The New Key.

"Aunty," said a little girl, "I believe I have found a new key to unlock people's hearts, and make them so willing; for you know, aunty, God took my father and my mother, and they want people to be kind to their poor little daughter."

"What is the key?" asked aunty.

"It is only one little word—guess what?" But aunty was no guesser.

"It is *please*," said the child, "aunty, it is please. If I ask one of the great girls in school, 'please show my parsing lesson?' she says, 'Oh yes,' and helps me. If I ask, 'Sarah, please do this for me?' no matter, she'll take her hands out of the suds. If I ask uncle, 'please,' he says, 'yes, puss, if I can;' and if I say 'please,' aunty"—

"What does aunty do?" said aunty herself.

"Oh you look and *smile just like mother*, and that is best of all," cried the little girl, throwing her arms around her aunty's neck, with a tear in her eye.

Perhaps other children would like to know about this key; and I hope they will use it also, for there is a great power in the small kind courtesies of life.

THE SERENADE THAT MISSED FIRE.—Cassius M. Clay tells the following: During the late political canvass, Burlingame and himself occupied adjoining rooms at the Bates House, Indianapolis. "At a late hour, one evening," says he, "I was in Burlingame's room, and both of us were somewhat elated with the popular enthusiasm. We were, as soldiers were wont to do, fighting our battles over again, when a fine band right opposite my room, poured over the sea of night floods of soul stirring music. 'Clay, you are honored,' said Burlingame, 'go and acknowledge the compliment.' With due diffidence I excused myself; when, as I had anticipated, the band broke forth anew in strains of heroic melody, in front of the room occupied by Burlingame. 'I have you now,' said I, 'now give 'em a sentiment.' 'No, you,' said Burlingame. 'Well,' said I, 'both together;' so locking arms, with a dignified air, we walked out upon the balcony, and in a faltering voice I commenced: 'Indiana, Massachusetts, and Kentucky—triple sisters—may they ever be true to the family Union?" The leader of the band, after a pause, with a thick tongue, inquired, 'Who are you?' 'Clay and Burlingame,' said I. '*The d—l you are*,' said he, in reply; and then, in an undertone addressed to his followers, he concluded: '*Boys, it's not the girl in red.*'"

PRACTICAL "AMERICANISM."—The Legislature of South Carolina, which has just adjourned, passed an act to amend the State Constitution in such a manner as to require of every naturalized citizen two years' residence in the State after being naturalized, as a condition precedent to the exercise of the right of suffrage. This is somewhat remarkable in view of the fact that the state is under the strictest Democratic control; the American party having never manifested any strength out of Charleston. The regulation is, however, undoubtedly a good one, and its adoption in all the States would prevent the disgraceful acts of fraud that occur in the wholesale manufacture of voters in the few days or weeks preceding an election. Protection against these and other frauds resulting from our naturalization laws, rather than an extension of the term of probation, is the reform that is needed.—*Baltimore American.*

☞Men may differ from each other in many religious opinions, yet all may retain the essentials of Christianity. Men may sometimes eagerly dispute, and yet not differ much from one another. The rigorous persecutors of error should therefore enlighten their zeal with knowledge, and temper their orthodoxy with charity; that charity, without which orthodoxy is vain; that charity, "that thinketh no evil," but hopeth all things and endureth all things.—*Com.*

During the year just closed there were 143 Railroad accidents in the United States, which have been attended with loss of life or injury to person—195 having been killed and 629 wounded. And there have been 29 Steamboat accidents, at which 358 persons were killed and 127 wounded.

Asphaltum is being used quite extensively in Sacramento, Cal., both as a waterproof roofing for houses and as an excellent sidewalk. Its evenness prevents that loud and disagreeable clatter usually produced by vehicles upon rough and unevenly paved streets.

A little girl about three years old went to church. On her return home she was asked what the minister said, when she replied, "Oh, he went up on top of a high mountain, and hurrahed for somebody."

Forty-four persons died in the United States during the past year who had attained the age of one hundred years and upwards. The oldest of these was a colored woman; she was 127.

Government lands in Minnesota cost one dollar an acre on an average, and champagne two dollars a bottle. How many a man dies landless, who, during his life, has swallowed a township, trees and all!

THE REMOVAL OF A POSTMASTER in the county of Kent, England, was recently ordered by the British Postmaster General, "being discourteous to those who had business with his office."

HOW TO SWEETEN SOLITUDE.—Shut a boy down in a cellar, and give him free access to the molasses barrel.

