Lewisburg Chronicle.

O. N. WORDEN, J. R. CORNELIUS & E. SMITH

To Business Men.—The Lewisburg Chronicle, published on the Cash System, has the largest and best circulation of any Newspaper in Union County.

COURT WEEK.

On Friday and Saturday last, there were arguments before Judge Wilson on the civil list.

NEW TOWNSHIP.—Final action was taken for the establishment of a new township, named LEWIS by Judge Wilson, from the east end of Hartley township. The new township is 12 miles in length, and 2½ broad at the south end, and a little narrower at the north, passing by or through the Brown school house and Ja Hower's residence within half a mile of Hartleton, taking in all of the W. Deer Turnpike and reaching the T Spring. It includes about 100 voters, and a portion of the very best lands in old Hartley, as well as some mountains. The first election to be at the house of John Reish; Jacob Broucher, Judge of Election, and Jackson Morningstar and Jacob Hillbish, Inspectors.

COURT HOUSE.—The following was adopted unanimously:

To the Honorable the Judges of the several Courts of Union County:

The grand Inquest inquiring for the body of the County of Union, at February Term, 1857, ask leave to report

That, in accordance with the instructions of the Court, and agreeably to the 3d section of the Act of General Assembly entitled "An Act for the erection of a new county out of part of Union to be called Snyder, and relative to the seat of justice in Union county," they have carefully examined the ground and buildings for county purposes erected in the borough of Lewisburg for the use of the county of Union, and find the said buildings completed, and well adapted for the purpose for which they are intended, and by deed dated the first day of January, A. D. 1857, recorded in deed book Q, page 41—recorded January 9, 1857,

The said buildings, and ground on which they are erected, are conveyed by the building committee to the county of Union in fee simple, without any cost or tax whatever being imposed upon the taxables of the said county for the expenditure in the purchase of said ground and the erection of said buildings; and according to the duties imposed on us as the grand Inquest of said county, we do duly approve of the same, and recommend that the Court also approve of the same; and as the said building committee has truly and fully complied with the law, the title of which as above given, we recommend the taking of said building off of the hands of the said building committee for the use of the county.

The Grand Inquest would further report that they find the public building a commodious and substantial structure, combining convenience, comfort and elegance. It is located on the corner of Second and St. Lewis streets, that being the highest point of ground in the borough, commanding a very fine view of the surrounding country and town, and being seen from every point of approach to the town.

The outside walls are of brick, are 22 inches in thickness, resting on a very heavy stone foundation. Size of building, 100 by 50 feet, three storeys high. The front on Second street is ornamented with a richly finished Ionic portico of beautiful architectural proportions. On the apex of the roof is erected a Corinthian cupalo; these, with the heavy cornice around the eave of the building, the rusticated wall of the first storey, and the brown stone coping, give to the exterior a rich and imposing appearance. The first storey, or ground floor, contains seven cells for prisoners, with the stone walls and iron gratings so massive as to preclude every possibility of escape to the prisoners, yet with ventilation and light sufficient to give them an air of comfort. On this floor are also the Sheriff's kitchen, dining room, cellar, coal room, and two large furnaces to heat the cells. The several offices are on the second floor, and the court and jury rooms on the third.

The main entrance to the building is on the second floor. On this floor are the offices for the Prothonotary, Register & Recorder, Commissioners, Treasurer and Sheriff. The offices are all large and commodious. The three first named have a fire-proof attached to each of sufficient size to hold all the county records for centuries to come. The entrance of the several offices are from a hall that runs thro' the centre of the building. It also contains, at the south end, a parlor and bed rooms for the Sheriff's family, and at the north end a large and neatly finished vestibule, from which the upper or main floor is reached by two very massive stairways. On the main floor is first an anteroom to the court room. The court room proper is a spacious hall, 50 by 60 feet, 21 feet in height. The room is well seated. The bar enclosed, and sufficiently large to admit within it on one side the Grand Jury, and on the other the Traverse Jury. The Judges' desk, the bar cappings and the scrolls and ends of seats are of walnut, contrasting finely with the clear, white walls, giving a combination of color and a richness of finish that is very pleasing to the eye. On the same floor, and immediately in the rear of the court room are the Grand Jury room, a room for the Prosecuting Attorney, and a witness' room, entrance to these rooms on the right of the bar. The Traverse Jury enter their room on the left of the bar, passing through a hall, up one flight of stairs, where are two rooms for Juries and ante-room for the constable attending them. The whole building is heated with hot air from furnaces, and the several rooms are well supplied with cold air ventilating flues. It is evident that much care has been taken to guard against the danger of fire. No wood work is in close proximity to the hot air flues, thus avoiding all danger of fire from within, and the roof being fire-proof, there can be but little danger of it from without.

