American Travel.

Railroads, steamboats, stages, wagons, Iron horses, snorting dragons, Side-wheel ducks with heads of steam on, Four-horse drags unfit to dream on: One-horse teams -at these don't cavil, What's the odds? we're bound to travel. Down the grand, broad Mississippi. Go 'way small streams, this will whip ye; Bluffs and sand bars, snags and sawyers, You're, for steamboats, sad destroyers. Big old strong! your praise I give ill: Never mind, we're bound to travel. Foam, and mist, and spray, and thunder-Little Europe, stand from under Here's Niagara, our own roarer, Of all other Falls the floorer! Come here, cockneys! and be civil; Come and learn the way we travel. In the railroad o'er the prairie. Whirr! up fly the prairie-chickens; Whish! the deer run like the dickens. Poreign tourists, do be givil. Come and learn the way we travel. Flying sparks, and dust, and cinders, Coming in at doors and windows; Bad hotels, and awful cating; Rum hack-drivers, death on cheating; Clothes begrimmed with dirt and gravel-That is what we catch who travel. Mountains, vallies, hills, and rivers, Each one to the landscape givers, Granite hills and rocks, we greet ye!

INTERESTING FROM UTAH! "SQUATTER SOVEREIGNTY" TRIUMPHANT .- A Washington correspondent of the N. Y. Herald says that a letter has just been received from Judge Drummond, which gives a deplorable picture of the condition of affairs in Utab. The following is an extract:

Is there any other country where this abuse would be endured? Let all then, take a hold and crush out one of the most treasonable organizations in America."

MYSTERIES OF NEW YORK .- The New Vesh serrespondens or the Charleston Conrier gives a long assount of a most strange story which he alleges to be strictly true. Washington from the picture by A beloved and elderly paster of one of the New York city churches was salled upon one night by a man who requested him to go and christen two of his children. He promptly complied. As he was returned. go and christen two of his children. He promptly complied. As he was returning home he was accosted by a person who called him by name and accused him of issuing from a house of ill fame! Money was demanded of him, and in default of paying it he was threatened with exposure.

Old Psalm Tunes.

There is, to us more of touching pathes, heart thrilling expression in some of the old psalm tunes, feelingly displayed, than TER'S BUDGET, for Chairs and the Family in a whole batch of modernisms. The strains go home, and the " foundations of the great deep" are broken up-the great deep of mafathomable feeling, that lies far, far below the surface of the world hardened beart ; and as the unwonted, yet uncheked tear starts in the eye, the subdued spirit yields to their influence and shakes off the load of earthly care, rising purified and spiritualized into a clearer atmosphere. RECOMMENDATIONS. RECOMMENDATIONS.

I have this day carefully inspected a conductor or lightning field, with vane and index exceled by Mr. Thomas Armitage, on Bellevine House Glomester, and have no bestation in saying that it is not only the best I have ever seen, but that it is the only one I have yet examined that is constructed on strictly essential principles. It is with much pleasure that I resummend his conductor to the attention of congress of buildings.

I am well satisfied that the Marrier Land.

I am well satisfied that the Magnetic Lightning E I am well satisfied that the Magnetic Lightning Rod manufactured by Mr. Thomas Armitage, of Philadelphia is the best that has ever been made. That see spent several years in the atody of the laws of the tricity and magnetism, and have no hesitation in saving that these Rods are constructed upon the only principle of safety. The electric shock is received and dispersed by the magnet at the top of the rod, and it would be impossible incording to the laws of attraction and repulsion, for a building to be injured by a stroke of lightning when protected by one of these rods. I have been acquainted with Mr. Armitage for several years, and before he emmenced the manufacture of these rods I examined the principle on which the are constructed, and full confined that their adopting would be attended with complete success. The increasing demand for these rods and the exit invascaies in all parts of the country, is ample commendation of their atility and of the country, is ample commendation of their utility and superiority.