ONE and Two Horse Endless Chain POWER.—The undersigned being convinced by practical experience of the superiority of *Vanderslice's Tread Power* over the ordinary five horse power now in use in the West Branch country, for threshing out grain, have purchased the patterns and right to make them. We are now making and have on hand a large number, which we propose to introduce on the plan if they don't answer to the letter of the guarantee given with each of them, the machine will be taken back and the money refunded, if paid. They are now almost the only entire Threshing Machines in use in Chester, Montgomery, Berks and Delaware counties. Their advantages are that they will do almost double the work, according to the number of horses used, than the old machines will do; ☞ they will save at least two hands; ☞ and Threshing can all be done snugly closed up in the barns, in wet days, when the hands would be otherwise unemployed. T. CHURCH & CO.
Hartleton, Union Co., Pa.
Apply to THO'S CHURCH, Hartleton, or or Dr. L. ROOKS, Union Furnace. [ly615

Hunsecker's CLOVER HULLER.

THE subscribers still continue to manufacture the above Machines, and as there are over 500 of them now in use in Union and adjoining counties, we deem any further recommendation unnecessary.

The machines are all warranted not only to do good work, but better work than any other kind of machine now in use.

Hussey's American Reaper & Mower.

FOR 1856....This Machine was put in succesful operation in 1833, and continued to be the only Reaper and Mowing Machine in the World of any practical value up to 1845—twelve years after its introduction. Other Reapers are now offered with glowing Advertisements and Certificates of Gold and Silver Medals. But the Farmer, in search of the best Reaper, and not posted in the matter, had better see a little further. One of the other Reapers took the great medal in England, at the premature trial in 1851; before the close of the harvest of the same year, however it was totally beaten by a HUSSEY REAPER, which received the *unanimous* award of an impartial Jury of twelve English farmers. The fact is that Hussey's machine is achieving a series of triumphs in England, and rapidly obtaining that pre-eminent position there, which it has already secured in the land of its origin.

If there is any value in 23 years' experience in building Reapers, and using them in the harvest field, OBED HUSSEY, the Father of Reapers, can claim it. All who are satisfied with the BEST REAPER AND MOWER can be supplied by sending their orders early in the season, as the crops indicate a large demand, and we can not have over 200 Reapers ready for the vast harvest of 1856.

We would refer to the following gentlemen, who have used Hussey's machines for several years, and will testify to their superiority:

Type Foundry.

TWO Premiums awarded at the late Chrystal Palace exhibition in New York to the Oldest Type Foundry in the United States. Established by Binney & Ronaldson in 1796, on the base of Sower's Germantown Foundry of 1739.

The long experience of the several proprietors of the PHILADELPHIA TYPE FOUNDRY, enables L. Johnson & Co., to offer the largest variety of Printing Types, and all the appurtenances of a Printing Office to be found in any establishment of the United States, and of a quality, too, which is deemed to be unrivalled. The composition of the metal used is calculated to afford the greatest durability; while the scrupulous care exercised in the fitting up of the type is such as to insure accuracy and squareness of body, &c. Our facilities are so extensive as to enable us to fill orders of any amount. Estimates given in detail (with the cost) of all the materials required for a Newspaper offic. Plain and Fancy Types, Music of unparalleled beauty, cast in this Foundry, also, Scrips, Flowers, Borders, Cuts, Brass or Metal Rules, Labor-saving Rules, Brass Braces, Brass Circles and Ovals, &c.

PRESSES of all descriptions, and all sorts of Printing Materials, most of which are made by us, will be furnished at manufacturer's Prices.

PRINTING INK of all Varieties and olors, Varnishes, Bronzes, &c., of the most celebrated American and English Manufactures, which we sell at the lowest terms.

STEREOTYPING or Electrotyping of Books, Music, Wood Cuts, &c. Type used in Stereotyping for sale at reduced prices. Wood Cuts designed and engraved in the finest style of art.

Our 'Minor Specimen Book' (the first of its class in the country, and original in its conception and getting up) will be sent to all printers that have not received it, who will direct how it may be transmitted to them.

☞Newspaper Printers who publish this advertisement entire, (including this notice,) three times before September 1st, 1855, and send to us a copy of the paper containing it, will be allowed their bill on purchasing articles of our manufacture to four times its amount. L. JOHNSON & CO.

Educational.

