#### The Family Newspaper.

Gents may sigh for their regalias, Maids for their dainty cups of tea, But something in this pleasant world Has greater charms for me.

Tis not exchanging gossip
With neighbors as they pass, Glancing over the latest fashions, Nor yet looking in the glass.

It is strting, nice and easy, In a cozy old arm chair, With the open casement nigh you, Filled with fragrant summer air,

And the weekly paper lying With the choicest gems of thought, Wholesome stories, poets musing.
From the neighboring village brought-

Dropped into the quiet window, In the leafy country here, Where the cricket low is chirping, And no jacring sounds are near, Food it gives, so lightsome, cheering, For your sometimes doubting mind, And it brings with modest teachings, Truths that you may never find.

And I know that you would join me, When I wish that there might be, And that all the happy inmates,
On the prairie, in the glade,
Know how to see them and to love them, And would see the-Paisran rate.

#### Vegetable Kingdom.

[Read what Captain Job Priest says, in "Wonderful Adventures," of the Vegetable Kingdom:]

The term vegetable-sometimes pronounced wegetable-is probably derived from the peculiar long and pointed form of this description of esculents, hence originally called wedge eatables, then wegetables, and now refined into the present Apply to Tao's Cavaca, Hartieton, or L. Roose, Union Furnace. [19652

Annual flowering plants resemble whales, as they come up to blow.

Flowers are very warlike in their disposition, and are ever armed with pistils. As the human family, the lower portion

of all plants are radicles.

Like dandies, the coating of many trees is their most valuable portion; oork trees

and boot trees, for instance. Grain and seeds are not considered dangerous except when about to shoot.

Several trees, like watch-dogs, are valuable mostly for their bark.

A little bark will make a rope, but it takes a large pile of wood for a cord. Though there are no vegetable beaux,

there are a number of spruce trees. Most trees are respectable, but a variety of locusses may be found among them. It is considered only right and proper

to ax trees before you fell them. Fruit trees have a military characteris tie; when young, they are trained; they have many kernels; and their shoots are

Grain must be treated like infants; when the head bends, it must be cradled; and

Sailors are attached to bays; oystermen, to beeches; love sick maidens, to pine.

POLITICAL SERMONS -Some years ago, a substantial farmer, who was a Federalist, had a man who was a violent Democrat. The farmer attended church himself, and hart, J ha We tried hard to prevail upon his man to do the same; but in vain. On being asked why II he was so opposed to going to church; his ha answer was, " Because the parson is for ever preaching politics." The farmer, thinking the argument would be overcome if he could only get him to hear his min-ister, hired him, on a certain Subbath ter, John Hey, Jr. Wm. Foster, Adam Bear. morning, to go. On returning home, the morning, to go. On returning home, the the following conaties: Union, Sayder, Norman said, "There, it was just as I told thumberland, Montour, Columbia, Luzerne, you it would be; all polisies from begin. Perry, Millin, Centre, Clinton, and Lycoming. ning to end." "No," said the farmer, " not so, there was not a word of politics in the whole discourse." "Yes," said the man, " there was; the text was politics." "Why, was it ?" said the farmer. "This," said the man : " If the Federalists scarcely be saved, where will the cursed Demo- States. Established by Binney & Ronaldson crats oppear?" "No, it was not," was in 1796, on the base of Sower's Germantown Foundry of 1739. the reply, "on the contrary it was, " If the righteous scarcely be saved, where tors of the Parlanktruia Tyra Formar, en-

Chester County

ONE and Two Horse Endless Chain
POWER.—The undersigned being convinced by practical experience of the superiority of Vanderslice's Tread Power over the ordinary five horse power now in use in the West Branch country, for threshing out grain, have purchased the patterns and right to make them. We are now making and have on hand a large number, which we propose to introduce on the plan if they don't answer to the letter of the guarantee given with each of them, the machine will be taken back and the money refunded, if paid. They are now almost the only entire Threshing Machines in use in Chester, Montgomery, Berks and Delaware counties. Their advantages are that they will do almost double the work, ac-cording to the number of horses used, than the old machines will do; IF they will save at least two hands; and Threshing can all be done snugly closed up in the barns, in wet days, when the hands would be otherwise unemployed. T. CHURCH & CO. unemployed. T. CHURCH & CO. Hartleton, Union Co., Pa. Apply to Two's Church, Hartleton, er

or Dr. L. Rooks, Union Furnace. [y645 Hunsecker's CLOVER HULLER. THE subscribers still continue to manufacture the above Machines, and as there are over 500 of them now in use in Union

and adjoining counties, we deem any further The machines are all warranted not only to do good work, but better work than any other kind of machine now in use. T. CHURCH & CO. Hartleton, Pa.

