidents—Miss Weirick and Mr. Kessler. Rec'g Sec'y—G. M. Yocum. Cor'g Sec'y—C. E. Haus. Treasurer—L. W. Anspach. Executive Committee—Messrs. Heckendorn, Snyder and Gundy.

WASHINGTON, Oct. 27.—Col. Forney sent here on Saturday the most pressing message for more money for the election of next Tuesday in Pennsylvania. Without large sums at once, he says, the State is lost to Buchanan, and possibly, he adds, it is lost at any rate. The Buchaniers are greatly alarmed at the prospect before them.

DANVILLE, Oct. 29.—Some twenty-five of the leading old Democrats of this borough, some of whom voted the Buchanan State ticket at the late election, have issued a powerful address to their fellow Democrats, repudiating Buchanan and the Cincinnati Platform, and urging them to support Fremont, the only true Democrat now before the people.

White Deer, Oct. 15, 1856

Hickok's Patent Portable KEYSTONE CIDER & WINE MILL,

patented Nov. 20, 1855.

☞This is not the Mill sold in 1852. It excels all mills in the market in the ease and speed with which it grinds, and in the great power of the press.

Manufactured at the Eagle Works, Harrisburg.

PLEASE TAKE PARTICULAR NOTICE!

THAT this is entirely new mill—no expense has been spared in its manufacture—all the materials are the very best, and are used unsparingly. The Cylinders are almost twice the length of the former ones, and all including the top Cylinder, made of Iron. The screw is two inches in diameter, with a heavy ½ V thread cut on it. The beam of the Press is cast iron instead of wood—is made VERY HEAVY, and the thread of the nut cut for FOUR inches through it. The power of the Press is very much increased and cannot be broken by any fair means. The arrangement of the Tub and other parts of the Press, is very perfect. The Boxes of Journals are all best cast, and the bearings of the Journals run in long bearings; and lastly, the workmanship shall not be excelled by any machine of the kind whatever. Perfection being the aim, both in the arrangement and the mechanical department.

All persons who have been obliged to use the old-fashioned nut Mill, are aware how inconvenient it is, and especially those who have a large quantities of apples to grind. In having this Mill on your plantation or farm, you can, at any time, in a few minutes make a few gallons of sweet cider for present use; or you can very expeditiously make up a few barrels. The Machine, well worked, is capable of making 8 to 12 barrels of cider a day, with ease.

The machine is made to run by horse, steam or hand power, and when the apples are ground, a small boy of fourteen years of age can press the pomace with all ease. The following may be adduced as the decided advantages of this mill.

First—It will make more Cider than any other Press, with a given quantity of apples in a given time and with much less labor and expense.

Second—It will make cleaner and sweeter cider than any other Mill.

Third—You can make the cider as you want it, and when you want it; and in quantities from one gallon to barrels.

Fourth—With it you can press your Currants, Cherries, Berries, Cheese, Butter, Lard and Tallow.

Fifth—With it one you can at all times have fresh and sweet cider.

With all the advantages resulting from the possession and use of such a Machine—at a price so low that it is within the reach of all—can it be that any intelligent Farmer would do without it?

RECOMMENDATIONS.

JACKSONVILLE, June 15th, 1854.

W. O. HICKOK: SIR—I have one of your Improved Cider Mills; I used the Mill last October, and in all I ground fifty bushels of apples per hour. I keep the ground apples twelve hours, and I can press out two barrels of cider per hour with two men. I can recommend your improved Cider Mill to all fruit growers, for speed and a saving of labor. I can make thirty-five gallons of cider from nine and one-half bushels common apples. The cider can be pressed from the pomace without using water now. Cider will keep one year when water is not used at the press.

JOHN M'COMBS.

ST. LOUIS, July 29, 1853.

MR. W. O. HICKOK:—Your Mills go Heavy, and we have sold them and telegraphed for twelve more. As they are a much better made and better looking Mill than the other kind, we know they will sell quickly alongside of them at $35—price of the other $25.

We have six of the other kind, but, as we said before, people won't look at them alongside of yours.

Yours, Very Respectfully, W. M. PLANT & Co.

YORKTOWN, INDIANA, June 16, 1853.

MR. W. O. HICKOK—DEAR SIR—It gives me great pleasure to lend my feeble influence in recommendation of your invaluable Patent Cider Mill. Any person who has made cider by the old process will quickly perceive, should they procure one of your new Mills, the utility and economy of your invention. I regard it as one of the best inventions now in use. Although I have had it but one year, it has amply repaid me for what it cost. Cider expressed through one of your machines is less liable to fermentation, and can be preserved sweet longer than that produced through the old fashioned Mill, from the very fact that it is more free from pommel, which always has a tendency to acidity, and unfits it in many instances for domestic use. Yours, respectfully, W. Q. BAILEY.

This is to certify, that I purchased of D. Landreth, in October, 1852, one of Hickok's Patent Cider Mills, and have had it in use ever since. Perfectly satisfied with it myself, I have no hesitation in pronouncing it a very useful and indispensable Machine to the farmer. With it, one man and two boys can make from five to six barrels of good cider per day, easy. Many of my neighbors have purchased similar Machines. The Mill has been greatly improved since I bought mine.

W. O. HICKOK. Bibley, Delaware County, Pa.

May 11, 1854.

I hereby certify that I have used W. O. Hickok's Improved Portable Cider Mill, and consider it a valuable invention in the economy of time. The cider is cleaner and better than that made in the usual way. I am well pleased with it, and should be unwilling to part with it for quite a premium on the advanced cost. JOHN S. HALE.

July 1, 1854. Portland, Ct.

☞More than one hundred Silver Medals and Diplomas have been given to my Mill within the last four years.

☞This Mill occupies about 2½ feet by 3 feet, and is 4 feet high, weighing 350 lbs, is every way portable and convenient."☜

DENTAL CARD.

THE new method of inserting artificial Teeth, Gum, &c., known as

Allen's Continuous Gum Work,

is, without exception, the best improvement ever made in the art of Dentistry. This work, when properly constructed, is the most beautiful, the cleanest, combines the greatest strength with durability, and adds more to a clear and distinct articulation, than any other kind of work ever brought before the public. And we say this, By a beautiful discovery in combination with this style of work, we can give the face its natural expression, without, in the least, interfering with the usefulness of the teeth in mastication.

I would take this method of informing those interested, that I have purchased the Patent Right for this valuable improvement, of the inventor, John Allen, (now of New York,) for this and several adjoining counties, and that I am now manufacturing an article of Teeth and Gums that will compare favorably with anything in that line that has ever been used in this or any other country. Last, but not least, I would say to those that need teeth (if they have any good ones or not) to call and examine for themselves.

To the Citizens of Union County.

FROM the very favorable representation made to us by the citizens of this county we the subscribers intend making an accurate handsome and ornamental **MAP of the County**, provided a sufficient subscription list is obtained. It will be from original surveys, embracing all the roads, streams, mountains, towns, villages, churches, hotels, post offices, mills, school houses &c., with their names and the names of all the property holders in them. Spreading upon the face of the whole the subscribers will locate the various lines being both practical Engineers and Surveyors of long standing.

The Map will be 30 by 40 inches, handsomely finished, mounted on rollers similar to the Map of Monroe Co. N. J. now in use in that County, delivered to subscribers only at $5 per copy payable on delivery.
