Hoops vs. Goatees. Talk not to us about our hoops. We'll wear just what we please, For every lady now doth need Protection from the wooly breed,

If she regards her ease. Was ever earth more crushed with trash Than you who grow the vile moustache, And, with no sparing hand, Deal out to us in endless rhyme That wearing "hoops" is all a crime,!
But this we understand.

There's some of you look quite feline. While others look somewhat eanine, And some seem both combined; Just as it seems to suit the taxte If they but had a mind.

Then, too, in this progressive age, A wooly face is all the rage, A human head to mask : Which makes one look so very prim, Like every other wooly-jim, But here just let me ask,

Is there a hole about your head which to put your daily bread?

If so, where is the place? For, I declare, no one can see Where such a spot can fairly be,

And if you have, it in use, And filled with vile tobacco juice, All ready for a squirt Upon some lady's fancy dress, Or in the face of leveliness— What don't fall on your shirt.

To smoke, and chew, and raise a crop Of rie-EED wood and act the fop, With time and money spent, Just fills your cup of varretures, While, too, you are to fithliness A walking monument.

And as you walk the streets about, Like some great awkward, lazy lout, With a long nine to puff, You think yourself most wondrous wise. And like the TOAN quite large in size— But hold, I've said enough.

ONE and Two Horse Endless Chain O POWER.—The undersigned being con-vinced by practical experience of the superiority of Vanderslice's Tread Power over the or-dinary five horse power now in use in the West Branch country for threshing out grain, have purchased the patterns and right to make them. We are now making and have on hand a large number, which we propose to introduce on the plan if they don't answer to the letter of the guarantee given with each of them, the machine will be taken back and the money refunded, if paid. They are now almost the only entire Threshing Machines in use in Chester, Montgomery, Berks and Delaware counties. Their advantages are that they will do almost double the work, ac-cording to the number of horses used, than the old machines will do; E they will save at least two hands; and Threshing can all be done snngly closed up in the barns, in wet days, when the hands would be otherwise wet days, when the hands would be otherwise unemployed. the best Reaper, and not posted in the matter, had better see a little further. One of the other Reapers took the great medal in England, at the premature trial in 1851; before the close of the harvest of the same year, however it was totally beaten by a HUSSEY REAPER, which received the ununimous award of an impartial Jury of twelve Euglish farmers. The fact is that Hussey's machine is achieving a series of triumphs in Bagland, and rapidly obtaining that pre-minent position there, which it has already secured in the land of its origin. If there is any value in 23 years' experience in building Reapers, and using them in the harvest field, OBED HUSSEY, the Pather . : apers, can claim it. Ayer's Cathartic Pills.

THE sciences of Chemistry and Medicine have been taxed their utmost to produce this best, most perfect taxed their urmost to produce this best, most perfect purgative which is known to man. Innumerable proofs are shown that these Prits have writtee which surpass in excellence the ordinary medicines, and that they win unprecedentedly upon the esteem of all men. They are ask and picasant to take but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the block, and expel disease. They purpe out the foul humors which breed and grow distemper, stimulate sluggish or discreted organs into their natural action, and impart healthy tone with strength to the whole system. Not only do they care the every-day complaints of every body, but also formidable and dangerous diseases that have befiled the best of human skill. While they produce powerful effects, they are at the same time, in diminished does, the effects, they are at the same time, in dimeffects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and being purely vegetable, are free from any risk of harm. Ourse have been made which surpass being were they not sub-vantiated by men of such exalted position and character as to furfield the suspicion of untruth. Many eminent clergymen and physicians have lent their names to cert-ify to the public the reliability of my remedies, while others have sent me the assurance of their conviction that my Preparations contribute immensely to the relief of my
