#### HOMEWARD-BOUND.

Eating and rough sets the day -There is a first theating for somebody; I parathene under say -samelody a sat close for somebody. Thrins hath she been to the gate -Thrins hath she bitsend for somebody; Under the night, stormy sudlate, indet the night, shoring and late, Samelary's waiting for somebody.

There'll be a confering fire— There'll be a weichne for someboly; One, in her period attre, Will beit to be table for somebody. Though there's first from the West, There howstary if is rounded west, Licitize the bases he served bet— Warming the besin of someboly

Warming . There'll be a coal o'er the chair, There il be slippers for some body— There il be a sile's bruder cars— Love's foud embracement for somebody. There il be the little one's charms— Soon 'twill be wekened for somebody ; When There both is any arms, Oh! but how block will be somebody.

#### Wasted Thoughts.

Few persons know how much it costs to write a good article for a daily or weekly journal. Days, and even weeks, of the very best talent, are sometimes spent upon a single column. Whole libraries are examined, to illustrate or substantiate a single position. The light of ancient and giving Health and Vigor to the frame, and Bloom to the pailid cheek. modern days is concentrated and poured upon it. This article is printed, and sent into the world-a world of ignorance and suffering, where such articles are sometimes worth a thousand times their weight in gold. They are brought to men's doors, and thrown upon their tables. But, nlas! how few of the busy multitude read them, and still less understand and profit by them !

How often do we see the very best religious papers, after being skimmed over for a few items of news and anecdotes, thrown into the waste-drawer, used to do up codfish or tobacco, or to light a cigar! That immortal truth which cost so much to elaborate, and which so many are perishing for the want of, so far as thousands are concerned has vanished in the air. Those very persons who least prized the

truth, were those who most needed it. Often have we thought, when reading

some soul-stirring article, what a pity that so few in the world will read and profit by this! No one in twenty in the small circle where the journal circulates, will see it, and not more than half that number will do anything more than give it a passing glance. The world is rich in knowledge, yet the great mass are starving and dying for want of it. After it has been dug from the mine with hard toil, and prepared with wise discrimination, for their special benefit, they turn from it with utter neglect .- Congregationalist.

#### Death of a Pioneer.

Disn-In Snowshoe township, Centre Co. Pa., 28th May last, SAMUEL ASKEY, Esq., aged 81 years, 3 months and 14 days.

The subject of this phituary was born in Path valley, Franklin county, Pa. He was for some time in the service of his country under Gon Harrison. After the country under train services were no longer required, he re-turned to the place of his nativity; after-wards visited the wilds of the Snowshoe country, with a view of seeking a new nome, and settled about one mile from era Take had of Draggists and Deders throughout the the little or Black Moshannon, and 17 United States, Grandas and Beitich Provinces. the little or Black Moshannon, and 17 miles from the Bald Engle valley, the then nearest settlement. He was one of the two first settlers that followed in the Settler the settlers that followed in the the two first settlers that followed in the ; trail of the Indians ; they had left but a Important to Daguerreotypists, Marble short time previous, leaving their hunting

States. on his own presence of mind and the faithfulness of his dog.

Much of his time was spent in hunting, high proceed to be the most increation but, dress, A. L. BALDWIN, Agent which proved to be the most lucrative business in which he could engage in his | 660m3] new home. He killed, during the time he lived in Snowshoe, 60 panthers, 98 wolves, (to this the records of Centre county will bear testimony,) about 500 deer, and a large number of bears, the precise number could not be obtained, but, in a statement given by himself to the writer, he sold in one season 2700 weight have a large and well selected stock of fresh of bears' meat.-Bellefonte Democrat.

THE WAY THEY GET RICH OUT WEST. -The Newburyport Herald relates the experience of a friend just returned from the West. He says :

"Here is the whole story. We complain of hard timer, and go West to better Fin our condition. If we would live in a log or mud house, with one room and no floor, a general variety of Literary and School Books Pine Oil, Lard and Fluid Lamps of every sleep on straw, go barefooted, wear the cheapest and coarsest clothes, and deprive ourselves of all the comforts of life, any body might squat upon two acres of common pasture, and with the same labor be as rich in seven years as upon any half seetion of land in Kansas : and if there were hundreds thus squatting, they could get up a land fever, speculate in lots, and have the prices go up as they do in the West. What people save in the new States, they crush out of themselves, and that they can do anywhere. All the advantages they have, is the privilege of living as mean, and having their children as mean, as huand having their children as mean, as hu-man nature will bear, with nobody to find fault with it; while here, living in the same manner, they would severate from same manner, they would separate from the masses as much as the gipsies do. If any of our people wish to learn practically about this much as the gipsies do. If about this matter, let them take a view of about this matter, let them take a view of the basket-makers who drive into market from New Hammshire and then as home from New Hampshire, and then go home and live with them a month in the back part of Barrington, and they will be saved . the trouble of going to Kansas."

and PROMPT PAYMENT on the adjustment of Los

HAT this is entirely new mill-no ex-pense has been spared in its manufacture If the materials are the very best, and are

