A mistaken quotation. The true reading is, 'Hope, deferred, makes the heart sick.'

Stubbs Seeks Revenge.

"Poppy, old Smith's grey colt has broken into our cabbage patch again." "He has, has he? Well, just you load

my rifle, my son, and we will see if an ounce of lead will not lead Mr. Smith's colt to reform his habits."

This soliloguy passed between Mr. and Master Stubbs. Mr. Stubbs take his rifle, marches over towards old Smith's farm, and when within about thirty rods of old Smith's barn, he raised the "deadly tube," took aim-pulled the trigger, and dropped "one of the best looking grey colts in the country."

Stubbs having fulfilled his mission, returned home, went to bed, and slept with a lighter conscience than he had enjoyed during the last eight months. The next morning, while scated at breakfast, who should be seen striding towards the domicile of Mr Stubbs but ald M. Quist Smith entered the house-Smith was excited, and for a moment lacked words to ex-

press himself. "Mr. Stubbs, I've come over to tell you that a horse was shot near my barn last night."

A Telling Anecdote. -

The most eloquent of all Southerners-[New England born and bred] as I think, was SARGENT S. PRENTISS. Once, he was addressing a crowd of some thousands in defence of the Tariff, and, in the course af an eloquent period which rose gradually to some beautiful climax, be painted the and Prescriptions at a moment's notice. We thrift, the energy, the comfort, the wealth, the civilization of the North, in glowing Dyestoffs, Oils, Paints, Glass, Putty and DRUGGISTS' GLASSWARE, of the assembly, in the open air, a horseman of magnificent proportions; and, just at the moment of hush and attention, when the voice of Prentiss had ceased, and the applause was about to break forth, the horseman exclaimed " D-n the North !" The curse was so much in unison with the habitual feeling of a Mississippi audience, that it quenched their enthusiasm, and nothing but their respect for the speaker kept the crowd from applauding the horse Fire Proof and Zinc Paints. man. Prentiss turned his lame foot around, and said, " Maj. Moody, will you rein in that steed a moment?" He assented. Said he, "Major, the horse on which you sit, came from Upper Missouri; the saddle that surmounts him, came from Trenton, N. J; the hat on your head, was made in Danbury, Conn.; the boots you now wear, came from Lynn, Mass.; the linen of your shirt is Irish, and Boston made it up; your broadcloth coat is of Lowell manufacture, and was cut in New York; and if, to-day, you surrender what you owe the North, you would sit stark naked." We are now making and have on hand a large number, which we propose to introduce on the plan if they don't answer to the letter of the guarantee given with each of them, the machine will be taken back and the money refunded, if paid. They are now almost the only entire Threshing Machines in use in Chester, Montgomery, Berks and Delaware counties. Their advantages are that they will do almost double the work, ac-cording to the number of horses used, than the old machines will do; for they will save at least two hands; and Threshing can all be done snugly closed up in the barns, in wet days, when the hands would be otherwise T. Perfection being the aim, both in the arrangement and the medianical department.

All persons who have been obliged to use the old fashioned unit Mill, are aware how inconvenient it is, and especially those who have not large quantities of apples. By having this Mill on your plantation or farm, you can, at any time, in a few minutes make a few gallons of sweet cites for present use; or you can very expeditionally make up a few larreds. The Machine, well worked, is expable of making of the 12 barrels of either a day, with case.

The machine is made to run by horse, steamer hard power, and when the apple are ground, a small bey of four test vears of ace can press the pomnee with all case. The showing may be adduced as the decided advantages of this mill.

First—It will make more Citer than any other Press.

First-II will make more Cider than any other Press,
with a given quantity of apples in a given time, and with
much less labor and capense.

Second-It will make cleaner and sweeter elder than

my other Mil.

Third—You can make the cider as you want it, and then you want it, and in quantities frem one gallon to arrels.
Fourth—With it you can press your Currants, Cherrico, lierrico, Cheese, Butter, kard and Tallow.
Fifth—With its use you can at all times have fresh and sweet cider.

W. O. Hicker: Sin—I have one of your Improved Chier Mills at October, and on trial I ground fifty bushels of apples per hour. I keep the ground apples twelve hours, and I can press out two barrels of cider per hour with two men. I can recommend your improved Chier Mill to all fruit growers, for speed and a saving of labor. I can make thirty-five gallous of cider from nine and one half bushels common apples. The cider can be pressed from the permace without using water now.