In accepting of the building, they feel that it is a structure of which the people of the county may be justly proud. In convenience and adaptation to the purpose intended, in strength of construction, in beauty of proportion, and in richness of finish, it is equaled by few, if any, in the interior of the State. The building must always remain a monument of praise to the public spirit and liberality of such of the citizens of Lewisburg and vicinity who have, by their private means, erected it, and presented it as a free gift to the county. The building committee, Messrs. Wm. Cameron, John Wolfe and Thomas Hayes, deserve the thanks of the community for their watchfulness and attention to the duties assigned them. They also deem Lewis Palmer, the contractor and builder, worthy of honorable mention for the superior workmanship of which the building, in every part, gives ample evidence. The Grand Inquest are fully convinced that Mr. Palmer has spared neither labor nor expense in combining beauty, elegance, neatness, strength, convenience and durability in the erection of the building, which will be a lasting monument to him as a gentleman and skilful mechanic, and for which he justly deserves unbounded patronage from a generous and discerning public. To Gen. Simon Cameron the thanks of the county are due for the presentation to the county of a very superior and costly court house bell.

In closing this report, the Grand Inquest would further state that they feel it due the county, that they should call attention to the proper furnishing of the building, and to the grading and enclosing of the lot. They would recommend to the Commissioners the purchase of such furniture as will be in keeping with the house; and that the lot be graded and enclosed with an iron or other substantial fence. The county having received, free of cost, a building much superior to that promised to or looked for by the people, (namely, one equal to that in Columbia Co.) we think it but just that the liberality of the contributors to the building should be met with a corresponding liberality on the part of the county, so that that which has been so liberally and handsomely given, may be as liberally and as handsomely furnished and enclosed.

JAMES MARSHALL, *Foreman.*

We, the undersigned, Judges of the Court of Common Pleas of the county of Union, approve of the ground selected and the building described by the within report, and constructed by the committee for a Court House and County Offices.

A. S. WILSON, *President.*
PHILIP RUHL, }
JOHN W. SIMONTON, } *Associates.*
Feb'y 18, A. D. 1857.

JURY TRIALS.—Com'th vs. Missouri Hunsecker, indictment for entering a store in Laurelton, morning of New Year's day, evidently under the influence of liquor. After escaping two indictments by technicalities, he was tried and found Guilty on a third. Hamlin (District Attorney) and Miller for Com'th, and Slenker and Van Gezer for Deft.

Com'th vs Wm. Watkins, for stabbing Michael Evers in the neck, at Union Furnace, Christmas eve. Both excited by liquor. Jury find Watkins Guilty of assault and battery. District Attorney and Clinton Lloyd Esq. of Williamsport for Com'th; Miller for Deft.

Com'th vs. Hugh Wilson Jr. for an assault and battery on Tho. G. Orwig of Mifflinburg—an unhappy quarrel growing out of a playful mis-application of a few drops of cold water. On trial, Jury find the Deft Guilty. District Att'y and J. M. Linn for Com'th; Miller for Deft.

Thursday morning, Civil List was taken up, and case of Rank & Roland vs. Lambert Rank put upon trial. Miller, Van Gezer and Jones for Plff; J. F. & J. M. and J. B. Linn for Deft.

Republican Meeting.

The meeting at Ammons' Hall in Lewisburg on Tuesday evening, was as enthusiastic and as dense as any held there during the last campaign: and many pronounced the address of Hon. GLENNI W. SCOFIELD, Senator from Warren county, the best they have heard on the great question of the extension of Slavery. His arguments were forcible, his manner earnest yet kind, his elocution graceful, his sarcasm terrible for its truth, and his anecdotes original and apt. The attention of the crowd was riveted to the last of a long speech, and Scofield will command an immense concourse if he ever happens this way again. No wonder that with such a speaker little Democratic Warren gave 900 maj. for Fremont.

We were much gratified with the attendance of our friends from the townships, and with the good spirit in which they all seemed to be. A German Band present, discoursed excellent music.