-all the materials are the very best, and are used unsparingly. The Cylinders are almost twice the length of the former ones, and all, in-cluding the top Cylinder, under of Iron. The screw is two inches in diameter, with a heavy 14 V thread out on it. The beam of the Frees is tax's most instant of wood-is made vaxy mayr, and the thread of the nut cut for iron inches through it. The power of the Free's is very much increased and cannot be broken by any fair means. The arrangement of the Tub, and other parts of the Frees is very perfect. The Boxes and Hopper are all corvers in the transformed the broken being the aim, both in the arrangement and the mechanical department. All performs the have been obliged to use the old frach-ing the work have been obliged to use the old frach-ing the theory of have not have a quantities of apples. By having this Mill on your plantation or farm, you can, at any time in a fram, by each of an were defined in a frame, by machine of the frame of the Mill on your plantation or farm, you can, at any time in a frame, bry one and we pedialized in set of the set of the frame of the Mill on your plantation or farm, you can, at any time in a frame, bry one and we pedialized in set of the formed on the present with works a few gallions of were to the first of the Mill on your plantation of the set of the first of the for present in the Mill on your plantation of the set of the set of the for present in the Mill on your plantation of the set of the first of the for present in the Mill on your plantation of the set of the set of the for present in the Mill on your plantation in the set of the first of the for present in the Mill on your plantation the set of the first of the for present in the Mill on your plantation the set of the first of the set of the for present in the Mill on your plantation the set of the first of the first of the mill be the set of the set of the first of the set of the set of the first of the

By having this a few ministermake a few gallons of sweet elder for present use, by you can very expeditionaly make up a few harries. The Machine, well worked, is expable of making 6 to 12 barries of cider a day, with ease. The machine is made to run by hores, steam or hand pow-er, and when the apples are ground, a small boy of four-ferd years of age can press the pomose with all ease. The following may be ablaced as the decided advantages of this mill. First—It will make more Cider than any other Press, with a given quantity of apples in a given time, and with weak has taken a spense.

First-It will make more Color than any other Press, with a given quantity of apples in a given time, and with much less labor and expense. Second-It will make cleaner and sweeter cider than

any other Mill. Thick-You can make the cider as you want it, and when you want it; and in quantilies from one gallon to barrels.

barrols. Fourth-With it you can press your Currants, Cherrics, Berrics, Cherse, Buiter, Lard and Tallew. Fifth-Withits use you can at all times have fresh and sweet cider.

sweet cider. With all the advantages resulting from the possession and use of such a Machine-at a price so low that it is within the reach of all-can it be that any intelligent Farmer would do without it?

Farmer would do without it? RECOMMENDATIONS JACEROWS, June 15th, 1854. W. O. Hacker: Sim-I have one of your Improved (ther Mills: 1 used the Mill has Otbler, and on trial I ground fry bushels of apples per hour. I keep the ground apples twelve hours, and t can press out two barrels of cider per hour with two men. I can recommend your improved (Cider Mill to all fruit growers, for speed and a saving of labor. I can make thirty-five gallons of cider from nine and one-half bushels common apples. The cider can be pressed from the pomace without using water now. Cider will keep one year when water is not used at the press. JOINS MYCOMBE, SF. Lears July 20, 1533.

Sr. Louis, July 29, 1853. Mn. W. O. HICKOR :- Your Mills got here, and we have Mg. W. O. HICKOK :- FOUR Mills got nere, and we have rold them and telegraphed for tweive more. As they are a much better made and better looking Mill than the other kinst, we know they will sell quickly alongside of them at 32-better of the other 32. We have six of the other kind, but, as we said before, people work look at them alongside of yours. Yours, Very Respectfully, WM. M. PLANT & Co.

prople won't look at them alongside of yours. Yours, Very Respectfully, WM. M. PLANT & Co. Yours, Very Respectfully, WM. M. PLANT & Co. Yoursowwaawrows, June 10, 1853. Mr. W. O. Hick's: DEAR Sim-II gives me great pless ware to lead my feelie influence in recommendation of ware to lead by the old process will quickly parcely should have also be the stand process will quickly parcely should be procure one of your new Mills, the utility and scon-omy of your invention. I regard it as one of the best in-part in the samply repaid me for what it cost. Giver sci-mentation, and can be preserved sweet longer than that be through one of your machines is less liable to fer-mentation, and ean be preserved sweet longer than that to that it is most free from pomme, which always has a toulong to achility, and unfits it in many instances for domestic use. Yours, respectfully, W. QUIGLEY. This is to certify, that I purchased of D. Landreth, in far that it is use the science for the farmer. With it, and in in use sets since. Ferferily satisfied with it of good cider per day, easy. Many of my neighbors have prochased similar Machines. The Mill has been greatly improved similar Machines. The Mill has been greatly improved sime loogup mine. W. O. WARD. May 11, 1854. Killey, Deleware County, Pa. 1 bough mine. W. G. W. G May 11, 1854. nty, Pa.

May 11, 1554. Editory, Determine Country, Pa-1 hereby certify that I have used W. O. Illekol's Im-proved Portable Color Mill, and consider it a valuable in-rention in the common of time. The cider isolesner and better than that made in the usual way. T am well pleased with it, and should be uawilling to part with it for quite a premiumen the advanced cost. Joint S. It Male. July 1, 1554. Portland, Ct.

July 1, 1864. Portland, Ct. 30, More than one hundred Silver Medala and Diplomas have been given to my Mill within the last four years. 33-This Mill occupies about 236 fort by 3 fort, and is 4 fort bigh, weighing 370 Hs, is every way portable and convenient. So Address, W. O. HICKOK, Agent Engle Works, Harrisburg, Pa. For cale by JOSEPHI MFADDIN, Lewisburg, Pa.

members of the Committee. The SAEs were then cooled off with water, after which they were opened, and the books and papers taken out by the Committee and taken to H. A. Lantz's store for public examination. After they were first examined and marked by the Committee. The books and papers taken from the Safe manufactured by Evans & Watern were hut signify affected by the indense heat, while these taken from the Safe manufactured by Earrisk & Herring were, in our public total by the indense future of event, more than these taken from Evans & Watern's M.