FREEBURG ACADEMY

THIS Institution is located in the quiet, beautiful and healthy village of Freeburg, Snyder Co, Pa, 5 miles west of Selinsgrove and 27 east of Mifflintown. The Academic Building is a fine three-storey brick edifice, large enough to accommodate 150 students.

The Course of Instruction embraces all the branches usually taught in Academies and Seminaries, and is designed to prepare students for any class in College, the study of a profession, or any other calling in life. There is a flourishing Literary Society with a choice collection of Books connected with the Institution, of which all Students are expected to become Members.

The Second Session commences on the FIRST THURSDAY of January, 1857, and continues 22 weeks.

TERMS—(cash or produce payable invariably in Advance.)

For Board, Room and Tuition per sess. of 22 wks.	$ 40 to 53
Tuition extra per Quar. of 11 wks	2.50 to 5.00
Instruction on the Piano	8.00
Use of Instrument	1.00
Incidentals	25
Washing and Mending, 40 cts per doz.	

For any further information, address
GEO. F. M'FARLAND, Principal.

UNIVERSITY SCHOOLS!

THE Winter Session of all the Schools of the University will open with a full corps of Teachers, on **Thursday, September 25, 1856.**

Theological Department—Tuition Free.			
Collegiate	"	" $30 per annum.	
Academic	"	Classical $20	"
"	"	English $15	"
Female Institute	"	Regular course $30	"
"	"	Primary $20	"

Sept. 9, 1856.

LEWISBURG ACADEMY.

THE Academic year of this Institution, will hereafter be divided into 3 sessions, the SUMMER, FALL and WINTER sessions, of 13 weeks each.

The FALL session will commence on MONDAY, Sept. 22d, 1856, to be immediately succeeded by the Winter session, with a short vacation during the Holidays.

All Branches calculated to fit Youths for college or for practical life are taught; and the Bible is a text book in the school.

A class of YOUNG LADIES is secured.

The interior of the Academy has undergone thorough repairs, and the Principal has spared no expense to make it everything that a school-room should be, for health and cheerfulness.

TUITION—per session of 13 weeks.

PRIMARY—Reading, Writing, Orthog., Arithmetic, Geog., Gram. and U. S. History	$ 4.00
ADVANCED ENGLISH—all not included above	6.00
LANGUAGES	7.00
CONTINGENT EXPENSES—per session	.50

No deductions except for protracted sickness.

JOHN RANDOLPH,
Sept. 3, 1856. Principal

Philadelphia.

FIRE PROOFS!
The Salamander Safes, of Philadelphia, against the World!

EVANS & WATSON, No. 268 Fourth St., Philad., have had the surest demonstration in the following Certificates, that their manufacture of Salamander Safes has at length fully warranted the representations which have been made of them, as rendering an undoubted security against the terrific element:

PHILADELPHIA, April 12, 1856.

MESSRS. EVANS & WATSON:—Sirs:—It affords us the highest satisfaction to state to you that owing to the very protective qualities of one of the Salamander Safes which we purchased of you some few months since, we saved a large portion of our Jewelry, Books, Papers, &c., exposed to the conflagration fire in Kimball Place, on the night of the 11th inst.

When we first saw that these Safes were heat d to the fourth story of the building we occupied, and that they fell subsequently into the heaped burning ruins, where the most concentrated action of heat caused the brass plates to melt, we cannot but rely on the preservation of the valuable contents as most convincing proof of the great security afforded by your Safes.

We shall take much pleasure in recommending them to men of business as a sure reliance against fire.

GEORGE W. SIMONS & BRO.

PHILADELPHIA, April 12, 1856.

MESSRS. EVANS & WATSON:—I have to offer you my testimony in favor of the great security afforded to my entire stock of jewelry, books, papers, &c., during the recent disastrous fire which took place in Kimball street, from the fact that the safe you recently delivered to me of the Salamander Safes manufactured by you.

Having fallen from the fifth story of the Artizan Building, where they were resolutely placed and exposed to a test heat for a long time, the preservation of the valuable deposits seemed to every one who witnessed the opening and subsequent examination, a matter of profound astonishment.

To all who may require a perfect protection from the ravages of fire, I shall not hesitate to recommend the use of your Safes, as I consider they have now undergone the most trying test.

N. E. MORGAN,
PHILADELPHIA, April 14, 1856.

MESSRS. EVANS & WATSON:—Gentlemen—No doubt you will be deeply gratified to learn the good condition in which I discovered my books, policy of insurance, certificates of stock, and other valuable documents, when on Friday last I opened the safe made by your firm.

