Maiden Resolutions.

Oh! I'll tell you of a fellow, Of a feilow I have seen.

Who is neither white nor yellow, But is altogether green ! Then his name it isn't charming, For it's only common "list;" And he wishes me to wed him,

But I hardly think I will! He has told me of a cottage, Of a cottage 'mong the trees, Don't you think the silly gawky Stumbled down upon his knees ! Were enough to turn a mill ?

And he begged me to accept him, But I hardly think I will! Oh! he whispered of devotion, Of devetion pure and deep, But a seemed so very silly. That I nearly fell asleep

And he thinks it would be pleasant, As we marney down the hell, But I hardly think I will!

He was here last night to see me,

I began to think the blockhead Never meant to go away.

At first I learned to hate him, And I know I hate him still! Yet he urged me hard to have him, But I hardly think I will.

I am sure I wouldn't choose him, But the very dence is in it, For he says if I refuse him, That he could not live a minute; And you know the blessed Biole Plainly says "we nusts't kill;" So I've thought the matter over,

AND I RATHER GUESS I WILL! -Miss Mary F. T. Tucker, Richmond, Va.

arrived at the true principle of protecting families, dwellings and property from the destructive influence of LIGHTNING. The calamities that every City, Town, Village and Country falls victim to annually, thro' the gross negligence of its inhabitants, is beyond calculation, especially when the remedy is so easy to obtain-this is found in ARMITAGE'S

Patent Magnetic Lightning Hobs, and in this alone. This Rod has been examined by the nost scientific gentlemen in the world-Protessors M'Murtrie, Johnson, Walter and man others that have examined them, recommend and speak of them in the highest terms of approbation. and have pronounced them the only safe rods in use in this or any other country for the protecti of Lives and Property, One advantage is to divide and throwback a part of the electric fluid harmless to the clouds; in time of a stroke this enables the rod to conduct that portion of fluid that belong to the earth without the slightest danger of lea-ving the conductor. This red has many other advantages over the old one. The only place of

manufacturing is in Vine St. 3 doors above 12th, Philadelphia, where all persons are respectfully invited to caland examine for themselves. For sale Wholesale or Retail by THO'S ARMITAGE, Orders promptly attended to. Terms each.
