"ALL DEPENDS ON THE RELIGION."—A Minister of an Episcopal church not far from Buffalo, started to fulfil an appointment in a distant town. He had driven but a few miles when he discovered that his horse was quite lame, and he deemed it best to stop for the night. In a short time he came to a farm house, in front of which a man considerably advanced in years was standing, when the following conversation took place:

Minister. "Can you tell me, my friend, how far it is to a public house?"

"If you mean a tavern, Mister, it's about twenty miles; but if you mean a house of entertainment, we have one ourselves."

Minister. "Ah, very good, my horse is quite lame, as you see, and I am somewhat fatigued myself. Can you accommodate us for the night?"

"Wal, yes, we can accommodate you, but if you are a clergyman, I must tell you that the fare you will get depends on your religion."

Minister. "How so, good sir?"

"Why you see, if a minister is a good Presbyterian we give him the best we have got; if he is a Baptist or a Methodist, he gets pretty good living; but if he is an Episcopalian, he can't expect much. We don't think much of Episcopalians out this way."

Minister, (smiling.) "Well, my friend, I am sorry to know that your prejudices are so deeply imbedded; I am an Episcopal clergyman, and I suppose I must content myself with a picked up meal; but let me assure you of one thing; *my horse is the bluest Presbyterian you ever saw.*"

The man was not so obtuse that he did not discover and appreciate the minister's joke—a joke which, by the way, procured both for man and beast the best that the farmer's larder and barn afforded.

DESPERATE RESIGNATION.—A capital story is told of a small potato politician of the Democracy who was an Inspector of Election at a poll not a thousand miles from the capital of Michigan. He imbibed slightly thro' the day, and after the count of the Electoral Ticket was over, he emerged from the room into a collection of Republicans, mandlin and disconsolate in spirit, "grave, gloomy and peculiar" in aspect, and thus addressed the crowd: "Gentlemen! election is over, and we are beat in this very town of Lansing. I was not prepared it, and I have lost a hundred dollars betting that it wouldn't be so, and now, gentlemen, here is my hat, and you can throw in any little contribution you please." Whereupon, unseen by the speaker, some one threw into the hat a handful of Republican tickets. The hat was soon replaced on the melancholy noddle of the politician, and in a moment a man rushed in, as if from the canvass-room, stating that the number of tickets in the box did not tally with the poll list; at which, another suggested that he had seen a number of Republican votes in the Inspector's hat. "The last feather broke the camel's back." The poor Inspector was now completely broken down—his party beaten, his money lost, and, top of all this, to be accused of stealing votes, was too much. He grew pale with rage, and stammered out a faint but firm denial of the charge. "The hat—the hat—examine the hat!" was the cry. He slowly took off the hat, and out tumbled twenty Republican votes! He stood the picture of mute despair. "Gentlemen," said he, as soon as he could speak, "I have not a word to say—the thing looks mighty dark, but I have no recollection of stealing the tickets; *but State's prison can't make matters much worse, so go ahead!*"

GETTING IN AND KEEPING OUT!—The Buffalo *Commercial* has heard a good thing recently said by Mr. Buchanan in reply to a distinguished politician who had assured the President elect that he wished for no office himself, and had no friends whom he desired to press for a place in the Cabinet. "But, sir," he continued, "I am not sure that I may not wish to keep some man out of it." Mr. Buchanan replied, "It is easier to keep a man out than to get him in." This Mr. B. has found verified in the case of Col. Forney, and also the truth of the homely but expressive metaphor, that "success is a pig with a greasy tail, which every one is after but no one can hold."

A solemcholy youth thus narrates a coasting catastrophe, which occurred some years ago:

On a winter's night, when the moon shone bright,
And the snow was crystal clear,
With a maiden as fair as the seraphs are
I sled from a hill down lower.

Ere we reached the base (like a horse on a race)
Our sled-guided sled corrected.
And with tresses fair streaming back on the air
Sweet Sally went send over neck!

The *Dimocrazy* of Minersville called a meeting to "indignate" against Lebo and Wagenseller. It was at first proposed to burn them in effigy, but they afterwards agreed to drown them in whiskey—which was done by proxy, and then the "indignants" all felt better!

The report that it was so cold one day last week as to break off a marriage engagement, by the freezing up of the young gentleman's passion, is doubted by the ladies. The general effect of cold nights is to bring the marriage fever to a crisis.

Eliza Ewery warns all girls in the South and West to look out for her gay, deceiving runaway husband, David. Thinks he may be easily known; and to prove so, says, "David has a scar on his nose where I scratched him."

The New York *Post* suggests the establishment of an academy for the education of cooks. It would be a nice place to board—with the professors.