Hussey's American Reaper & Mower. OR 1856....This Machine was put in successful operation in 1833, and con-

tinged to be the only Reaper and Mowing Ma chine in the World of any pratical value up to 1815-twelve years after its introduction. of all plants are radicles.

They are migratory in their habits, for wherever they may winter, they are sure to leave in the spring; most of them very polite and full of boughs.

They are migratory in their habits, for wherever they may winter, they are sure to leave in the spring; most of them very polite and full of boughs.

They are migratory in their habits, for the leaves are now effered with glowing and is accompanied by frequent Lectures and Silver Medals. But the Farmer, in search of the best Reaper, and not posted in the matter, had better see a luttle further. One of the other Reapers took the great medal in England, at the premating trial in 1851; before the close the partners for the profession of other Reapers took the great medal in England, at the premature trial in 1851; before the close of the barvest of the same year, however it was totally beaten by a HUSSEY REAPER, which received the ununimous award of an impartial Jury of twelve English farmers. The fact is that Hussey's machine is achieving a series of triumphs in England, and rapidly obtaining that pre-emment position there, which it has already secured in the land of its origin. If there is any value in 23 years' experience in building Reapers, and using them in the barvest field, OBED HUSSEY, the Father of Respers, can claim it. All who are satisfied with the BEST REAPER AND MOWER, can be suplied by sending their orders early in the season, as the crops indicate a large demand, and we can not have over 200 Reapers ready

for the vast harvest of 1856. We would refer to the following gentlemen who have used Hussey's machines for several years, and will testify to their superiority:

Lightning Rods.

A FTER many years' close investigation and numerous experiments, the Patentee takes pleasure in informing the public that he has arrived at the true principle of protecting families, dwellings and property from the destructive influence of LIGHTNING. The calamities that every City, Town, Village and Country falls victim to annually, thro' the gross negligence of its inhabitants, is beyond calculation, especially shen the remedy is so easy to obtain-this is found in

Patent Magnetic Lightning Rods, and in this alone. This had has been examine, by the most scientific gentlemen in the world-Professors M'Mortrie, Johnson, Wallor and man others that have examined them, recommend as speak of them in the highest terms of approbation and have pronounced them the only safe rode in use in this or any other country for the protects of Lives and Property. One advantage is to divide and throw back a part of the electric fluid harmless to the clouds; in time of a stroke this enables the rod to conduct that portion of fluid that belong to the earth without the slightest danger of lea ving the conductor. This rod has many other advantages over the old one. The only place of

manufacturing is in Vine St 3 doors above 12th Philadelphia where all persons are respectfulls invited to caland examine for themselves. For sale Wholesa or Retail by THO'S ARMITAGE. Orders promptly attended to Terms cash. These rods have been purchased and success

sully used by the following individuals, companie

nd corporations, whose names are cheestuil ubmitted; ubmitted:

RECOMMENDATIONS

RECOMMENDATIONS.

Parasia, Aug 12,1847.

I have this day carefully impacted a conductor of highlining Rod, with vane and index creeked by Mr Thomas Armitage, an fedieven Rouse, Glomester and have no hesitation in saying that this not only the hard that extracted that is constructed on streetly scientific principles. It is with much pleasure that I recommend his conductor to the act nation of owners of buildings.

I am well satisfied that the Marchite Liebtinian Rod.

I am well satisfied that the Magnetic Lightning its manufactured by Mr. The mas Armilage, of Ph. is the best that has ever been made. I have spears in the study of the laws of electricity as tem, and have no he situation in eaging that there ion, and have no hesitation in easing that there had are constructed upon the only principle of artists. The electric shock is received and dispersed by the magnet at the lay of the roal, and it would be impossible, according to the laws of attraction and repulsion, for a building to be injured by a stroke of lightning when protected by one of these roals. I have been acquainted with Mr. Armidge for several years, and before been meanable the manufacture of these roads. I can mined the principle on which the are constructed, and felt convinced that their adopting would be attended with complete success. The introduction demand for those roads and the extractive and in all parts of the country, is ample commendation of their nellity and superficilly.
