Our Flag for 1860.

FOR PRESIDENT: JOHN C. FREMONT OF CALIFORNIA

FOR VICE PRESIDENT: WM. L. DAYTON OF NEW JERSEY

COURT IN LEWISBURG NEXT WEEK, when we shall be happy to receipt for any amount of money on new or old accounts.

The plastering in the new Court House, is too wet to allow the use of it with safety, this Term, but there will thereby be a good opportunity for the authorized examination of the building, by the Court and the Grand Jury.

The Union Furnace—Winfield.

A short trip one day last week, revealed to us many improvements between our sanctum and Dry Valley, and worthy of being told to all.

On Third street, Lewisburg, there is under roof a neat brick Parsonage, built by the Lutheran congregation of the town and vicinity, on the site of the school house, and forming a commendable proof of their anxiety and willingness to aid the comfort of their pastors.

In East Buffalo, we find Mr. Jno. Strohecker has entered a tasty brick dwelling, just below his old wooden one.—A few rods further on stands a brick kiln—preliminary symptom of buildings to be erected by Messrs. T. and A. Penny, some where on their purchase of the late Ireland farm.—But crossing the Maj. Gunby hill for the fourth time, we could not but think—notwithstanding the beautiful view from the hill, when you reach its top—there must be some way devised for avoiding those two steep pitches, even if it should leave the Major monopolizing all the glorious scenes to be enjoyed on his miniature Pisgah!

The Union Furnace—built and worked by Messrs. Beavers, Godkin, Marsh & Co., we found still in the full tide of successful experiment, employing a large number of civil industrious workmen, and at the present prices realizing a fair return for the risks incurred, and the \$60 to \$70,000 invested in the enterprise.

The engine used is the first one of the kind devised by Mr. Ross, and although not combining all the advantages of that exhibited on our first page, is confessedly a superior machine, and the Furnace is in every respect built after the very best models. It has every advantage of location—limestone and iron ore within stone's throw, almost; various ores, as desired, secured in other beds; coal landed on their wharf from the Sunbury steamboats, (the Furnace is not, however, "the head of navigation" on the West Branch, as the boats in high water can run to the Lewisburg Dam;) and equal opportunities for transporting the metal made to good markets.

A FLOURING MILL has this season been added to the establishment—a brick building, three stories high, situated between the furnace stack and the road. The machinery is of Clark's patent, a single run of stone turning out 10 lbs of flour in a minute, and the bran, shorts, and ship stuff, delivered in separate places. A snout machine is connected, and all—(together with two pairs of blacksmith's bellows in another building)—driven by the waste steam from the Furnace. The Mill seems adapted to perform excellent service at a trifling cost.

In and around the large store room of Morris, Rook & Co., we observed several Clerks who were usefully and attentively employed, but who we did not at first recognize. A short conversation, however, revealed three young gentlemen who we had hardly missed from the throng of lads who may be both seen and heard on our streets by night or day, in sport or mischief.—Messrs. Beach Ammons, Thos. J. Hite, and Geo. M. Shifer. Success to you—Improve your advantages for becoming business men, and prove worthy of your sires!

Nearly opposite the store, Messrs. Morris and Rook have built a handsome double brick dwelling, and a little further on a good brick house for public worship has been enclosed by or for the Evangelical Association.

Below these are the old tavern stand now occupied by Maj. Henry Gibson, and the mercantile establishments of Messrs. Youngman & Walter, and Matthew H. Tappan, with other tenements.—Altogether, we consider Winfield or Dry Valley perhaps the most flourishing neighborhood in the county—eminently deserving of a Mail at least every other day—and also well persuaded in our own mind that if a Town had been laid out there at an early day, and the seat of justice for Union county there located, it would have been the largest town within thirty miles and the county seat for many years to come. That chance has gone, but it is still a beautiful and a flourishing business locality, and capable of still further improvement.

NEWBURGH, N. Y., Dec. 7.—The jury in the case of Lewis Baker, charged with the murder of Pools, has been discharged, being unable to agree upon a verdict. The jury stood six for conviction of manslaughter in the third degree, and six for acquittal.

CONGRESS.

Little has transpired, in either House, beyond the political discussions awakened by the President's violent stump speech under the color of a "Message."

In the House, on Tuesday, Whitfield, the Border Ruffian Delegate from Kansas, was sworn in by a vote of Yeas 112, Nays 108—every Buchanan man and most of the Fillmore men voting Yea, and every Fremont man voting Nay. The Pro-Slavery men claim this as a great victory and a sure forerunner of the admission of Kansas as a Slave State under Buchanan.