ONE and Two Horse Endless Chain POWER.—The undersigned being convinced by practical experience of the superiority of *Vanderslice's Tread Power* over the ordinary five horse power now in use in the West Branch country for threshing out grain, have purchased the patterns and right to make them. We are now making and have on hand a large number, which we propose to introduce on the plan if they don't answer to the letter of the guarantee given with each of them, the machine will be taken back and the money refunded, if paid. They are now almost the only entire Threshing Machines in use in Chester, Montgomery, Berks and Delaware counties. Their advantages are that they will do almost double the work, according to the number of horses used, than the old machines will do; ☞ they will save at least two hands; ☞ and Threshing can all be done snugly closed up in the barns, in wet days, when the hands would be otherwise unemployed. T. CHURCH & CO.
Hartleton, Union Co., Pa.
Apply to Tho's CHURCH, Hartleton, or Dr. L. ROOKE, Union Furnace. [y645

Hunsecker's CLOVER HULLER.

THE subscribers still continue to manufacture the above Machines, and as there are over 500 of them now in use in Union and adjoining counties, we deem any further recommendation unnecessary.

The machines are all warranted not only to do good work, but better work than any other kind of machine now in use.

T. CHURCH & CO. Hartleton, Pa.
Apply to Tho's CHURCH, Hartleton, or L. ROOKE, Union Furnace. [1y652

Hussey's American Reaper & Mower.

FOR 1856....This Machine was put in succesful operation in 1833, and continued to be the only Reaper and Mowing Machine in the World of any pratical value up to 1845—twelve years after its introduction. Other Reapers are now offered with glowing Advertisements and Certificates of Gold and Silver Medals. But the Farmer, in search of the best Reaper, and not posted in the matter, had better see a little further. One of the other Reapers took the great medal in England, at the premature trial in 1851; before the close of the harvest of the same year, however it was totally beaten by a HUSSEY REAPER, which received the *unanimous* award of an impartial Jury of twelve English farmers. The fact is that Hussey's machine is achieving a series of triumphs in England, and rapidly obtaining that pre-eminent position there, which it has already secured in the landed its origin.

If there is any value in 23 years' experience in building Reapers, and using them in the harvest field, OBED HUSSEY, the Father of Reapers, can claim it. All who are satisfied with the BEST REAPER AND MOWER can be supplied by sending their orders early in the season, as the crops indicate a large demand, and we can not have over 500 Reapers ready for the vast harvest of 1856.

We would refer to the following gentlemen who have used Hussey's machines for several years and can testify to their superiority:

Type Foundry.

TWO Premiums awarded at the late Crystal Palace exhibition in New York to the Oldest Type Foundry in the United States. Established by Binney & Ronaldson in 1796, on the base of Sower's Germantown Foundry of 1739.

The long experience of the several proprietors of the PHILADELPHIA TYPE FOUNDRY, enables L. Johnson & Co., to offer the largest variety of Printing Types, and all the appurtenances of a Printing Office to be found in any establishment of the United States, and of a quality, too, which is deemed to be unrivaled. The composition of the metal used is calculated to afford the greatest durability; while the scrupulous care exercised in the fitting up of the type is such as to insure accuracy and squareness of body, &c. Our facilities are so extensive as to enable us to fill orders of any amount. Estimates given in detail (with the cost) of all the materials required for a Newspaper office. Plain and Fancy Types, Music of unparalleled beauty, cast in this Foundry, also, Scrips, Flowers, Borders, Cuts, Brass or Metal Rules, Labor-Saving Rules, Brass Braces, Brass Circles and Ovals, &c.

PRESSES of all descriptions, and all sorts of Printing Materials, most of which are made by us, will be furnished at manufacturer's Prices.

PRINTING INK of all Varieties and colors, Varnishes, Bronzes, &c., of the most celebrated American and English Manufactures, which we sell at the lowest terms.

STEREOTYPING or Electrotyping of Books, Music, Wood Cuts, &c. Type used in Stereotyping for sale at reduced prices. Wood Cuts designed and engraved in the finest style of art.

Our 'Minor Specimen Book' (the first of its class in the country, and original in its conception and getting up) will be sent to all printers that have not received it, who will direct how it may be transmitted to them.

☞ Newspaper Printers who publish this advertisement entire, (including this notice,) three times before September 1st, 1855, and send to us a copy of the paper containing it, will be allowed their bill on purchasing articles of our manufacture to four times its amount. L. JOHNSON & CO.

FREEBURG ACADEMY

THIS Institution is located in the quiet, beautiful and healthy village of Freeburg, Snyder Co., Pa., 5 miles west of Selinsgrove and 27 east of Mifflintown. The Academic Building is a fine three-storey brick edifice, large enough to accommodate 150 students.