☞ The modern Democracy of Union met on Wednesday to "instruct" John Cummings and John M. Baum, Delegates to the 2d March State Convention. No. 1 choice for Governor, Mr. Slenker; 2d choice, Gen. Packer. Ellis Lewis for Supreme Court Judge. Thomas Bower for Canal Commissioner.

Freedom for Kansas!

An Important Vote!

WASHINGTON, Feb. 18.

A movement has been effected, testing whether the Republicans or Democrats *really* wish the infernal laws upon Kansas repealed and her Freedom restored. Let us see what ☞ Toombs and the other Buchanan men in the *Senate* will do with this equitable and wise House bill!☜

The House took up and passed (yeas 99, nays 79) a bill for the relief of the people of Kansas, repealing ALL the rules and regulations purporting to be laws, adopted at the Shawnee Mission, by a body of men claiming to be the Legislature of Kansas, and declaring invalid *all* the acts and proceedings of that assembly, likewise providing for a new election for members of the Legislature, and pains and penalties for illegal voting, and unlawful interference with the rights of voters.

A separate vote was taken on the preamble to the bill declaring unjust and unwarranted the test oaths that are prescribed for voting or holding office in Kansas; that the House Committee of Investigation report, that the Legislature was not selected by legal votes, but was forced upon them by non residents, in violation of the original act of the Territory, and having thus usurped legislative power, it enacted local and oppressive laws.

The preamble was adopted—yeas 93, nays 68. The House then adjourned.

The following are the names of all the members from the non-slaveholding States who joined the Southerners in voting against the bill in the House, declaring the Legislature of Kansas spurious, its laws invalid, and providing for a new election: Messrs. Allen, Boon, Cadwalader, English, Florence, Fuller of Me., Hall, Harris of Ill., Kelly, Miller of In., Morrison, Packer, Beck, and Whitney. (All Buchanan men.)

☞ The latest "report" of Buchanan's Cabinet—sure—is as follows:

Sec. of State—Cass of Mich.
Treasury—Cobb of Ga.
War—Floyd of Va.
Navy—Brown of Tenn.
Attorney General—Toucey of Ct.
P. M. General—J. Glancy Jones of Pa.
Interior—Jacob Thompson of Miss.
All, Slaveholders or Doughfaces.

By last arrivals from California came the new U.S. Senators—D. C. Broderick, formerly of New York, for the long term, and Wm. M. Gwin formerly of Mississippi re-elected. The election of Broderick is claimed as a triumph of the Northern or not pro-slavery Democracy. The vote of the Republicans was cast for Hon. Edward Stanley, who as a Whig Congressman from North Carolina voted against the repeal of the Missouri Compromise.

Pennsylvania Legislature.

The supplement to the bill providing for the erection of Snyder county, provides for the sale of the county lands and buildings at New Berlin, and the dividing of the proceeds of sale between Union and Snyder counties.

Mr. Zimmerman presented a petition from citizens of Lewisburg for a change in the mode of counting lumber in Philadelphia.

Mr. Bower read in place a bill relating to fishing with nets in Middlecreek.

The Legislature have agreed upon Tuesday the 17th of March for the election of a State Treasurer.

Both branches have agreed to adjourn over from the 27th of February, two weeks, to allow the Democracy to attend the Presidential Inauguration, hold their State Convention, &c. &c.

Executrix' Notice.

NOTICE is hereby given, that Letters Testamentary on the last will and testament of ABNER ROBBINS, late of White Deer township, deceased, have been granted to the undersigned, by the Register of Union county, in due form of law; therefore, all persons knowing themselves indebted to said estate, are requested to make immediate payment, and those having just claims against the same are also requested to present them properly authenticated for settlement.

JEMIMA ROBBINS, Executrix.
White Deer, Feb. 7, 1857 pd

DR. KELLING'S

Cancer Institute, for the Treatment of Cancers, Tumors, Wens, Ulcers, Scrofula, or any Growth or Sore. Chronic Diseases generally can be cured (if curable) without surgical operation or poison. For all particulars write, state diseases plainly, and enclose 25 cts for advice; Letters must have a postage stamp enclosed to pay answer. Medicine sent any distance. Address C. L. KELLING, M.D.
Mechanicsburg, Cumberland Co, Pa.

