## Hussey's American Reaper & Mower, for cutting both Grain and Grass! Great Improvements for 1857 !

THIS Machine was put in successful operation in 1833, and continued to be the only Reaper and Mowing Machine in the World of any pratical value up to 1845-twelve years after its introduction. Other Reapers are now offered with glowing Advertisements and Certificates of Gold and Silver Medals. But the Farmer, in search of the best Reaper, and certificates of Gold and Silver metals. But the Farmer. One of the other Reapers took and not posted in the matter, had better see a little farther. One of the other Reapers took the great medal in England, at the premature trial in 1851; before the close of the harvest of the same year, however itwas totally beaten by a HUSSEY REAPER, which received the unnimous award of an impartial Jury of twelve English farmers. The fact is that Hussey's machine is achieving a series of trumphs in England, and rapidly obtaining that pre-eminent position there, which it has already secured in the land of its origin.

[ This cut represents the Reaper.] If there is any value in 23 years' experience in building Reapers, and using them in the harvest field, OBED HUSSEY, the Father of Reapers, can claim it. All who are satisfied with the BEST REAPER AND MOWER can be supplied by sending their orders early in the season, as the crops indicate a large demand, and we can not have over 200 Reapers really

### [ This cat represents the Mover.]

During the last four years, the subscribers have sold between 500 and 600 of these Machines, to the best and most successful Farmers in Union and the neighboring Counties, (whose names are too numerous to inser.) to whom we respectivily refer.

The subscribers have the exclusive right in the following countes: Union, Snyder, Nor-thumberland, Montour, Columbia, Luzerne, Perry, Mifflin, Centre, Clinton, and Lycoming. All orders thankfully received and promptly attended to. GEDDES, MARSH & CO.