The Course of Instruction embraces all the branches usually taught in Academies and Seminaries, and is designed to prepare students for any class in College, the study of a profession, or any other calling in life. There is a flourishing Literary Society with a choice collection of Books connected with the Institution, of which all Students are expected to become Members.

The Summer Session commences on the FIRST TUESDAY of January, 1857, and continues 22 weeks.

TERMS—(one-half payable invariably in Advance.)

For Board, Room and Tuition per sess. of 22 wks.	$50 to 55
Tuition ONLY, per Quar. of 11 wks	2,50 to 3,00
Instruction on the Piano	5,00
Use of Instrument	1,00
Incidentals	25
Washing and Mending, 18 cts. per doz.	

For any further information, address
GEO. F. M'FARLAND, Principal.

UNIVERSITY SCHOOLS!

THE Winter Session of all the Schools of the University will open with a full corps of Teachers, on **Thursday, September 25, 1856.**

Theological Department—Tuition Free.

Collegiate	"	" $30 per annum.
Academic	"	Classical $30 "
"	"	English $15 "
Female Institute	"	Regular course $30 "
"	"	Primary $20 "

Sept. 9, 1856.

LEWISBURG ACADEMY.

THE Academic year of this Institution, will hereafter be divided into 3 sessions, the SUMMER, FALL and WINTER SESSIONS, of 13 weeks each.

The FALL SESSION will commence on MONDAY, Sept. 22d, 1856, to be immediately succeeded by the Winter session, with a short vacation during the Holidays.

All Branches calculated to fit Youths for college or for practical life are taught; and the Bible is a text book in the school.

A class of YOUNG LADIES is secured.

The interior of the Academy has undergone thorough repairs, and the Principal has spared no expense to make it everything that a school-room should be, for health and cheerfulness.

TUITION—per session of 13 weeks.

PRIMARY—Readers, Writing, Spelling, Arithmetic, Geog. Gram. and U. S. History	$4,00
ADVANCED ENGLISH—all studies included above	5,00
LANGUAGES	7,00
CONTINGENT EXPENSES—per session	50

No deductions except for protracted sickness.

FIRE PROOFS!
The Salamander Safes, of Philadelphia, against the World!

EVANS & WATSON, No. 246 S. Fourth St., Philad., have had the surest demonstration in the following Certificates, that their manufacture of Salamander Safes has at length fully warranted the representations which have been made of them, as rendering an undoubted security against the terrific element:

PHILADELPHIA, April 12, 1856.

MESSRS. EVANS & WATSON—Gents—It affords us the highest satisfaction to state to you, that owing to the very protective qualities of two of the Salamander Safes which we purchased of you some few months since, we saved a large portion of our Jewelry, Books, Papers, &c., exposed to the calamitous fire in Banstead Place, on the morning of the 15th inst.

When we reflect that these Safes were located in the fourth story of the building so occupied, and that they fell subsequently into a heap of burning ruins, where the vast concentration of heat caused the brass plates to melt, we cannot but regard the preservation of the valuable contents as the most convincing proof of the great security afforded by your Safes.

We shall take much pleasure in recommending them to men of business as a sure reliance against fire.

GEORGE W. SIMONS & BRO.

PHILADELPHIA, April 12, 1856.

MESSRS. EVANS & WATSON—I have to offer you my testimony in favor of the great security afforded to my own stock of jewelry, books, papers, &c., during the recent disastrous conflagration in Banstead place, from the fact that the same were contained in two of the Salamander Safes manufactured by you.

Having fallen from the fifth story of the Artizan Building, where they were previously stored and exposed to a violent heat for a long time, the preservation of the valuable deposits governed the very discriminating opinion of the opening and interior examination, a matter of gratification to myself.

To all who may require a perfect protection from the ravages of fire, I shall not hesitate to recommend the use of your Safes, as I consider they have now undergone the most trying test. S. E. MORGAN

PHILADELPHIA, April 14, 1856.

MESSRS. EVANS & WATSON—Gentlemen—No one can be more deeply gratified to learn the good condition in which I discovered my book, peerage of invitation, certificates of stocks, and other valuable documents, when on Friday last I opened the safe made by your firm.

With my knowledge of its great exposure, both to the intensity of the heat from so hot a fire as that which destroyed the Artizan Building, as also from the force of the fall from the fifth story, my highest position in the United States. I could entertain but slender hopes even of its re-cent inspection, that the contents which I once so highly prized would ever be of any service to me, but as these fears are now happily removed, I feel it unto due candor to say, that I can henceforth recommend the use of Evans & Watson's Safes to any wish to feel a confidence in the perfect security with which means provided against so frightful an element.