Mechanicsburg is 8 miles from Harrisburg, on the C.V. Railroad, and accessible from all parts of the Union.

Old and young, poor and rich, come all—we will do you good. ☞ To those afflicted who can not visit me personally, I will send, per mail, on receipt of $5 only, a Recipe to prepare Medicine, with full Directions for use, &c. State all particulars. Address as above 6m650

REGISTER'S NOTICE.

NOTICE is hereby given to all concerned, that the following named persons have settled their accounts in the Register's Office at Lewisburg, Union county, and that the said accounts will be presented for confirmation and allowance at the Orphans' Court, to be held at LEWISBURG, for the county of Union, on the third Friday of FEB. next, being the 20th day of said month, viz:

1 The final account of B. F. Van Boskirk, Administrator of *Richard Van Boskirk*, late of Mifflinburg, deceased.

2 The account of Christian and Jacob Shively, Executors of *George Shively*, late of Limestone township, deceased.

3 The account of George Deal, Administrator of *Henry Deal*, late of New Berlin, deceased.

4 The account of Daniel Shaffer, one of the Administrators of *Jacob Shaffer*, late of Limestone township, deceased.

5 The final account of Ner Middleswarth, Administrator of *Henry Klick*, late of Beaver township, now Snyder county, deceased.

6 The account of John Wilt, Guardian of *Malinda, Alfred, Susannah and Elizabeth C. Beckley*, minor children of Elizabeth Beckley, late of Mifflinburg, deceased.

7 The account of Wm. Eilert and John Wilt, Executors of the last will and testament of *John H. Eilert*, late of Hartley, deceased.

Hickok's Patent Portable KEYSTONE CIDER & WINE MILL,

patented Nov. 20, 1855.

☞ This is not the Mill sold in 1852. It excels all mills in the market in the ease and speed with which it grinds, and in the great power of the press.

Manufactured at the Eagle Works, Harrisburg.

PLEASE TAKE PARTICULAR NOTICE!

THAT this is entirely new mill—no expense has been spared in its manufacture—all the materials are the very best, and are used unsparingly. The Cylinders are almost twice the length of the former ones, and all, including the top Cylinder, made of Iron. The screw is two inches in diameter, with a heavy ½ V thread cut on it. The beam of the Press is cast iron instead of wood—is made very heavy, and the thread of the nut cut for four inches through it, so that the power in the Press is very much increased and cannot be broken by any fair means. The arrangement of the Tub and other parts of the Press, is very perfect. The Boxes and Hopper are all lowered in sub together; the Journals run in lengthenings; and lastly the workmanship shall not be excelled by any machine of the kind whatever. Perfection being the aim, both in the arrangement and the workmanlike department.

All persons who have been obliged to use the old fashioned nut Mill, are aware how inconvenient it is, and especially those who have not large quantities of apples. By having this Mill on your plantation or farm, you can, at any time in a few minutes make a few gallons of sweet cider for present use, or you can very expeditiously make up a few barrels. The machine, with wheel, is capable of making 6 to 12 barrels of cider a day, with ease.

The machine is made to run by horse, steam or hand power, and when the apples are ground, a small boy of fourteen years of age can press the pomace with all ease. The following may be adduced as the decided advantages of this mill:

First—It will make more Cider than any other Press, with a given quantity of apples in a given time and with much less labor and expense.

Second—It will make cleaner and sweeter cider than any other Mill.

Third—You can make the cider as you want it, and when you want it; and in quantities from one gallon to barrels.

Fourth—With it you can press your Currants, Cherries, Berries, Cheese, Butter, Lard and Tallow.

Fifth—With it use you can at all times have fresh and sweet cider.

With all the advantages resulting from the possession and use of such a Machine—is it a price so low that it is within the reach of all—can it be that any intelligent Farmer would do without it?

RECOMMENDATIONS.

JACKSONVILLE, June 15th, 1854.

W. O. HICKOK: Sir—I have one of your Improved Cider Mills; I used the Mill last October, and on trial I ground fifty bushels of apples per hour. I keep the ground apples twelve hours, and I can press out two barrels of cider per hour with two men. I can recommend your improved Cider Mill as a Mill to suit growers, for speed and a saving of labor. I can make thirty-five gallons of cider from nine and one-half bushels common apples. The cider can be pressed from the pomace without using water now. Cider will keep one year when water is not used at the press.

JOHN M'COMBE.