With my knowledge of its great exposure, both to the interests of the heat from so hot a fire as that which destroyed the Artizan Building, as also from the force of the fall from its former elevated position to the fourth story, I could not forbear congratulating you on the superior protection, that the contents which I once so highly prized would ever be of any service to me, but as these fears are now happily removed, I feel it only due to say to you, that I can less cheerfully recommend the use of your Safes to all who may wish to feel a confidence in the perfect security which such means provides against so frightful an element.

EDWARD GASKILL, Bookbinder.

Herring's Safe again the Champion!!

The only Safe which, in every instance, preserved their entire contents in the late Extensive Fires.

AT the burning of the Artizan Buildings, on the 10th of April, and in the GREAT FIRE in Market Street, May 1st, 1856, the genuine HERRING SAFE preserved the Jewelry of Geo. W. Simons & Bro.; Books, Papers, &c., of Fisher & Bro., and Edward Semans & Co., after remaining exposed in the burning ruins for nearly *FORTY HOURS*, and proving conclusively what we have always claimed for them, their great superiority over all securities now known.

In these fires, the **Herring's Safe,** standing side by side with those advertised as "warranted to stand 10 per cent. more fire than Herring's," came forth the acknowledged victor, not only preserving their contents in excellent order, but being themselves in a condition to go through another ordeal, while the boasted "Salamanders" of other makers were hardly used up in every instance, and in some cases their contents completely destroyed.

To the public we would simply say, that during the fourteen years the Herring's Safe has been before them, more than two hundred have passed through accidental fires without the occurrence of a single loss.

We would, therefore, caution purchasers against the misrepresentation of interested parties. The Herring's Patent is the only Fire proof Safe made in this city which is protected by a Patent Right, and we will guarantee it to resist more than double the amount of heat of any other Safe now known.

Farrels & Herring,
Sole Manufacturers in this State of

A book of designs will be sent to those who wish to make a selection.

ROBERT WOOD,
Ridge Avenue below Spring Garden St. Phila

George Sturges,

SOLE Manufacturer of the Improved **Spiral Spring Matresses,** No. 92 Walnut St. Philadelphia.

FIVE SILVER MEDALS awarded, viz.
Two by the American Institute, New York, Oct. 1851
do Franklin Institute, Philadelphia, Nov. 52nd
One at the Maryland Institute, Baltimore, Nov. 1852

The peculiar improvement in the construction of this Matress is, that all the *clumsy and heavy wooden frame work* is entirely dispensed with, and its place supplied by a lighter and much more durable frame, the springs are all connected by harness leather hinges, securely rivetted, rendering it impossible for a single spring to fall down or get out of place, and making a Bed so elastic that any part may be raised or bent up, and is thus admirably fitted to the wants of the sick or asthmatic who may require a sitting posture, having the luxurious softness of the best Feather Bed with the lightness and facility of handling of the common Matress.

These improved Spring Beds are *invariably* made of the best materials, and will last many years without repairs.

Persons having Hair Matresses, can have them altered into Spring Beds.

These Beds are well adapted for Hotels, berths of Ships, Steamboats and Hospitals.

Spring Seats for Chairs, Carriages or Church Pews and Hair and Husk Matresses made to order.—Also an extensive assortment of highly ornamented (in enamel) and plain finished

PICTURES for Framing, and for Drawing Teachers.

The German and French Languages, Drawing, Painting and Draughting, taught by Mr Volkmar. Lewisburg, April, 1855

Important to Daguerreotypists, Marble Dealers and others.

MONUMENTAL Daguerreotype Cases. A method has long been sought for to insert in a durable manner, Daguerreotype Likenesses to Head Stones and Monuments. I have been manufacturing these Cases for the last two years, and can warrant them to *secure* the picture for a long number of years.

The outside case is made of Parian Marble, and the box which encloses the picture and keeps it in a state of great preservation for a long number of years, is made of brass—a *screw box*. It makes a very neat job on a Head Stone or Monument. They are used in Greenwood Cemetery, Mount Auburn, Laurel Hill, and many other Cemeteries in the U. States.

A liberal discount made to Marble Dealers and Daguerreotypists. Price from $2.25 each to $9.50. A circular of engravings will be sent to any address, free, with price list. Address,
A. L. BALDWIN, Agent
of Mausoleum Dog Co., 358 Broadway, New York. 660m3]

New Firm and New Goods!

AT the Mammoth Drug & Chemical Emporium of

CHRIST & CALDWELL.