Herring's Safe again the Champion!!

The only Safe which, in every instance, preserved their entire contents in the late Extensive Fires.

AT the burning of the Artizan Buildings, on the 10th of April, and in the GREAT FIRE in Market Street, May 1st, 1856, the genuine HERRING SAFE preserved the Jewelry of Geo. W. Simons & Bro.; Books, Papers, &c., of Fisher & Bro., and Edward Semans & Co., after remaining exposed in the burning ruins for nearly *FORTY HOURS*, and proving conclusively what we have always claimed for them, their great superiority over all securities now known.

In these fires, the **Herring's Safe,** standing side by side with those advertised as "warranted to stand 10 per cent. more fire than Herring's," came forth the acknowledged victor, not only preserving the contents in excellent order, but kept themselves in a condition to go through another ordeal, while the boasted "Salamanders" of others were body used up in every instance, and in some cases their entire contents completely destroyed.

To the public we would simply say, that during the fourteen years the Herring's Safe has been before them, more than two hundred have passed through accidental fires without the occurrence of a single loss.

We would, therefore, caution purchasers against the misrepresentation of interested parties. The Herring's Patent is the only Fire proof Safe made in this city which is protected by a Patent Right, and we will guarantee it to resist more than double the amount of heat of any other Safe now known.

ROBERT WOOD,
Ridge Avenue below Spring Garden St. Phila

George Sturges,

SOLE Manufacturer of the Improved **Spiral Spring Matresses,** No. 92 Walnut St. Philadelphia.

FIVE SILVER MEDALS awarded, viz.
Two by the American Institute, New York, Oct. 1851 & 52.
Franklin Institute, Philadelphia Nov. 1852.
One at the Maryland Institute, Baltimore Nov. 1852.

The peculiar improvement in the construction of this Matress is, that all the *clumsy and heavy wooden frame work* is entirely dispensed with, and its place supplied by a lighter and much more durable frame, the springs are all connected by harness leather hinges, securely riveted, rendering it impossible for a single spring to fall down or get out of place, and making a Bed so elastic that any part may be raised or bent up, and is thus admirably fitted to the wants of the sick or asthmatic who may require a sitting posture, having the luxurious softness of the best Feather Bed with the lightness and facility of handling of the common Matress.

These improved Spring Beds are *invariably* made of the best materials, and will last many years without repairs.

Persons having Hair Matresses, can have them altered into Spring Beds.

These Beds are well adapted for Hotels, berths of Ships, Steamboats and Hospitals.

Spring Seats for Chairs, Carriages or Church Pews and Hair and Husk Matresses made to order.—Also an extensive assortment of highly ornamented (in enamel) and plain finished

CAST IRON FURNITURE,

PICTURES for Framing, and for Drawing Teachers.

The German and French Languages, Drawing, Painting and Draughting, taught by Mr Volkmar. Lewisburg, April, 1855

Important to Daguerreotypists, Marble Dealers and others.

MONUMENTAL Daguerreotype Cases. A method has long been sought to invest in a durable manner, Daguerreotype Likenesses to Head Stones and Monuments. I have been manufacturing these Cases for the last two years, and can warrant them to secure the picture for a long number of years.

The outside case is made of Parian Marble, and the box which encloses the picture and keeps it in a state of great preservation for a long number of years, is made of brass—a *second box.* It makes a very neat job on a Head Stone or Monument. They are used in Greenwood Cemetery, Mount Auburn, Laurel Hill, and many other Cemeteries in the U. States.

A liberal discount made to Marble Dealers and Daguerreotypists. Price from $2.25 each to $9.50. A circular of engravings will be sent to any address, free, with price list. Address, A. L. BALDWIN Agent
of Mausoleum Bag Co., 333 Broadway, New York.

Lightning Rods.

AFTER many years of experience and numerous experiments in the Science of Electricity, I have arrived at the true principles of protection from the destructive element of LIGHTNING. The statistics show that every City, County, Township and State is a victim to annually, from the great destruction of property and its inhabitants to a degree beyond calculation, especially when the remedy is so easy to procure—this is found in

ARNOLD'S

Patent Magnetic Lightning Rods,

and in this alone. This Rod has been recommended by the most scientific gentlemen in the country, Professors S. F. Morse, &c., and the only Rods that have ever stood the test of time. All others that have ever been introduced have proved worthless, and have proved a curse instead of a blessing to the owners, and destructive to the property they were intended to protect. Read the following testimonials of Lives and Property saved by the use of these Rods, and throw back a copy of your Rods, with your name on the cover, and you will receive your money back.