(We were told, here in Union county, as well as elsewhere, that "the truth" was "the Democratic party that was laboring for Freedom in Kansas;" but how their admission of the Border Ruffian Pro Slavery Delegate is to advance "Freedom in Kansas," is beyond our ken!)

From Kansas.

The UNSUBDUED spirit of the noble Free State settlers in Kansas, and the quarrels which have arisen among the Pro-Slavery officials, have raised the hope of the former, and depressed the latter. The filibuster Titus leaving with 100 of his men, is a consequence of this new state of things.

With the rifles yet on hand among them, and their increased numbers, the Freemen think they can keep back Missouri invaders hereafter, unless the U. S. troops are again employed against them.

Clothing, food, &c., are arriving from the East, North, and West, doing much good, and are distributed to almost universal satisfaction.

The murderer, Hayes, was released again, but the friends of Gov. Geary say that both Leecompton and the murderer Clark will be removed from office.

The New Marshal in place of Donelson, is well spoken of.

It was stated that the Grand Jury had found bills against some of the Pro-Slavery murderers, when an "indignation meeting" of that stripe was held, and we have since seen no indication that anybody would be punished but Free State men.

One letter written expresses the hope that Gov. Geary and others high in power there, disgusted with Radicalism, are turning Free State men.—Very doubtful, but hope it may prove so!

"SECTIONALISM."—On the 8th inst, a "Southern Convention" was to meet in Savannah, Ga., composed exclusively of "people of the Southern States," to advance their interests in reference to Agriculture, Internal Improvements, Domestic and Foreign Trade, Mines, Manufactures, Education, and Education. Were the Northern or Free States thus to assemble, the whole South, and thousands of "Democers" and "Americans" at the North would set up a simultaneous howl that it was "sectional," "treasonable," and "tending to divide the Union."

But the Southerners have held seven of these Conventions (besides open Nullification Conventions without number), and we have yet to see the first word of condemnation from the North against these exclusive Southern Conventions to advance their own interests at our own loss. The Hartford Convention was not as exclusive, nor more hostile to Union; and the Republican National Convention was infinitely more "National," patriotic, and "Union-saving," than these Southern pow-wows, which are mostly got up and managed by nabobs who are seeking to advance Nullification by means of these oft-recurring exclusive Southern Conventions.

The New Orleans Delta, and many other Southern journals, are pressing the proposal that the Legislatures of the slaveholding States shall exempt all slaves from judicial levy and sale. This is proposed in the hope that such a security for "slave property" would diffuse it, and thereby largely increase the number of slaveholders. On the score of humanity, this might be a benefit to the race, especially if accompanied by a law forbidding the separation of children of a certain age from their parents. It would also prevent Northerners from extending so much credit to the South, and in that way make business safer and more independent. Let's have the law, by all means. As Gen. SCOTT always said, "Ameliorate Slavery to its extermination."

MELANCHOLY CASE.—Rev. S. G. Ricker, formerly a City Missionary in Boston, proceeded to Kansas and established a claim near Lawrence, with a view of becoming a permanent citizen of that Territory. During the outrages which have occurred there, he was driven from his land and robbed of all his possessions (some \$1500) by the Border Ruffians. He recently returned to Boston, but the loss of his money affected his mind, and on Saturday he was sent to the Lunatic Hospital at South Boston, a raving maniac.—Boston Telegraph.

GOING AHEAD.—The city of Indianapolis, Indiana, which at the Presidential and State elections, in October and November, went overwhelmingly for the Democrats, has just elected a Republican Mayor, by 150 majority. This is the first election held since the Presidential, in any part of the country, and its result argues well for the unshaken spirit of the Republican party.

Hartford City at its Charter election is Republican by an increased majority. Lowell, Worcester, and Boston, choose Republican Mayors—the latter by 6,100 majority.

Eleven German papers advocate the election of Fremont in 1860.

From Snyder County.

Last week, the adjourned Court at Middleburg, lasted three days. This week is Regular Court for Snyder county.

On Wednesday of last week the Commissioner visited the Jail, and not finding the bed-ropes, Sheriff Forrey made a search, and discovered the ropes altered into a ladder about thirty feet long, with which the prisoners had prepared to escape.

On Thursday, a person from Hartley Tp. was sent to jail at Middleburg on a charge of receiving goods from Beaver Furnace under false pretences. This made five in the new Jail.