The undersigned having purchased the entire Mammoth Drug Store formerly kept by *Dr Thornton & Co.*, are now ready to fill Orders and Prescriptions at a moment's notice. We have a large and well selected stock of fresh and pure *DRUGS, MEDICINES,* Chemicals Dyestuffs, Oils, Paints, Glass, Putty and DRUGGISTS' GLASSWARE,
All kinds of Patent Medicines,
Fruit and Confectionery,
Tobacco, Snuff, and Imported Cigars of the choicest brands,

Hussey's Grain Reaper.

for cutting both Grain and Grass MANUFACTURED and for sale at the Lewisburg Foundry by GEDDES, MARSH & CO.

Lightning Rods.

AFTER many years' close investigation and numerous experiments, the Patentee takes pleasure in informing the public that he has arrived at the true principle of protecting families, dwellings and property from the destructive influence of LIGHTNING. The calamities that every City, Town, Village and Country falls victim to annually, thro' the gross negligence of its inhabitants, is beyond calculation, especially when the remedy is so easy to obtain—this is found in

ARMITAGE'S

Patent Magnetic Lightning Rods,

and in this alone. This Rod has been examined by the most scientific gentlemen in the world—Professors M'Murtrie, Johnson, Walker and many others that have examined them, recommend and speak of them in the highest terms of approbation and have pronounced them the only safe rods for use in almost any other country for the protection of Lives and Property. One advantage is to divide and throw back a part of the electric fluid from the clouds; in case of a stroke this attracts the rod to conduct that portion of fluid that belongs to the earth without the slightest danger of leaving the conductor. This rod has many other advantages over the old one. The only place of manufacturing is in

Vine St. 3 doors above 12th, Philadelphia.

where all persons are respectfully invited to call and examine for themselves. For sale Wholesale or Retail by THO'S ARMITAGE.

Orders promptly attended to. Terms cash.

These rods have been purchased and successfully used by the following individuals, companies and corporations, whose names are cheerfully submitted:

In and near Philadelphia—A. & S. Roberts, George Sanitzer, Judge Stroud, Joseph Conrad, J. Mushington, John Conrad, C. Chaney, J. H. Shoemaker, Wm. Bowman, J. J. Vansyckel, Wm. Bowman, J. J. Vansyckel & Co., Wm. Bowman, J. J. Vansyckel & Co., Jacob Lafore, J. Swoyer, Mr. Sharpless, Mr. Hastie, Sharpless & Hastie, Mr. Dunning, J. J. Vansyckel, J. W. Wallace, Hon. Judge Ridgway & Co., J. Vansyckel, J. Lafore, J. Swoyer, Mr. Sharpless, Mr. Hastie, Sharpless & Hastie, J. Swoyer, Mr. Dunning, Mr. Business, Dr. Hunter, Mr. Hunter & Co., J. Swoyer, Mr. Miller, the old Bank Block, the U. S. Arsenal, the spring Garden Commissioners Hall.

In the State of Pennsylvania—George Craven Judge, N. Call, Judge Rogers, Judge Sutherland, Dr. H. D. Maclay, Bellevue, Mrs. J. Bowman.

In Union County.

Hartley Tp—Mark Halfpenny, Wm. Foster, John Hare, Widow Peters, Joseph Smith, Joseph Brosius, Daniel Mensch, George Kreamer. *New Berlin*—Court House and common conveyance. *Lewisburg Tp*—John Bolen, Joseph Fetter, Widow Hoffman. *Buffalo Tp*—Jacob Fetter, Simon Bamby. *Penn Tp*—Isaac Goodrich. *White Deer Tp*—Michael Hoffman.

RECOMMENDATIONS.

INDIANA, Aug. 13, 1847.

I have this day carefully inspected a conductor for Lightning Rods with Armitage's Patent, erected by Mr Thomas Armitage, on Indiana County Jail, and have no hesitation in saying that it is not only the best I have ever seen, but that it is the only one I have yet examined that is constructed on strictly scientific principles. It is with much pleasure that I recommend his establishment to the attention of commercial business.

H. M'MURTRIE.

I am well satisfied that the Magnetic Lightning Rod manufactured by Mr Thomas Armitage, of Philadelphia is the best that has ever been brought before the public. I have spent many years in the study of the laws of electricity and magnetism, and have no hesitation in saying that these Rods are constructed upon the only true principle of safety. The electric shock is received and dissipated by the magnet at the top of the rod, and it would be impossible according to the laws of attraction and repulsion