St. Louis, July 29, 1853.

MR. W. O. HICKOK:—Your Mills are here, and we have sold them and telegraphed for twelve more. As they are a much better made and better looking Mill than the other kind, we know they will sell quickly alongside of them at $40—price of the other $35.

We have six of the other kind, but, as we said before, people won't look at them alongside of yours.

Yours, Very Respectfully, WM M. PLANT & Co.

YORKTOWN, STAUNTON, June 16, 1853.

MR. W. O. HICKOK: DEAR SIR—It gives me great pleasure to lend my feeble influence in recommendation of your invaluable Patent Cider Mill. Any person who has made cider by the old process will quickly perceive, should they procure one of your new Mills, the utility and economy of your invention. I regard it as one of the best inventions now in use. Although I have had it but one year, it has amply repaid me for what it cost. Cider expressed through one of your machines is less liable to ferment than that made by the old fashioned Mill, and can be preserved sweet longer than that produced through the old fashioned Mill, from the very fact that it is more free from pommel, which always has a tendency to acidity, and unfits it in many instances for domestic use. Yours, respectfully, W. QUIGLEY.

This is to certify, that I purchased of D. Landreth, in October, 1852, one of Hickok's Patent Cider Mills, and have had it in use ever since. Perfectly satisfied with it myself, I have no hesitation in pronouncing it a very useful and indispensable Machine to the farmer. With it, one man and two boys can make from five to six barrels of good cider per day, easy. Many of my neighbors have purchased similar Machines. The Mill has been greatly improved since I bough mine. W. G. WARD.

May 11, 1854. Billby, Delaware County, Pa.

I hereby certify that I have used W. O. Hickok's Improved Portable Cider Mill, and consider it a valuable invention in the economy of time. The cider is cleaner and better than that made in the usual way. I am well pleased with it, and should be unwilling to part with it for quite a premium on the advanced cost. JOHN S. HALE.

July 1, 1854. Portland, Ct.

☞ More than one hundred Silver Medals and Diplomas have been given to my Mill within the last four years.

☞ This Mill occupies about 2½ feet by 3 feet, and is 4 feet high, weighing 320 lbs, is every way portable and convenient. ☜ [PRICE $40.

Lewisburg, Sept. 1856.

M. H. Dersham, M. D.,

HAVING permanently located in Lewisburg, Pa., respectfully tenders his Professional Services to the citizens of this town and vicinity, hoping by prompt attention to the duties of his profession to merit a share of their patronage. Attention will also be paid to Chronic Diseases of every name, and treated with unparalleled success.

DR. DERSHAM graduated at the renowned American Eclectic Medical College, Cincinnati, having first studied the Old or Allopathic system of medicine, and attended Lectures in one of the Old School Medical Colleges of Philadelphia; but becoming convinced of the superiority of the New or American Eclectic system, he commenced its study, and attended two courses of Lectures in the Reformed or American Eclectic Medical College of the Queen City of the West. This Institution, although yet in its infancy, has no superior in the Great West, and has already annually more Students than the four other Medical Colleges of Cincinnati combined. It is sending physicians to all parts of our state, and in Ohio, Indiana, &c., they will soon be more numerous than any other class of physicians.

The principal difference between the Reformed (now or Eclectic, and the old Allopathic system of medicine is this: the New School uses no medicinal agent that is in any way injurious to the human system, such as Calomel, Arsenic, Antimony, &c.; for superior and harmless agents have of late years been discovered, (by the ever liberal and progressive physicians of the New school) that are complete substitutes for those deleterious medicines. Our liberality, &c., to observers and readers of this notice. With these valuable new agents, and all those of the Old or Allopathic school retained in the Eclectic practice, as above, and all the improvements of every other system of medicine (as the Homœopathic, Hydropathic, Physiomedical, &c.) many diseases are now curable that were once considered impossible, and that too without breaking down the constitution, and creating other diseases, as in bility, Rheumatism, Dyspepsia, Liver Disease, Effects of Mercurial Poison, Diseased Bones, premature Loss of Teeth, &c.

The New school certainly claims a great superiority in the treatment of all diseases. It has been proved by Clinical reports that the mortality—taking all diseases together—is less than 2 per cent; that of Asiatic Cholera is only 3 per cent.

This is an age of progress and improvements, and the New School is always progressing, not being bound down by despotic creeds and antiquated theories.