The German Reformed Church Edifice, in Selingsgrove, will be dedicated on Christmas day (26th inst.) Rev. Drs. Nevill, P. Schaff, Yeomans, H. Harbaugh, and other clergymen, from a distance will be present.

The evidence in the contested election of District Attorney in Philad., seems to confirm the charge that the Buchanan party smuggled in thousands of illegal votes, in that city as well as in New York. One Wm. Adams swore that he voted five times at one precinct, under the names of persons on the Assessor's list who were not voters, and several persons who were not voters, voted. The investigation is still going on, and shows that San Francisco is not the only city, whose ballot-box "stuffing" has been a great auxiliary to Sham O'Democracy.

PITTSBURG, Dec. 9.—About half past 7 o'clock last evening, the Cleveland and Pittsburg train ran through the Pittsburg, Fort Wayne and Chicago train at Alliance, smashing two cars of the latter train. One of the cars was thrown into the rotunda of the station, and the other through the public room which constitutes part of Sowerbeck's hotel, in which several persons were sitting. The rotunda and sitting room were both torn down, killing eight and wounding a number of persons.

Who HOLD THE OFFICES?—The Judiciary has been almost exclusively in the hands of the South, as the office of Chief Justice of the Supreme Court has been filled 54 years, by a Southern man, and but 11 years by a Northern man.

The same rule will apply to Diplomats, as out of 182 foreign ministers appointed, 117 of them have been Southern men. There are now 318 Northern men holding office in Washington, and 630 Southern men.

Last week an Arkansas jury convicted the chief operator of the Little Rock Manufacturing Company, which assumed banking powers and issued notes for circulation, and which failed a few months ago, swindling stockholders and others of a large amount. They did this under the common law, for unfortunately they found that there was no statutory provision in that State to meet such cases. The Judge under the same law sentenced the party to four years imprisonment.

SMALL POX.—The folks in the country express some desire to know the real extent of this disease in Danville, and it would be well for our physicians to make a regular report of its extent. So far as our knowledge extends there have been only four or five deaths, and there are but two cases in town at present. Perhaps there may be a few cases of Varioloid, but even these are becoming very scarce.—American, 2d inst.

MILWAUKIE, Dec. 6.—The storm of Tuesday last was very severe along Lake Michigan. Many buildings were swept away, piers damaged, &c. In many places snow fell to the depth of six feet. The railroads are blocked up, and no trains are arriving or departing.

During the storm of Tuesday the brig Storm King and Algonah, and the schooner Welland were all wrecked within sight of the city. All on board were saved.

BALTIMORE, Dec. 7.—Henry George Kupper, British Consul at this port, was suffocated last night whilst in a house in the western part of the city, which was destroyed by fire. The other inmates narrowly escaped. The house is said to be one of doubtful repute. The deceased has a family residing in England.

PITTSBURG, Dec. 9.—A letter from Washington, Pa., states that the Jefferson College, at Canonsburg, was destroyed by fire on Friday night last, with the library, containing 10,000 volumes. The total loss is \$50,000.

COL. BENTON delivered a speech at St. Louis, the night before the election, in favor of Mr. Buchanan, denouncing the repeal of the Missouri compromise, and declaring that he is opposed to the extension of Slavery.

A Buchanan paper says the Women of Wisconsin disguised themselves as men, went to the polls by thousands, and voted for the "Woolly Horse." (Fremont.) 222

The Danville Democrat publishes the Address delivered last month before the I. O. O. F. at Danville, by Rev. R. A. Fink, of the Lutheran church, Lewisburg.

Sandy Butler, free black, convicted in St. Mary's county, Md., of stealing a saddle, has been sentenced to be sold out of the State for twenty years.

On the 12th ult., a Baptist church gathered at Spruce Creek, Huntington county, under the labors of Rev. A. B. Still, was recognized by a Council.

Union County Court.

Judge Capron, of the Quarter Sessions of New York City, in his charge to the Grand Jury recently states that "the Election Laws are the most important of all laws, and reiterates the fact that it has been most villainously violated at the late election in this city. He enters upon a long argument to prove that if the frauds upon the ballot-box are allowed to go unpunished, and if the public take no more interest in the rascalities of politicians than they appear to do, then, indeed, it may be prophesied of us, as the Romans: "The days of the Republic are numbered!" The Grand Jury have presented 50 or 60 Inspectors of Election for their neglect of duty at the late election.

Some of our cities need a purification like that San Francisco received.
