SHANGHAI LINDEN. A serio-tragico poem, some relation to Generally supposed to have been written

BT THE AUTHOR. In Sing Sing, when the sun was low, Not many hundred years ago, A mighty Shanghai's awfol crow

Broke on the still tranquility. But Sing Sing saw another sight, When the roasters rose, at dead of night, T' exterminate, in deadly fight, His long legged Shanghai majesty.

Then rushed the dreadful battle's tide-Then flew the feathers far and wide, But louder than all else beside The Shanghai crowed triumphantly, In gown and night-cap all arrayed,

neighborhood awoke, dismayed, And cursed th' unusual serenade In terms of great severity. Each sleeper started from his bed,

And wished the noisy raseal dead, And muttered vengeance on his head With deep, heartfelt sincerity. The combat deepens ! On, ye brave ! Devote that Shanghai to the grave ! Wave, roosters, all your feathers wave! And crow with all your deviltry!

The battle's ended-now once more The neighbors slumber as before, And thanks arise to Heaven o'er The downfail of the enemy. 'Tis morn-but scarce the lark's high note

O'er hill and vale begins to float, Ere that infernal Shanghai's throat Pours forth its dread artillery. But longer yet those legs will grow, If Pate lays not the mouster low; And louder yet the wretch will crow,

Unless death seals his destiny. Ah! few would monrn,and none wo'd weep, If some dark hole's secure retreat, About two handeed fathoms deep, Should be the Shanghai's sepulcher

WHAT CAUSED THE ELECTION OF JA'S BUCHANAN ?- The Daily News (the Editors of which, it is generally supposed, sold themselves to Buchanan) attributes the victory of Buchanan in Penn'a to the dishonesty and obstinucy of the 203,000 Uniou men, because they refused to go with a few Straight Fillmore men. This is very satisfactory; especially when we consider the 114 Electoral votes given the Republican candidate, the 8 votes for Fillmore, and the great majorities given for the Union ticket by Allegheny, Beaver, Lawrence, Bradford and all the Republican mained out so long in the case of Smith perfectly plain. The land belonged to Jones, but THERE WERE ELEVEN OB-STINATE RASCALS ON THE JURY WHO RE-FUSED TO AGREE WITH ME."

TAKING THE WHOLE .- It seems that the \$75,000 which the President is spending to procupe entrines of spear cape for the improvident planters of Louisians, was appropriated by Congress, generally to procure roods, cuttings and grasses for the farmers of the whole country. Frank Pierce, in the exercise of his admirable discretion, gave it all to a baker's dozen of planters in Louisiann. It was divided as the "Democracy" divide the Missouri Territory—one half to the South—and the other half too. How long will the country stand this sert of thing?

But the Irishmen (of whem there are some 1300 voters, or over half the party) in the county, were not to be chated out of the fun-so they brought along some codfish, and, indulging liberally in the " flour doinge," made out a "harrty male."

DIFFERENCE AMONG DOCTORS .- The Raleigh (N.C.) Standard states that the Democracy saved the South in the late Presidential contest, but the Charleston (S.C.) Mercury dissents emphatically, and says; "We are surprised that that journal in the intoxication of success, should shut its eyes to the Pyrrhio character of this victory-one more such, and we are lost. It is the South that has saved the Democratic party, and not the Democratic party that has thrown its shield over the South."

ONE and Two Horse Endless Chain POWER.—The undersigned being con-vinced by practical experience of the superiorny of Vanderslice's Tread Power over the ormary five horse power now in use in the West Branch country, for threshing out grain, have purchased the patterns and right to make them. We are now making and have on hand a large number, which we propose to introduce on the plan if they don't answer to the letter of the guarantee given with each of them, the machine will be taken back and the money refunded, if paid. They are now almost the only entire Threshing Machines in use in Chester, Montgomery, Berks and Delaware counties. Their advantages are that they will do almost double the work, according to the number of horses used, than the old machines will do; I of they will save at least two hands; and Threshing can all be done snugly closed up in the baras, in wet days, when the hands would be otherwise T. Lightning Rods.

A FTER many years' close investigation and numerous experiments, the Patenter takes pleasure in informing the public that he has arrived at the true principle of protecting families. dwellinge and property from the destructive influence of LIGHTNING. The calamities that every City, Town, Village and Country falls victim to annually, thro' the gross negligence of its inhabitants, is beyond calculation, especially when the remedy is so easy to obtain-this is

ABMITAGE'S Patent Magnetic Lightning Rods, and in this alone. This Rod has been examined by the most scientific gentlemen in the world-Professors M'Murtrie, Johnson, Wallor and man others that have examined them, recommend and speak of them in the highest terms of approbation and have pronounced them the only safe rods is use in this or any other country for the protecti of Lives and Property. One advantage is to divide and throw back a part of the electric fluid harmless to the clouds ; in time of a stroke this enables the red to conduct that portion of fluid that belong to the earth without the slightest danger of lea ving the conductor. This rod has many other advantages over the old one. The only place of

manufacturing is in Vine St. 3 doors above 12th, Philadelphia, where all persons are respectfully invited to caland examine for themselves. For sale Whole or Retail by THO'S ARMITAGE.
